Longwood at a Glance

by T. C. DALTON
Director of Special Services

This year's enrollment is 2,232, approximately the same as last year and reflects the decision made two years ago to level off our enrollment. *On hand to greet the students in September were 150 faculty members, an increase of 2 over last year. Among the new faculty members in the Social Science Department is Nancy Britton, '68. Candice Jamison Dowdy, '69, was recently appointed Admissions Counselor. A major renovation, including air conditioning, an additional wing and banquet room was completed in the dining hall in the early fall. Dr. Merry L. Allen is the new chairman of the mathematics department, replacing Dr. Blanche C. Badger who retained her position as professor of mathematics. Mrs. Martha H. LeSturgeon was recently appointed Director of Dabney S. Lancaster Library. The college completed a year of intensive self study during the 1971-72 school year seeking re-accreditation by the National Council for the Accreditation of Teacher Education (NCATE), Southern Association of Colleges and Schools (SACS), and the State Department of Education. A visiting team from these three agencies will visit the campus March 4-7.* Longwood students have been very much in the news: Janet Howard, a senior from Roanoke and the current Miss Longwood, was selected Longwood's May Queen for next spring; Cindy Bradley, a senior from Mechanicsville, will represent Longwood at the Apple Blossom Festival in Winchester; Dana Hutcherson, a junior from Roanoke, was chosen to play on the Southeastern Regional Hockey Team competing in the National Hockey Tournament in California. From this tournament, players will be selected for the United States Hockey Team. *New members of the Longwood College Board of Visitors are: Mrs. E. A. West (Natalie Carroll West, '44) of Rocky Mount; Mrs. G. William Whitehurst of Arlington and Norfolk; Mr. Eric L. Robinson, '54, from Farmville; Mr. Ralph Page, from Richmond, and Mr. Roland Thompson, from McLean.* Major student government officers for 1973 are: Barbara Bannin, from Newlett, N.Y., Student Government President and Chairman of the Legislative Board; Cindy Crisp, from Farmville, Chairman of the Judicial Board; Debbie Waldron, from Roanoke, Chairman of Residence Board; and Linda Gill, from Clarksville, Chairman of Orientation.

Thoughts of the President

I appreciate the opportunity to again use the *Alumnae Magazine* to pass on thoughts concerning the College to our many alumnae and friends. I view my report this year with a degree of nostalgia since December 1 marked the fifth anniversary of my coming to Longwood.

Longwood, along with most institutions of higher learning, has undergone a number of changes which are discussed in Dr. Blackwell's article, "Longwood's Non-Teaching Programs: the Need for Greater Awareness." Some of these have come into existence by the general awareness of colleges across the nation that students are becoming more mature in their actions, and some are the result of the increased volume of knowledge available to be transmitted to the students. We have just completed the Self-Study reports which have reviewed our progress for the past 10 years. This study has pointed out several areas where additional change needs to occur, especially in our academic program.

A combination of the Self-Study reports and the general recruiting picture throughout the nation dictates that the college must retain the image of a high-quality teacher-training institution and, at the same time, make the general public, as well as specific groups, aware that we have programs of quality in the liberal arts, social welfare, pre-professional work in the health sciences, and other areas. In no way do we intend for Longwood to lose its reputation in the teacher-training field, and yet we have not perhaps been publicizing to the extent we should the many other programs of high quality in which a student may study here.

The College has grown rapidly in the past five years, and we have reached what we think is an ideal size. A larger student body would tend to take away from the friendliness and personalization which makes Longwood an attractive college for many students. Our current size enables students to be fully exposed to a faculty of high quality.

Our faculty is a teaching faculty, and no student is taught by a graduate assistant instead of the professor who was listed to teach the course. The quality of our faculty has long been recognized by those with exposure to the College, and last year our students initiated an award as tangible recognition of this fact. A student committee chose in May of 1972 to honor at graduation one faculty member each year who, in their eyes, is an outstanding example of the quality of our instruction. Miss Barbara Bishop, chairman of the Art Department, received this award last year.

Of vital importance to our students are the many services that can be offered and the many areas which can be opened up through the monies provided by gifts to the Longwood Foundation. We are very fortunate to enjoy the support of Mrs. Jeanne Sully West who

has contributed works of art and money toward the establishment of the Sully Gallery. *Alumnae* will see some of the fruits of her contribution this Founders Day with the opening of a Sully Exhibit. This is only the beginning of the type of program that can be made possible here at Longwood through a generous giving program. The College is also working toward receiving grants which can supplement our academic program. The most recent grant received was from the George J. and Effie L. Seay Memorial Trust providing instruction in Christian Education. These foundations ask specifically and weigh very heavily the figure as to the percentage of alumnae who contribute to the college in awarding these grants. We hope that this will be the impetus of an extensive program to supplement our academic offerings here. While we are not attempting to match the volume of giving necessary at private colleges, there is no doubt that these contributions and grants can keep Longwood as a quality institution—a cut above the normal state-supported college.

Regulations regarding student life here at the College are always under intensive study, and several changes have resulted. Many of these have been brought to our attention by a responsible student body who, while they seek change, do so in the proper manner. I am happy to report that, while change has occurred, many of the traditional values that have been held by our students still exist. I would challenge any institution to match the spirit of our student body. It is hard not to see this, when 80 per cent of our students each year participate in major student government elections, and students constantly volunteer to go "one step beyond" in their support of the College, such as giving up their own vacation time to aid in orienting our new students.

Perhaps the area in which your greatest contribution can be made is that of student recruiting. If we are going to maintain the caliber of student body that we have had in the past, your help is important. We have an obligation to your institution not to take students who we do not feel can do college work. Eighty-five per cent of our current freshman class were in the top two-fifths of their high school graduating class. You know the type of student who would benefit from an education here at Longwood, and we need your help in identifying them and interesting them in our programs.

My five years at Longwood have been exciting and rewarding ones, made so by the interest, enthusiasm, and high caliber of our alumnae who have carried the benefits of their education here beyond the doors of the Rotunda and into the homes and schools of the communities in which they reside. With your support, we will continue to offer students a quality education and a preparation for tomorrow's world unsurpassed in the state.

Longwood's Non-teaching Programs: the Need for Greater Awareness

by Dr. Herbert R. Blackwell, *Dean of the College*

At frequent intervals, students come by my office seeking to change their choice of academic majors. Although the rate of change at Longwood is less than it is nationally, we find that approximately forty percent of our youngsters decide on a new major within their first two years of college. Except for their own private agonies of decision, such changes seldom cause them problems since the great flexibility of our common core requirement lets students adjust their curricular offerings with ease. Only where a student chooses a highly specialized program like home economics or business education is there any difficulty, and that can usually be resolved by adding one summer term to the student's planned study at the college.

Sometimes it is hard to convince a student that a transition from one major to another poses no special difficulty. Nonetheless, such cases can usually be resolved once we have planned a schedule of classes to cover the young lady's four years and she can see clearly that she will be able to fulfill her graduation requirements.

One type of change continues to cause frustration, however, and it involves a basic ignorance that is widespread among our student body, that is frequently found in our alumnae, that sometimes exists in our faculty, and also is held by some counselors in the public schools who may have only a passing acquaintance with Longwood. It is a belief that Longwood exists only as a teacher-training institution, that its curriculum is limited only to those programs which lead to a career in public education. The student who wishes to change her major from one in teacher education to one that is non-teacher oriented usually takes a lot of convincing before she is ready to accept without reservation that there is a program at Longwood for her and that her career opportunities after completing such a program are excellent.

That such an attitude is prevalent is understandable enough, although it is deplorable, given the immediate needs and opportunities of our time. In part this attitude is a tribute to the long-standing traditions of excellence that Longwood has maintained in teacher training. The college is known throughout Virginia for the quality of teacher education it maintains. Another reason is found in the basic history of the college. After all, it was Farmville State Teachers College before it became Longwood College. And before that it was the State Normal School for Women. That the change in title twenty-five years ago also brought with it a broadening of the scope of instruction is a fact frequently overlooked. The college's stated academic purpose, approved by both its Faculty and its Board of Visitors, is found at the beginning of the current catalogue:

The primary educational objective of Longwood College is to provide a baccalaureate curriculum distinguished by academic excellence. Particular attention is given to teacher preparation; pursuant to the goal of academic excellence, every effort is made to combine a strong liberal arts approach with this professional emphasis. *The College also offers liberal arts degrees without teacher certification, as well as social welfare, office administration, and pre-professional medical curricula.*

Without any intention of reducing the excellent quality of our teacher-training programs, we are making intensive efforts to bring about greater awareness of the non-teaching degree offerings available to our students. And we are expanding those non-teaching offerings whenever it is feasible to do so. In the last three years we have introduced new major choices in home economics and in business for students who were previously restricted to teacher-training programs in

those disciplines. We have added a totally new major concentration in social welfare. We have expanded our pre-medical programs and we have had exploratory talks with officials of the University of Virginia to look for ways to gain greater flexibility and greater participation in our speech pathology degree. Through our cooperative program with Hampden-Sydney College we have added the breadth of its curriculum choices. *Every academic department except the Departments of Education and Physical Education at Longwood offers a non-teaching degree as well as a teaching certification program.* We offer, in other words, the full range of curricular choices that can be found in any liberal arts college of our size.

Why is this so important? Well, for one thing, the strength of any teacher preparation is enhanced by the degree to which a prospective teacher encounters disparate points-of-view. The teacher who has been trained within a broader framework of educational ideas will be better able to cope with the variety of attitudes she will encounter in her post-college years.

Of equal consideration in the college's planning is the current and projected job market. While teaching opportunities are decreasing in some fields, other employment opportunities for women are accelerating rapidly. Larger industries are under governmental pressure to prove that they do not discriminate by sex in hiring. Other firms are realizing that women can perform with equal capability jobs previously restricted

to men. Because Longwood's undergraduate student body is predominantly female, the college makes a fertile recruiting ground for prospective employers who are anxious to break barriers of sexual discrimination.

Law schools and medical schools are now making vigorous efforts to find qualified women students. Longwood can offer the prospective lawyer or doctor a full range of courses to prepare her for entrance to the professional school of her choice. We currently have four prospective doctors enrolled as undergraduates and we hope to enroll more as awareness increases that the opportunities are available. (We also have our first engineer, but I'm afraid she will have to transfer after this year.) We are seeing an increasing number of students going into graduate training for a significant variety of professional choices.

The wide-ranging choice of major programs is one of the many aspects of Longwood's keeping abreast of the times. As Pauline Tompkins, President of Cedar Crest College, has written recently, "the college for women should be in the vanguard in identifying and responding to (the particular needs of women in higher education.)"¹ Longwood is meeting those needs, but it also has the task of making its constituency aware of what it is doing. One of the many ways in which our alumnae can help is to see that the stereotyped misconceptions about our academic offerings are eliminated.

Preparation For Tomorrow

by DR. RUTH B. WILSON

Dean of Students

To prepare young adults for today's world, with its expanding opportunities for women and its constant demand for the deeper involvement of all citizens in its problems, Longwood is doing more than just adding courses, diversifying her major fields, and enlarging her academic exchange program with Hampden-Sydney. Student involvement in the administrative areas of Longwood College life has been accomplished through student representation on policy making committees; through monthly Press Conferences with President Willett, where students are encouraged to ask questions on any subject; and through frequent luncheon meetings where students, faculty, and administrators discuss particular areas of concern.

"In loco parentis", long thought to be a necessary part of a college's responsibility, has been replaced with the more relevant philosophy that in order to function effectively in today's world people must learn to think for themselves, to make their own decisions and to cope with problems and mistakes. Help is available to those who seek it but the prime aim of counseling is, and always has been, to help the counselee reach his own decision.

Longwood students have responded intelligently to the need for change, not only in the academic format of their College but also in areas of self-regulatory government, the caliber of cultural events, the image of the resident halls as something more than a place to sleep and study, and the ever-present need in the outside community for volunteer assistance.

While questioning old standards and becoming more involved in everything that touches their lives and the lives of others, the Longwood students have a positive attitude toward their College, knowing that seeking change through the proper channels results in a receptive ear, whether it be from their elected leaders or from faculty and administration. At a time when many traditional values and activities are disappearing on a number of college campuses, significant traditions, such as our honor system, remain in full force at Longwood. Our students, through their elected leaders and those recognized channels that are available to them, have brought about changes that call for a great deal more individual self-reliance than was needed formerly.

In the area of rules and regulations, for instance, gradual changes have been made in the drinking rules, male visitation privileges, self-regulatory curfew hours on weekends, and "sign-out" procedures; parental permission forms are no longer required after the first semester of the freshman year; from the sophomore year on, our students may have cars on campus; and

non- and co-curricular activities have expanded greatly through student involvement on the Lankford Union Committee.

The end result of these and other changes that have been made at Longwood is that students *have* to make choices. Do they take advantage of the self-regulatory hours every Friday and Saturday or do they catch up on some badly needed sleep? Do they decide to go for a long ride just because they have a car available or do they practice self-restraint and get that term paper finished? The choices are theirs—just as they will be when they leave Longwood to begin a new chapter in their lives.

Longwood is preparing her students for their tomorrows by providing an atmosphere where each one can determine her own set of values and can make her own choices. In the long run these are ingredients of life's failures or successes. We predict that our future graduates will more than emulate their predecessors in job performance, as home-makers and as citizens.

John P. Wynne Campus School

by DR. E. LEE LAND, *Director*

The John P. Wynne Campus school which opened in September 1970 represents the most educational planning, interior decor, and architectural designing in the United States for kindergarten through seventh grade. Of circular design, the school contains a central core formed by the office complex, the media center, and the multi-purpose room. Encircling this core is the instructional area, including a fully equipped art center.

Since interior arrangements and furniture design allow for flexibility, the teaching areas may be arranged and rearranged into individual study areas and into both small and large group activity centers. All instructional areas are carpeted and have direct access to the covered walkway surrounding the building.

Three basic playground areas have been equipped to accommodate the various maturation levels of the students.

Another interesting feature of the school is closed circuit television, operated by remote control from the television control center within the school. Longwood College students may observe actual classroom situations in college classrooms on the main campus or in the college students' classroom at the campus school. These televised classroom situations are taped for later use by the college and campus school faculties.

In an attempt to maintain long standing purposes of Longwood College, the John P. Wynne Campus School has as its first broad purpose to provide an "individualized program of instruction" for the non-selective pupil population it serves. Its second function or purpose is to serve as a laboratory for the pre-service education of students enrolled in the various teacher-education programs offered by Longwood College. The third purpose is to serve as a resource center for the public schools of Virginia. As a laboratory for pre-service education and as a resource center, the school is organized to accommodate the following activities: (1) participation, (2) observation, (3) demonstration teaching, (4) research, and (5) in-service education for teachers and for supervisory and administrative personnel.

In order to obtain the purposes of Longwood College, the philosophy of the John P. Wynne Campus School centers around the belief that the curriculum should be concerned with the intellectual, social, emotional and physical growth and development of children in an ever-changing interdependent world.

The faculty adheres to the belief that self-discipline is the most worthwhile form of discipline. However, our teachers do not believe in a *laissezfaire* structure. Instead, they believe that their responsibilities are to help their students to understand the reasons for proper conduct and to set before the students an example of conduct worthy of emulation.

For the students enrolled in the various educational programs at Longwood College, the school provides opportunities for both direct and indirect observation of realistic classroom situations and a participatory program in which the college students serve as teaching assistants in the junior year. In this way the potential teachers is able to achieve a balance between theory and practice.

In accordance with the philosophy of the college, a program of instruction has been fashioned to assure that each child will be provided learning experiences appropriate to his demonstrated ability in each subject area. This "individualized instruction" is designed to accommodate the child's particular interests and style of learning.

The "flexible school" concept provides a setting in which the basic skills of education—reading, writing, and arithmetic—can be learned in a continuous fashion, at a comfortable speed, and to an optimum level. However, the curriculum is not limited to textbooks, courses of study, or lesson plans but includes the needs and experiences of children. The curriculum is more than subject matter to be learned; it is attitudes, values and human relations.

The campus school attracts many visitors and in 1971-72 4227 visitors and 1596 students toured the facility. Fifteen states and several foreign countries were represented.

Longwood Officials Study English Schools

by DR. E. LEE LAND

In June 1972 five of us from the College—President Willett; Dean Blackwell; Dr. Patterson, Chairman of the Education Department; Mrs. Harris, Kindergarten teacher at the Wynne Campus School; and I—visited schools and colleges in England. The purpose of our trip was to study the open classroom concept as practiced in the infant and in the primary schools, and to study teacher training programs at the college level. Those of you who will be participating in the first alumnae tour to London sponsored by the college will be able to see some of the English schools that we visited.

Educational officials in England aided us in establishing an itinerary that satisfied our two-fold purpose. As a result, we were able to observe a variety of infant and primary schools and colleges.

It was not our intent to evaluate their educational system as a whole. Nonetheless we left England with some very definite impressions. Since the publication of the Plowden Report in 1967, which outlines the philosophical framework of primary education in England, there has been a marked commitment by a number of infant and primary schools to individualize the academic program, which up until that time was highly structured. Of course, those schools which have not committed themselves to individualize instruction still flourish. Her Majesties Inspectors, and other top educational officials, indicated only some five to ten per cent of the English schools followed the open classroom concept of individualized instruction. Those colleges which we visited have also begun to shift their emphasis

in the teacher education programs from that of stiff formality to that of individualization and of creative learning.

We could not help noticing the inadequate library, art and music facilities, materials and equipment. It seems odd that England has attempted an open classroom curriculum without providing those materials vital to independent and individual study. In Longwood's John P. Wynne Campus School, the media center is physically and philosophically the hub of the individual program. Since the overall aim of the open classroom curriculum is the humanization of the individual, art and music are by their nature an integral part of such a curriculum as are the other arts and the sciences.

In England the modern concept of instruction frequently takes place in antiquated buildings. Many of the buildings are from 50 to 100 years of age; it is not uncommon to find 35 students in a room no larger than 500 square feet. Of course, this condition has not gone unnoticed within England, for selected educators from their country have been sent to the United States and to other countries to study educational facilities.

Despite all the obvious disparities between their educational philosophy and the realities of their educational system, we were impressed by their definite commitment to an educational philosophy. It takes time to change an educational system and time to educate a society toward this change. We left England as convinced as ever that the open classroom philosophy is the best method of educating a people for a democracy.

The Longwood Spirit . . . Through The Years

School Spirit

(taken from THE VIRGINIAN of 1905)

Loyalty is the principal element in school spirit, which consists of love for and pride and faith in the school, as well as a strong desire to promote her welfare by all fair means. Love for an institution is based upon confidence and trust in its faculty, and in the principles for which it stands. Pupils and teachers should be in sympathy with each other; there should be unity of spirit and interest among them, for "in union there is strength." This is especially true of school life, where faithful teachers are actuated by the same motives, and earnest students are working toward the same goal. It is impossible to find a strong school spirit where there is discord and strife among teachers or pupils.

We often say, "The child is father of the man." In the same sense, class spirit is the cradle of school spirit. When a class enters school it should be organized; its moto, yell, flower, colors and song should be selected at once, and used throughout the course to the Senior year. Organization should not be postponed until there is talk of an "Annual." From the first, the members of a class should be jealous of the honor of their body. To be perfectly loyal, girls may sometimes have to sacrifice their own personal desires or petty vanities. They should allow no pupil to act in any way which will reflect on the class. If a girl does something wrong and her classmates know of it, they should have enough kindness and courage to right this wrong, to sustain the honor of the school. When members of a class are true to each other, and to a high ideal of class conduct, they are likely to be loyal to that larger body, the school, and its administration.

But it is not sufficient that students act merely as classes, collectively. There must be a feeling of individual responsibility. Each pupil must feel that she has a part in making the school what it is; she should realize her power and should take an active interest in all school affairs. The welfare of the school should come before the personal affairs and feelings of either pupils or teachers.

Both time and opportunity should be furnished for the cultivation of the social side of school life, and for participation in school organizations of various kinds. 'Tis just here that pupils manifest the highest kind of school spirit. The faithful performance of assigned tasks is not necessarily an evidence of devotion to general school interests. A cheerful manifestation of life and energy, however, in promoting legitimate school interests to which one is not bound by law, is a proof of love for school affairs. An active interest in the Literary Societies, the Athletic Association, the Dra-

matic Club, the Glee Club, the Young Women's Christian Association, the League, *The Guidon*, or *The Annual*, will do as much toward developing school patriotism as high class standing, if not more. For this reason, too much work is perhaps, the greatest enemy to enthusiastic school spirit. An incessant "grind" leads pupils to think of the school as a place of drudgery, which, of course, they cannot love.

Indifferent, unsympathetic, selfish, clannish pupils hinder school spirit; for they think of nothing but their own pleasure, convenience, or advancement. No false, artificial barriers, or caste spirit, should be allowed to separate pupils; for with such a spirit it is impossible for the interest of the school to be put before the interest of the individual.

As is a country without patriotism, so is a school without loyalty. Then let all, teachers, officers, and pupils, work together for "the greatest good of the greatest number." With such a spirit of harmony and good will, what cannot the old school do? None will be allowed to defame her on the outside, and none will be permitted to be treacherous on the inside. Each member of the institution will strive to do her best for the sake of the dear "old school," as her affection names it. Then she will love its symbols, its songs, its banner, its colors. "The white and the blue" will become in truth, as in name, the emblems of purity and truth in school life.

Mrs. Ordogh Plans San Diego

Trip Through the Efforts of

Her Dorm

Mrs. Ordogh, a head resident, got the last ticket on the last plane to San Diego as a Christmas present from the Freshmen in Tabb, French, and South Ruffner. Thursday night at curfew she was informed by Assistant Head Resident Nancy Bernard that there was an emergency in French parlor. Mrs. Ordogh walked in to find the room packed with anxious faces. When she entered the room an astonished look came upon her because of what must have seemed no reason at all, the entire room gave her a standing ovation. A stanza of "We Wish You a Merry Christmas" was then sung. Mrs. Ordogh got to sit down and Nancy handed her a package. Mrs. Ordogh opened it to find a box of chocolate and an envelope. All the while she was explaining that she had just gotten off the phone from talking to her daughter in San Diego. After she opened the envelope, she turned to Nancy and asked "Have you been up to something?" Because Mrs. Ordogh was not wearing her reading glasses she, with a shaking hand, gave it to Nancy and said "Read me how it goes!" After she finally realized that she now was going to California she said, "Oh girls, I don't know what to say." Everybody was laughing and clapping when a voice raised above the crowd and said "Don't forget to sign out!"

"I'm hyper—everybody's hyper—I haven't slept in three nights" said Nancy Bernard, Assistant Head Resident at 10:00 Thursday night. The reason? The freshmen in Tabb, French, and South Ruffner decided to send Mrs. Ordogh, the Head Resident, to San Diego, California for a Christmas present.

It all started about two weeks ago when Miss Bernard was discussing Christmas plans with Mrs. Ordogh. Because she did not feel she could go to California she had more or less reluctantly decided to go to South Carolina to see her sister. This set off a spark in Nancy's mind that turned into a bonfire. She mentioned it to the Resident Counselors and all made plans to get everyone involved in sending Mrs. Ordogh to San Diego.

"At first I was really reluctant about working with Freshmen, but this place is like a team!" a quite excited Nancy Bernard relates. Upon calling Byrd airport there was a moment of panic because they thought that there were no more seats left on the airplane. They finally found one last ticket and Nancy Bernard took off for the airport Thursday to get the ticket. Mrs. Ordogh's plane leaves at 7:00 a.m. Friday and she'll be coming back January 7. The really exciting thing is that her son lives in Chicago and her plane has a two hour lay-over there so she will get to see him.

There may be one slight package problem. Mrs. Ordogh already sent her Christmas presents to San Diego but she told her family out west to send her gifts to South Carolina.

The Spirit of '76 just keeps on shining!

Taken from Dec. 13, 1972 *Rotunda*,
under byline of Betsy Nutter.

The Spotlight's on . . .

The Spirit of 72!

Being of sound mind (there are those who would disagree!) and possessed by a somewhat nostalgic mood as Year 1972 draws to a close, it is only appropriate to will certain "spirits" which were so much in evidence during the past year to Year 1973. The student body, faculty, and staff of the College have throughout 1972 made distinctive contributions enriching what we call "life at Longwood," and it is with these thoughts in mind that we bequeath the following "spirits" to 1973.

That spirit inherent in the student body which causes them to . . . take up a collection to finance a Head Resident's visit with her family in California . . . respond immediately to the need for blood at the hospital . . . participate in the Bloodmobile . . . contribute to community fund drives . . . work in Day Care Centers and with needy families . . . go, as the Madrigal Singers recently did, to entertain patients at McGuire Hospital . . . devote so much time, energy and enthusiasm to keep the wheels turning in Student Government, the YWCA, Student Union, Athletic Association, the College publications, and many other organizations . . . witness to their Christian convictions as "Tafara" and other groups do . . .

That spirit which urges faculty members to . . . contribute the products of their intellect and years of study and research to the enrichment of their respective fields (examples which come to mind are Dr. Elizabeth Etheridge's book *The Butterfly Caste*, Dr. John Molnar's beautifully-done book *Songs from the Williamsburg Theatre*, and the many literary and scientific papers published in various journals) . . . share their knowledge and experience to improve education in the state and nation (the examples are numerous—workshops, clinics, institutes, exhibits, consulting services, lectures) . . . give so willingly of their time in academic counseling, advising student organizations, serving on College committees . . . contribute to the betterment of the Farmville community through service to a host of church, civic, and social organizations . . . hold office in state and national societies . . .

That spirit which permeates the Longwood College Community and causes us, both individually and collectively, to strive to learn, to grow, to perform necessary services more efficiently, to communicate more effectively . . .

These legacies of the spirit are our New Year's gift to each of you.

The Jarman Cup

by DR. GEORGE W. JEFFERS

Liz Shipplett Jones, alumnae director, has asked me to write the beginnings of the Jarman Cup and I write, not from an infallible memory and if I make up a few things as I go along, it will be to fill up space and not to deceive.

In the year of our Lord, 1934, what was then State Teachers College of Farmville, celebrated its 50th anniversary of its founding of a teacher training institution. Dr. Jarman appointed me as chairman of the event, rather events—for there were many. Unfortunately, I've forgotten who the other members of the committee were. Sam Holton, I know, was one, because I know we were not so aware as we are today the value of listing. We neglected to list the names of the ones on the program. In planning for the event, I had conferences with Dr. Jarman almost everyday, and since I'm in a confessing mood I must record that not all my suggestions were accepted. For instance, I wanted to try to secure Mrs. Eleanor Roosevelt as speaker, but Dr. Jarman thought that was aiming a little too high! He did, however, accept another of my suggestions, and that was for a cup—a cup to be given to the largest percentage of the living alumnae of any class that were present for that occasion. Well, now, he did not say he was accepting my suggestion. My suggestion was that he go down to Martin's and look into the cost of the cup, because, said I, it was to be known as the Jarman Loving Cup, and he should pay for it out of his own pocket, and this way it would be his personal contribution to the occasion, and in the

years to come it would be sort of an outreach of himself to the future. He did not promise that he would do this, neither did I mention it to him again. Someway or other, around the first of March, the cup showed up. I immediately put it on display on the mantle in the Rotunda in all of its glistening newness, and there were many oohs and aahs about it!

That year, 1934, the 50th anniversary, the cup was won hands down, if I remember correctly, by the Class of 1894. They were known as the "Twenty Oneders"—there were 21 in the class, and if I recall, 7 of them were living and all 7 were present. I remember the Harris twins of Dinwiddie. I remember, too, that Governor Pollard's sister was a member of that class. Governor Pollard was very much in the public eye at the time as he had just gone out as Governor of Virginia to be succeeded by Governor Peery. Now, Governor Peery had another special attachment to Farmville at the time because Dr. Jarman was very proud of George Peery. He had taught him when he was a professor and George was a student at Emory and Henry College.

This class of 1894 deserves mention for two other things. One, since their graduation, they had kept up a round robin letter—kept it up for all those 40 years. It was such a distinction and such an unusual class that Douglas Freeman wrote an editorial eulogizing this class and using it as an illustration of "what a class could do". Two, that 1894 class won it again later on. If you will go where the cup is, which is at the Alumnae House, you can see the list of classes that have won it through the years.

Dr. Herbert R. Blackwell presents the Jarman Cup to Mrs. Mildred Dickinson Davis of Hampden Sydney and Miss Mary Finch of Asheville, N.C. who celebrated their 50th. anniversary at Founders Day and represented two-thirds of their class.

Class Notes

BITS AND PIECES

Class of '98—In a tribute to Miss Ida R. Greever, who died Sept. 8, 1972 at the age of 99, by the people of Tazewell County, it is said that her intelligence, keen wit, and love of history, attracted and inspired her many friends from far and wide. Her pupils have attested to the fact that she not only stimulated them to learn but also instilled in them principles which had a tremendous impact on their lives. She was an outstanding teacher in Maryland, Tazewell County, and Marion for 50 years and assisted in operating the Burke's Garden Academy.

'22

Degree Class of 1922

Alumnae Secretary: Mildred Dickinson (Mrs. C. H. Davis, Jr.), P. O. Box 276, Hampden Sydney, Va. 23943

Mary Finch writes from the Brooks-Howell Home in Asheville that since returning from Japan her chief interest has

been working for better human relationships, especially with the Virginia Council of Human Relations. She has traveled across Virginia, assisting with programs on the local level involving blacks and whites. Her sister Margaret, '29, is a dedicated bird and nature lover; so together they have taken classes in ecology with fascinating field trips on the Blue Ridge Parkway and in the Smokies. Mary has also engaged in volunteer tutoring projects, chiefly with overseas students. She entertains guests recommended by the A.A.U.W. in the Experiment of International Living. As a member of the United Nations she has met a number of the Inter Faith Housing Committee.

Carrie Spradlin in Vinton writes that in 1963 her sister Bertha and she made a wonderful trip from Paris through the Chateaux country along the Loire River into Switzerland, Italy, Greece, Turkey, and Austria, and Germany. In 1968 Carrie took a tour of the Iberian Peninsula and into North Africa. This was with the N.R.T.A.—Spain, Portugal, and Mallerca. Last August and September she made a trip to the British Isles with N.R.T.A.

Mildred Dickinson Davis took a trip with friends through the Chateaux Country in 1962 followed by Switzerland, Innsbruck, Frieburg, Garmish, and Oberammagau and England. In March 1969, after she retired in June 1968, she went to Greece for three wonderful weeks and from there for two weeks in Lebanon where she visited one of her bridesmaids, Esther Thomas Kurani. She was prepared for Greece, having taught *The Iliad* and *The Odyssey* and the Greek plays in a world literature course, but was totally unprepared for Lebanon! Kate Trent, '26, who retired in June 1968, and I made a 3-week trip to England in late September.

Anne Alvis died of a heart attack last October. She was the fourth member of our class to die.

'35

Degree Class of 1935

President: Frances McDaniel (Mrs. J. N. Cargill), 8917 Tresco Rd., Richmond, Va. 23229

Acting Secretaries: Elizabeth Vassar (Mrs. Charles B. Pickett), Rt. 3, Box 276, Farmville, Va. 23901

Jessica Jones (Mrs. F. Godfrey Binns), Box 14, Glen Allen, Va. 23060

A great big "thank you" to those who took time to answer our request for news. We wish we could have heard from everyone.

Lulu Gravely from Martinsville, who works for Commissioner of Revenue, writes, "I live in the house in which I was born!" Does anyone else in our class share that distinction? Minnie Rogers has been with an insurance agency in Farmville since 1943. She is active in church and civic work and over the years has had wonderful trips to California, Canada, Europe. Elizabeth Mann Wilds of Richmond has traveled from coast to coast, attending conferences and conventions of Alpha Delta Kappa, the honorary teachers' sorority to which she belongs. Elizabeth taught elementary grades for twenty-one and a half years, then took a

leave of absence because of family responsibilities. For the past eight years she has been a junior high school librarian. Her son graduated from the U. of Richmond, taught high school social studies before his tour in the Navy (one of these in Vietnam—Elizabeth and her husband met him in Hawaii for his R & R), he returns to teaching this fall.

Maude Rhodes Cox is another one of us who has a teacher son. He and his wife live and teach in Newport News. Her other son works in Lynchburg, while her daughter and son-in-law expect to complete their doctorates this year; he in nuclear physics at Duke and her daughter in psychology at UNC. Maude taught four years in Smithfield, was guidance coordinator in Isle of Wight for four years, is now visiting teacher with the Newport News Public School. This year at W and M she completed a thirty-hour certificate program beyond the masters degree in Educational Administration. Helen Shawen Hardaway's most exciting event in her life this past year was a new granddaughter. Helen does substitute teaching "on a rather regular basis" and is active in volunteer work for the Junior League (of which she has been president), Crippled Children's Society, United Fund, the local hospital, her church, Lucille Hamilton Fisher, after leaving Farmville, studied nursing at UVA, graduated, subsequently worked there six years, married a specialist in obstetrics and gynecology, lives in Washington, Pa. Lucille has done a good bit of traveling in recent years—to South America, New Zealand, Australia, Scandinavia, Tahiti, across this country a few times, to Hawaii twice, around the world once. She has been active in church, PTA, and garden club work; in the Hospital Auxiliary, Medical Auxiliary, Cancer Society, Heart Association, Visiting Nurses Association, and Art Association.

Betty Shields Brumfield is a contented housewife. Betty's husband, Bob, has for many years been a biology professor at Longwood. Under worthwhile accomplishments, Mary Womack Willis lists educator (which she was in Va., N.C., and Washington state) and housewife (which she now is). This past year she had a trip to Mexico and in other years has been to Europe, Hawaii, Canada, Alaska. Mary writes: "I have been in the Northwest since 1936 and have had a . . . busy and interesting life. . . . We love living in Yakima." Her husband, Judge Robert J. Willis, is a Superior Court judge. From Rustburg, Audrey Mattox Merryman who has three sons, one daughter, and two grandchildren says her worthwhile accomplishment is "my nice family."

From Richmond, Nancy Burghyn Leake lists her accomplishments as "raising wonderful children." Nancy's older daughter is personnel director with the Girl Scouts of America for an eight-state area; her younger daughter is at St. Catherine's. Nancy's son began his internship at Peter Bent Brigham Hospital in Boston. Since college days, Nancy has been secretary, interior decorator, claims adjuster with various Richmond firms, but is now a "home manager" and declares, "I stay so busy I can't catch up with myself." Louie Morris Foster, who has been a medical secretary in Farmville for years, has one son, one daughter, two grandsons, two granddaughters. Marguerite Rollins Boyle receives deep satisfaction from participation in the women's work of her church (First Presbyterian, Newport News). Driving for a blind teacher is one of her volunteer jobs. In February Marguerite had a trip to Scotland; in August she left for Spain, Portugal, Switzerland. Isabelle Allegree Bailey lives in Massachusetts, has two

married daughters (one in Florida, one in New Hampshire), has traveled in Europe, the Near East, and the Far East. "My love jobs have been teaching fifth grade in Sunday School and diversional therapy at the Deaconess Hospital once a week. . . . I have had the joy of serving on the Board of Christian Women's Club of Boston and of working with the many Friendship Bible Coffee groups sponsored by the club."

Mary Lee *Newcomb* Joyce and her husband bought a farm in Cumberland County, not far from Farmville. Their younger daughter, a senior in journalism at VCU, this summer worked full time on the *Farmville Herald* staff. This fall Mary Lee is being initiated into Delta Kappa Gamma, honor society for key women teachers. Mary Lee and Charlie's great pleasures is having all the children and their families home. That makes seventeen folks to enjoy Mary Lee's good cooking. Elizabeth *Vassar* Pickett and her husband are delighted with their new home. She still teaches at Prince Edward Academy; he keeps busy running their d.r.y farm. Katharine *Walton* Fontaine of Richmond, her husband, and her sister (Elizabeth, '36, whom we knew as "Toot" and who lives at Katharine's) have all retired. Katharine says, "At present I have begun work on my master's degree in French at the University of Richmond. I have been doing graduate work off and on since 1935 and have accumulated 45 semester hours in Latin, English, French and economics, but I'm an A.B.T.—all but the thesis—candidate."

Katherine *Coleman* Allen and husband are enjoying the leisurely life of the retired at their home in Venice, Florida. Their married daughter lives nearby; all of us grandparents will understand the pleasure they derive from their little granddaughter.

Carmen Clark has engaged in research as librarian at the U.S. Army War College. In June of '71 she attended the Special Libraries Association Conference in San Francisco and saw all the sights as she drove from the east coast to the west coast and back. Carmen is now gathering material for a family history which is to cover the years 1770-1970.

Eleanor *Currin* retired in June after serving 44 years as a public school teacher with 26 years at George Washington High School in Alexandria. She plans to do part time work for the Alexandria Chamber of Commerce, to travel, and to become more involved in community and church activities.

Jestine *Cutshall* Henderson and her dentist husband had a trip to Europe last spring and visited ten countries. Their older daughter is married and teaches in Richmond; the younger daughter, a sophomore at Westhampton, spent six weeks in Spain this summer, and their son is a senior at V.P.I.

A nurse replied for Bonnie McCoy who has been ill for the past year. Bonnie's sister, Elizabeth, has been confined to her bed for more than two years. They would appreciate cards; their address is: 500 Mulberry Road, Martinsville, Va. 24112. We wish them a return to good health.

Elaine *McDearmon* Spencer has a small antique business in Appomattox (hours by chance or appointment). Her daughter is a graduate of Hollins and of the Univ. of Virginia Law School.

Lady *Boggs* Walton retired from school library work in 1971 and continues to operate a farm in Crozet where she and her late husband located 20 years ago. She is active in community organizations.

Jessica *Jones* Binns continues to teach at Hermitage High School in Henrico County and has had the pleasure of supervising a

number of Longwood math majors in their student teaching. In June, Jessica and her husband were given a wonderful surprise party by their two sons and daughters-in-law in celebration of their 35th wedding anniversary, and in July they took a most enjoyable cruise to Bermuda.

'40

Degree Class of 1940

President: Jane Powell (Mrs. Robert E. Johnson), 425 E. Pine Street, Wytheville, Virginia 24383

Acting Alumnae Secretary: Isabel Williamson (Mrs. Robert S. Hoyt), 3 Hamric Place, Lexington, Virginia 24450

Dear Classmates:

So many thanks to each of you who wrote. Jane Powell Johnson called to ask me to collect news for the Bulletin and it has been such heartwarming fun to read all your letters.

Janelle *Shelor* Wilson said she had no particular news and was going to be away most of the summer. From where I sit, that in itself is *News*. As all of us know, one of Longwood's newest buildings is the Bedford Fine Arts Building, named in honor of "our" Miss Bedford. It was dedicated in March, 1971, and there was a one-man retrospective show of Miss Bedford's works. Miss Bedford retired in June, 1972, after 44 years at Longwood. We must all get back to admire "her" building and to congratulate her on being named Professor Emeritus of L.C.

It was a real treat to talk to the "*Madam*." She was, at the time, in the throes of packing to move to a smaller house and was scheduled for plastic surgery on her feet in July. Before this goes to press, you'll get a report that she is at home and on the mend. Mary Walker *Mitchell* Hughes' husband, Clinton, has been promoted to Veterinarian-in-charge for the state of Maryland, with an office in College Park. Mary Walker will remain in Atlanta for the present. Myra *Smith* Ferguson is in charge of swimming for the Title I Day Camp in Hampton. Her younger son, Steve, plans to visit his brother who is stationed in Germany, before he begins his senior year at V.P.I. Marie *Eason* Revery's son, Taylor, who is associated with Hutton Williams Law Firm in Richmond, was married in December to Helen Bond of Lynchburg. Carol, Marie and Taylor's daughter, lives in Austin, Texas. Her husband is Professor of English at Austin College, and they have a son, Robbie, too. Marie wrote, "One of my privileges in living near Longwood is that I see many of the "Girls" as they return for different functions.—We are impressed with the wonderful job being done at Longwood and proud of the college."

Emil *Ellis* Wood reports a year of recuperating from two bouts of major surgery. She has the best wishes of all of us for a speedy and full recovery. Emil has a son at Virginia Tech, and one at Atlantic Christian. Rosemary Howell's travels are mouth-watering! Last summer she went to Colorado and California by plane, train, and car. She says, "The train ride from Denver to San Francisco was delightful." In June, '72, Rosemary planned to go to Detroit to attend the American Home Economics convention; then, on to Canada before returning home. "Sistee" *Stringfellow* Horstene reports that three of her four children are married, and she has five grandchildren. Martha *Moore* Howe lives in Ithaca, New York, where she is Office Manager for the *Cornell Daily Sun*. Her three children also live in Ithaca: one daughter is

teaching, another is married, and her son is in college.

First prize for the longest letter goes to Essie *Millner* Dresser. "Es" and Harold live in Leavensworth, Kansas, in the house in which Harold was born. After a long and varied teaching career, Essie is now the elementary school Librarian at the Eisenhower School at Fort Leavenworth. She would very much like to know if any '40 classmates have sons or daughters stationed at Fort Leavenworth. If she is dealing with grandchildren of Longwood friends, she would like to be aware of it. Essie and Harold have three children and four grandchildren. Margaret *Northcross* Ellis says that she is "always amused and flattered to be included in the Class of '40." Margaret ("Billy") received her degree in August, 1940, and it is we who should be proud to "claim" her. She sent a lengthy newspaper article concerning the North Cross School, an independent school in Roanoke, named for her and with which she is still associated. Helen *Reiff* Scott sent pictures of her two lovely daughters, Ginnie and Joanne, but they were in color and cannot be used. Dave is with DuPont. Helen is a part-time Reference Librarian at the Wilmington Public Library. She frequently sees Jane Lee *Hutcheson* Hanbury, '42, who lives near the Scott's summer home in Ocean City, N.J.

Marion *Hardin* Park of El Paso, Texas, recently visited Beaulah *Ettiner* Cobbs. Beulah is President of the Harrisonburg Business and Professional Women's Club and is teaching Latin at the Montevideo High School. Her husband, Dr. Howard Cobbs, is Chaplain of the Sunnyside Presbyterian Home, and assisted in performing the ceremony at the recent wedding of the Cobbs' son, Bill. Jeanne *Allen* Padgett lives in nearby Buena Vista; I hope to see her soon. Lula *Windham* Hannaway says, because of the teacher surplus in St. Louis, she thinks she'll "leave the teaching profession and join an airline." Ora *Wilson* Holland is expecting a visit from Grace *Waring* Putney. Ora has a married son in Lancaster, Pa., and a younger boy who will be a senior in high school. Her busy life includes being president of the United Methodist Women and helping with choir and community work. Martha *Woolbrinck*, daughter of Nancy *Moss* Woolbrinck, was graduated from Emory University in June. Another daughter, Carol, will be a sophomore at Lincoln Memorial University; and Charles, Nancy's oldest, is married and living in Winchester. "Doss" keeps busy with Woman's Club, M.A.R., and bridge club, and has been "working like mad on our new Community Hospital."

The Class of '40 is spread far and wide. Janet *Lenmon* Hanson lives in Long Island. Her husband is an attorney in New York, but Janet is still a loyal Southerner. She belongs to the North Shore Southern Society and is an active member of the Altar Guild and other organizations at St. Stephens Church. Her daughter, Elizabeth, is a senior at Duke. This is an appeal to any Longwood Alumnae living in Texas or Western Louisiana to speak up! Marjorie *Nimmo* Kiser who lives in Orange, Texas, is "lonesome" for Virginia people and news. She is teaching sociology in the seventh grade. The Kiser's sons are grown, but daughter, Sheri, is a high school senior.

Katherine *Mooman* Yowell has visited Pattie *Bounds* Sellers '39 and Frances *Steed* Edwards '39, and recently saw Irma *Carpenter* Crafts, diploma '38. Irma's eldest daughter is Katherine's godchild and will soon wed. Katherine has three sons; one married, one at Lynchburg Training School,

and a fifteen-year-old at home. There's an ideal way to beat the rising cost of medical care, and *Sudie Dunton* Brothers and *Lymar* have done it! Their son, *Rick (Lyman III)*, received his M.D. in June, and is now an intern at Travis Air Force Base. A six-month-old grandson, *Michael Dunton* Brothers, has added a new touch of joy to the family. *Sudie's* eldest daughter is married, and her husband is in the furniture business with *Lyman*. A younger daughter, *Peggy*, will be a senior at *Brunswick Academy*. The Brothers had visits from *Elmore* and *Harriet Haskins Eubank*. '41, and *Warner* and *Myra Smith Ferguson* at their summer cottage "Pot Luck Point." Nearby is the cottage of *Vernon* and *Frances Pope Tillar*. *Frances* still works with *Vernon* in his dental office and has a 2 year-old grandson, the child of her older daughter, *Terry*. *The Tillars*' younger daughter, *Kay*, will be a junior at *William and Mary*.

During *Easter Jerry Hatcher* Waring drove to *Michigan*, met her son and daughter-in-law, and all flew to *Southern Spain*, with a side trip to *Tangiers*. *Jerry* has purchased a *Hammond* organ and is taking lessons. (How would we have made it through four years without *Jerry* at the piano?) The *Richmond Longwood Alumnae Chapter* numbers among its board members *Marion Shelton Combs* who has "enjoyed telephoning all the *Longwood graduates*" in the area from classes '36 through '40." *Marion* suggests that "all our class get active in your nearest *Alumnae* group and support our dear *Alma Mater*." With her youngest now in college at *Emory* and *Henry*, *Marion* enjoys being "grandmommy" to four precious little girls.

Dover, N.H., is home to *Caroline Faris Euler*. She and her husband, *Hank*, an architect, have a son *Henry III* who was married this summer. *Young Henry* served in the *Peace Corps* in *Ecuador*, has a degree in horticulture, and is working in *Islip, N.Y.* *The Euler's* daughter, *Dare Tenny*, is doing well at *Juniata College*, and *Caroline* has just completed her tenth year back in teaching. *June* brought the arrival of "Sis" *Sturgis Crockett's* second grandson, *Cam*, the *Crockett's* younger daughter, was graduated from *Hollins*, and is now in *Mexico*—working toward her master's degree in psychology. Church activities, bridge, and golfing at *Grandfather's Mountain Country Club* keep "Sis" on the go.

One of the "fringe benefits" of living in *N.J.* was the opportunity to see and reminisce with *Johnny Lybrook* Mothershead *Johnny* and *Ivan* have most recently lived in *Memphis*, but a move to *Pensacola, Fla.*, is imminent. *Ivan III* was married in *June*, has his master's in economics, and is in business for himself. *Jayne* is a senior at *East Carolina*, and *Yvonne* will be a freshman at *Univ. of Tenn.* in *Knoxville*. *Lorana Moomaw* and her sister, *Leona*, left *New York* July 1st to tour *Norway, Sweden*, and *Denmark*. When "Moo" wrote, they had just returned from taking a course at *VCU* on the *British Open School*. She says, "If you can't beat it, you have to join it; that's what I am trying to do." "Moo" teaches *American History* in the seventh grade and is teaching grandchildren of her peers.

Last summer *Olivia Stephenson Lennon's* family celebrated son *Larry's* return from *Army* service in the *Canal Zone* by taking a camping trip into *Canada*. They went as far as *Mooseenee* "a quaint little village of *Indians* and *Eskimos* in the *James Bay* area of *Ontario*." On their return, they came through the gold mining area and on to *Quebec, Montreal*, and *Ottawa*. *Olivia* says, "It was a delightful trip; we did it the hard way—in a tent!" Son *Larry* is continuing his

college work in *Florida*, and daughter, *Celia*, is a junior at *Old Dominion*. All will be saddened to learn that *Dot Eades* Conner's husband died in *January*, while she was in *Roanoke* visiting her critically ill father and her convalescing mother. *Dot's* only son lives in *Las Vegas, Nevada*. *Dot* has lived in *Hawaii* and the *Philippines*. In *Hawaii*, she was director of *Junior Department of Protestant Chapel*, and had exciting experiences as *Red Cross Canteen Chairman*. She says, however, "I'm beginning to wonder if I should have been studying plumbing, car maintenance, electronics, etc., instead of flower arranging, interior decorating, Chinese art painting, and oil painting." With *Dot* living at *Shalimar, Florida*, and *Johnny Lybrook* Mothershead moving to *Pensacola*, we should be able to expect a *Florida Alumnae Chapter* any day now! *Martha Meade* says, "Our main concern at present is our boys." Her eldest son lives in *Indiana*. *Jack* is in *Korea*; due home in *November*, and *Jim* is in *11th grade*.

Does anyone have any news of *Liza Wise*? It has been ages since we've heard from or about her. *Marie Dix Moran*, diploma '38, spent a month in *Europe* with her husband, *Mary Lou Cunningham Warren* and *Willard* spent 10 days in *Oslo, Norway*, last year while she attended the *Conference of the Associated Country Women of the World*. Following the *Conference* they toured six countries. *Mary Lou* is *Parliamentarian* for the *Home Demonstration Clubs*. *Anna Maxey Boelt* and her husband enjoyed a cruise to *Bermuda* last spring with a *Square Dancing Group*. *Helen Jeffries Miles* called from *Blackburg* to say that she really had no new news.

The girls and I moved to *Lexington* last summer and have spent a year adjusting to new surroundings and a different way of life. My oldest daughter, *Ridgely*, is secretary to the *V.M.I. Foundation*. *Young Isabel*, 18, is taking *Nurses Aide* training at the *Woodrow Wilson Rehabilitation Center* at *Fishersville*; and *Leigh*, the youngest, will be a junior in high school. My son and daughter-in-law, and my enchanting grandson live much too far away, but were with us last Christmas. Excess poundage, a few grey hairs, bifocals, and grandchildren ought to make us more articulate than ever. Do, please, respond 100% to next year's *Acting Alumnae Secretary*. Warmest regards go out to each and every one.

Class of 1943

President and Acting Secretary: Betty Bouchard (Mrs. S. C. MacIntire, III), 1340 *Sagewood Circle, Stone Mountain, Ga. 30083*

We had three years of superb guest editors and then last year we were conspicuous by the absence of our class letter. I'm grateful for the response this year. *Winifred Wright Heron* and her husband were in *Atlanta* for a convention. It was the first time I'd seen her since we graduated. *Dave* is librarian at the *Univ. of Kansas*. *Holly*, who graduated from the *Univ. of Calif.*, is in nursing school at *Kansas Medical College*. *Jim* is an architecture major, and *Charlie* is a rising third grader.

Longwood seems to be popular with daughters of the class of '43. *Virginia Fire-sheets* DuPriest's older daughter *Susan* graduated in '71, married that June, and lives in *Richmond* where she teaches *French* and *English*. Her younger daughter *Anne Preston* is a junior at *Longwood* and plans

to complete her degree in *speech pathology* at the *U. of Va.* *Virginia* teaches but, in the summer, she and her husband are interested in collecting old bottles, playing golf, and traveling. *Martha Anderson Gwaltney* has two daughters attending *Longwood*. *Ann* will be a senior this fall; *Vicki* is a freshman. After her pre-pharmacy course, she hopes to enter *M.C.V.* *Martha* teaches *English* and *Latin* at *Smithfield High School*.

Ann Rogers Stark's daughter *Sarah* is also a *Longwood* student. Her son *John* graduated from *VPI* and has accepted a teaching assistantship at *Georgia Tech*. *Alice Seibert Godwin's* oldest daughter *Anne* is going to be married in the fall. This summer, while *Anne* is finishing her master's program, *Alice* was in the midst of all the wedding preparations. *Dearing Faintleroy Johnson's* older daughter is working in *New York*; her younger daughter is in college in *Winston-Salem*.

I seem to have a talent for catching *Elsie Stossel Upchurch* at airports as she is embarking on still another fabulous trip. This time she was off to the *British Isles*. Her big news was her wedding to *Norman Upchurch* and honeymoon to the *Caribbean*.

The *Bishops (Helen Lewis)* have been extremely active people. Last fall they were in *Italy* and *Greece*. This spring they bought a new home in *Louisville*. This summer their older son *Lee* was married at *Virginia Beach*. Their younger son is at *Brown*.

Opal Nelson Pegrarn and her family have been building a cottage on the *Pamlico River* in *North Carolina* and have done every bit of the work. *Skip* is in the *11th* grade while the twin daughters, *Ida* and *Trudi*, are in the *9th* grade. *Opal* does all the clerical work in the local library.

Ada Claire Snyder Snyder and her husband combined sightseeing, visiting friends, and playing bridge in one big bang-up trip. Their trip included *Nova Scotia, Boston* to see *Anne Garnett Shealy*, and *Chicago* for the *National Bridge Tournament*. *Mary Jane Campbell Everett* and her husband came over from *Indianapolis* to spend a weekend with the *Snyders*. This summer they went to *Montreal* for a bridge tournament.

Anne Ellett Hardy has been taking graduate work at *VCU* and is now a guidance counselor at *Amelia Academy*. The *Hardy* twin daughter was awarded a scholarship from *Salem College* to study nine weeks in *Italy* while the twin son graduated from college in *August*. The 16-year-old son is a junior at *Amelia Academy*. *Anne* sent the following news: *Grace Hutcherson Pearce's* ('46) daughter was married in *Richmond* last *June*. *Frances Mallory Miller's* daughter finished at *Vassar*, is married, and lives in *Calif.* Her son is a doctor. Two of *Nancy Allen Fitzpatrick's* children attend *Duke U.* *Jack Hardy Rives* has two daughters, one is married and the other is a student at *W&M*. While at the beach, *Anne* talked with *Margaret Kitchin Gilliam*. She and *Charlie* are still successfully running the *Halifax Hotel*. Their oldest daughter *Harriet* is married and lives in *Roanoke*. *Bee Reid Paradis* and *Don* have bought an old sixteen-room house in *London*. Now *Sarah Wade Owen* has two good reasons for going. Her brother and family are now living near *London*.

Finally received word from *Eastern Shore*. *Alice Belote Curling's* youngest daughter was in a serious accident. During her convalescence, *Alice* heard from *Margaret Finney Powell* and saw *Elizabeth Walls Davis*. *Alice's* oldest daughter graduated from *LC*, and her son graduated from *VPI*. He's planning to return this fall to do graduate work. *Alice* was packing for a *European*

trip. Alice sees Sugar Scott Dix every week and says she looks the same—has found the fountain of youth.

Anne Covington Fulghum hopes we can all keep ourselves pasted together until March so that we can all meet for our 30th reunion. Anne's son is married and is in Medical School at UNC. Her daughter Ann Gwyn graduated from the University in June and will teach English in Virginia this year.

Leona Moomaw's letter was filled with news. Moo had stopped in Farmville to see the Campus School and Longwood. In her words "The Rotunda is perfectly beautiful." The restoration of this famous place is lovely". One night, while having dinner at the Hotel Roanoke, Moo thought she recognized voices and there were Bee Reid Paradis and Maggie Mishi Timberlake. Bee was getting ready to return to England. Moo sees Charlotte Greely Murphy. Charlotte Phillips Gouldin has two girls at LC. Moo has her master's degree and more than thirty hours toward her doctorate. Each summer she plans a big trip. This year she was off to Norway.

Mamie Snow Penland has just returned from a tour of the Scandinavian countries. Mamie teaches math at Fairfax Hall, a girl's boarding school. Last summer, Joice Siokes Duffy, Mary Rucker Dixon, '45, and Anne Moore Agricola and their husbands all went to Europe. They rented a Volkswagen bus and toured six countries. Anne's oldest son graduated from W&M and is at the Medical College of Virginia. Her son is going to VCU in the fall. Anne's youngest child is a ten-year-old daughter.

Maxine Compton Fuller is Coordinator of Business and Education in the local high school in Hueytown, Ala. This includes securing jobs for her students. That calls for much public relations with the many civic organizations. Maxine's youngest daughter will graduate from high school this coming year while her middle daughter is going to Jacksonville State U. Her only son is an 8th grader. Maxine has two grandsons.

I visited with Ella Marsh Pilkinton Adams by phone and found she is a proud grandmother of two-year-old Patricia Adams. Ella Marsh's daughter Sally is married and living in Richmond while her husband is stationed at A.P. Hill. Ella Marsh is a teacher's aide at Holy Innocents' Day School for pre-school children. Since Northside Hospital opened, she has worked as a pink lady. Bridget Gentile Melitto is teaching in Chesapeake. Her older son Jimmy is back in college after two years in the Marines. He is at VPI while Richard is a second-year student at VCU. Susan is entering Radford this fall. Edna Brown Lupton is in New Mexico. Nell Pritchett Gordon is in Arlington. Bridget gets to see them on their visits to Suffolk.

Next Founders Day means a class reunion for us. Let's make a real effort to be together. If you are falling to pieces at the rate I am, it might be now or never. So, unless providentially hindered, let's be there!

In August, Cranston, our two children, and I drove by the Longwood campus on a trip home from Williamsburg. Those of you who seldom see our Alma Mater would be happy to see how gracious and well kept the campus and buildings look.

Mitty Hahn Sleds, that is, stay busy as usual. Our oldest son, Hunter III, graduated from the U. of N. C. in May of '71. Billy, our second son, was married to "the girl next door", and are living in Blacksburg while she goes to Radford College and he to V.P.I. and S.U. Bobby, our third son, is a junior at the U. of Tenn. He spent his fall quarter visiting a friend in Thailand with stops in other countries going and coming. We have just finished our 11th year of Little League Baseball, and it was a constant battle for a chance to spend some time at our home on Lockleys Creek off the Rappahannock River. Husband Hunter has served on the Longwood College Foundation Board for several years.

Don't forget our 25th Reunion! Everyone I've heard from is quite excited about it so do plan to join us and let's have the biggest representation yet! Until then—

Thanks to many of you for your notes and news.

Frances Farley Birkebile is proud to tell us that she has two girls at Longwood now, Jan a senior this year and Matreun a sophomore. What happened to the ten-page letter you promised me?? Laura Jean Comerford Chumney enjoys living in N. J., where Dick works with the Dept. of Agriculture. Kevin, 20, will be a junior at Rutgers. I see Martha Alice *Wilson* Thompson '52 occasionally. Ernie and I are busy trying to keep two houses in shape and working at NASA. He has traveled to the U. of Iowa and Minnesota concerning his work. I finally attended the "Blessing of the Hounds", which is a service our hunt club offers each year. This service follows the stirrup cup and precedes the fox hunt. Very impressive! Peyton, my offspring, graduated from high school and is headed for VPI. He won his letter in swimming, has won trophies in water skiing tournaments. It's been most enjoyable hearing from all of you. I hope more will write each year. Longwood is really blossoming now, and we should do our best to support her!

Son, Nick, crewed on a boat in the sailing race from Annapolis to Hampton. Mitchell enjoyed his 2nd summer at the VPI All Sports Camp. Her daughter Leigh, 14, traveled in Rome and Florence last April. Charlie and I were there also. We all had a glorious time. Marian Beckner Riggins and her family continue their skiing vacations—Franconia Notch, New Hampshire, last year. Margaret Thomas Mayo, Bob and children spent 8 days in Mexico City and when they returned found Richmond in the midst of the flood from Agnes; luckily they found one bridge open across the James to get home. Later in the summer Margaret journeyed to N.Y. with Bob who took a course for the N.Y. Historical Society at Coopers Town. She enjoys the diving meets her children are in. Chris Davis Grizzard has attended courses at VCU in guidance and counseling; her family vacationed at Myrtle Beach. Her 14-year-old daughter enjoyed volunteer work at the Cerebral Palsy Center in Richmond. Sarah Lu Bradshaw Chenery continues her championship golf in Chesterfield County. Gay Power Mitchell, husband, and two boys take a cottage on the Rappahannock River next door to our place. We constructed a 9 x 12 float, painted orange and maroon, complete with Va. Tech sticker! Son, Charlie entered VPI last fall. My 3 girls enjoy their school activities, music and athletics.

May Henry Sadler Midgett and her family had an interesting summer with Rotary Exchange Students, spending a week of all summer. They were from Australia, South Africa, Belgium, and Sweden. Anne Moseley Akers was a broken bone casualty last spring—her ankle—but she was able to con-

tinue teaching her night school classes. Maria Jackson Hall and Virginius played host along with Helen Tanner, '53, to friends from Lyon, France. They are members of the family that both Maria and Helen lived with 18 and 19 years ago when they studied on Fulbright Scholarships. Maria has also enjoyed a class at VCU in creative teaching in the elementary school and vacationed at Va. Beach.

Some of our members are outstanding in other fields. Graham Trent Chappell, retired as a teacher a few years ago, but is chairman of the Ed. Dept. in the Woman's Club; Recording Sec. in the H.D. Club, teaches adult Womens Bible Class, and offers Volunteer Teacher Assistance one day a week in the Dillwyn Primary School. The class sends you love and sympathy in the loss of your husband. Norma Saunders Gibbons enjoys teaching and counseling at the Prince Edward Academy while husband, Bob, is in his 4th year on faculty at Longwood. Norma is also sec. of local Alumnae Chapter. Pat Lee Mathews of Tulsa, Okla. serves on the state board of both the AAUW and the League of Women Voters as Education Chairman. She has traveled over the state in this capacity. Her latest project has been writing a perspective for the LWV *The Administration of Common Schools in Oklahoma*. She is chairman of Indian Research at Philbrooke Art Museum and a training Coordinator for the Pupil Aide Program sponsored by the PTA. Pat and Bob have a son and two daughters. Flora Ballowe DeHart has a full teaching load at Louisiana College and has been adjunct consultant with the National Laboratory for Higher Education. This work has carried her to colleges in N.C., S.C., Ga., Ind., N.J., and Texas. Last summer she conducted two one-week sessions on individualized instruction at the Jow Thompson Center of the University of Texas. This fall she has had a fellowship to the graduate school of the University of Texas where she has been working toward a Ph.D. in Junior College Leadership. Good luck to Flora! Since her 4 children are all in school, Gladys Savage Baker is in her 3rd year of teaching in Wilmington, N.C. They are a camping family and enjoyed a summer in the mountains, swimming and hiking.

Marian Beckner Riggins is proud of son Morris, 16, 6'-3" playing varsity football in high school. Kathy, 17, who went to Girls State at Radford and was elected Campaign Manager, was chosen Captain of All Star Sr. team of basketball camp at W&L. Son Charlie, 7th grader, plays basketball and is active in Boy Scouts; and Phillip, 8, is interested in everything.

Stokes Overbey Howard and family spent a delightful three weeks in Acadia National Park, Maine; in Quebec and in Montreal, Canada; and at Lake Georges, Vermont. Norfolk claims Betty Barnes Lampert, Ralph, and three children; Patty, Paula, and Ralph, Jr. Last summer Patty and Paula received 3 and 2 tennis trophies respectively. Ralph, Jr., just finished Little League. Their summer trip took them to New York and Toronto. After 9 years of teaching kindergarten, Betty has moved up to 1st grade at St. Peter's Day School.

Please everyone drop me a card during the year and I will save it for next year's news letter. Until then and our 25th reunion in 1977, best wishes to all.

President: Polly Brothers. (Mrs. H. G. Simpson), 508 E. Riverview Dr., Suffolk, Va. 23434

Acting Class Secretary: Lilia Ann Wingfield. (Mrs. M. L. Pollard), 4534 Fontaine Dr., S.W., Roanoke, Va. 24018

It was just great hearing from so many of you. It seems that everyone is busy with family and careers. Since *Andrews Hicks* feels like a PE major since she is busy attending sports events with her boys and husband. She suffered a cerebral hemorrhage five years ago; thankfully suffered no ill effects. *Mary Bennett Arrington* is teaching English at Franklin County High School. Her husband owns and operates a florist business and she, Andy, 16, and twins, Marc and Gregg, 10 occasionally assist him. She went to London this past April with her brother, Wayne, who spoke at the U. of London. *Dot Boswick Greenman*, along with *Jackie Lackey Allred*, assisted with the Peninsula Alumnae Association reorganization. *Dot's* daughter will enter Longwood this fall. *Polly Brothers Simpson* does substitute teaching and helps Henry in his CPA office. They have three children: Dale, 16, Hank, 14 and Mary Quentin, 10, and they all enjoy vacationing at Nags Head.

Sarah Jones Light lives in Norfolk where Heath is serving an Episcopal church. *Frances Howell Abernathy* lives in Suffolk with husband Mac and daughter Lisa. *Joyce Gatling Ward* teaches school in Suffolk. She has two children. *Sis Burton Holland* lives at Virginia Beach. "Clancy" is on the city council. *Ann Crowder Vickstrom* lives in Richmond with her four children and hubby who is Project Director in Agriculture Development for Reynolds Metal. They are in the process of building a summer cottage on Lake Gaston near Roanoke Rapids, N.C. She, and many others in the class, are definitely planning to be back for the 20th reunion in March. From New Hampshire came a note from *Joyce Cheatham Harvey*. She, John, and three children were vacationing there. She is teaching business education at Thomas Dale in Chester. John is with the IRS in Richmond. *Jean Partridge Drewry* started teaching last fall and says she has to study hard just to keep up. She is also director of her church choir. Summers are spent on the Albemarle Sound with three children and Sam.

My roommate, *Beebie Hancock Beard*, lives in Portsmouth with hubby and two daughters. She is busy with church work and being PTA president. They went to Disney World when school was out. *Sarah McElroy Harvie* and Jack have three children. She has been in all kinds of musicals, including playing *Eliza* in *My Fair Lady*, singing at Erskine College's Fine Arts Week-

end and during Opera Week in Atlanta. Jack is with the YMCA in Sumter, S.C. *Ann Keith Hundley Brace* is in Tucker, Ga. Her oldest daughter is captain of the varsity cheerleaders and co-editor of the school paper. There are also two other girls in the family. *Ann Keith* reports that *Challie Haydon Parsons* and husband and three children live at Stone Mountain. *Nancy Driskill Finley* and her family live not far from Ann Keith.

Going to Spain in February was *Betty Jo Jennings Curran's* biggest excitement in the last year; says she really enjoyed the trip. *Lookout Mountain, Tenn.* is the home of *Wanda Karlet Marshall*, *Katie*, 14, and big *Echol*. *Wanda* is assistant supervisor of Adult Basic Education with the Chattanooga School System. *Alumnae* news certainly comes from afar: *Carolyn Michael Johnson*, husband, and two sons now live in Woodland, Calif. They went to Hawaii recently. *Harriet Minichan Thomas* writes that *Hayes, Jr.*, 16, *Bob* 14 and *Harriet* 10 are all talented and exceptional. "Byrd" and family are living in Charlotte, N.C. where *Hayes* is in business for himself. *She*, too, plans to be back for our 20th. *Annie Lee Owen Carlton* is in Newport News where *Bob* is the Minister of Education at Temple Baptist Church. There are five children in their family. *Annie* is busy with church work, substitute teaching, and teaching at the Baptist Assembly in Lynchburg. *Lina Hale Ore* is in Lynchburg and teaching second grade at Yellow Branch Elementary. Her married daughter also lives in Lynchburg. *Lina's* husband is the golf pro at Cedar Hill Golf Club. She received her master's from Longwood in January. *Billie Dunlap Powell* was awarded a fellowship at the U. of Md. to work toward her doctorate in music education. She was also chosen to play for the Master Classes for University Day.

It was so much fun hearing from so many of you. I am still teaching and husband, *Marvin*, is a supervising engineer with Appalachian Power Company. We follow the Tech games closely and often see *Betty Van de Reit Baecher*. Let's all plan to come back for the 20th!

Class of 1954

President: Nell Copley (Mrs. Jack Irby), Rt. 1, Box 42, Blackstone, Va.
Alumnae Secretary: Jeanne Hamilton (Mrs. C. H. Lafoon), 1503 Lee Dr., Farmville, Va. 23901

Many thanks to those of you who responded to my letter! *Dolly Horne Gwaltney* was one, and you will be interested to know that she, her husband *Atwell*, children *William* 13, *Mary Shepherd* 11 and *Ben* 4 live in Smithfield. After leaving the *Gwaltney Co.* in May, her husband is involved in building *Smithfield's* first public golf course. *Dolly* is planning to see us all at reunion in '74. *Living* in *Smithfield* also is *Elsie Holland Cox*. As you may remember, *Mrs. Cox* already had three grandchildren in 1954 so she says she has nothing to add there! She did retire in 1967 and keeps busy with volunteer jobs in the community. *Catherine Hamilton* of *Keysville* has also retired. She enjoys being her own chief cook and bottle washer with a little bridge playing thrown in. *Miss Hamilton*, too, has kept a watchful eye on Longwood's progress and has enjoyed every minute of it. *Hattie E. Pugh* joined the ranks, along with *Mrs. Cox* and *Miss Hamilton*. She taught for many years and worked for the F.B.I. in Washington. Since June she has been living in

Josephine Smith Brown '54

Lynchburg. Miss Pugh says she is not ready for the "rocking chair group" yet, though, and plans to do volunteer work to keep busy.

Jane Branch Botula, living in Gaithersburg, Md., attended a concert in honor of Miss Emily Clark in Farmville this spring. Miss Clark retired this year. Jane brought daughter Beverly along with her and was amazed at the "high rise dorms" and elevators! Being a nursery school teacher four mornings a week doesn't seem to be enough to keep Jane busy; so she teaches piano in the afternoons and takes classes at Montgomery Junior College. Oh, yes, she directs the children's choir in her Methodist Church. Children are Alan 15 and Beverly 10. Enroute back to Maryland from Farmville, Jane and Beverly spent the weekend with Nell Copley Irby and family in Blackstone. Nell is back teaching after a three-year leave, following the birth of daughter, Margaret Barrett, who is in play school now. Nell was hoping to get the Virginia Beach teaching group together for a reunion. Lou Kitts Dent is living in Richmond and has a beautiful home. Lib Boswell Lackey is living in Martinsville, and Anne Foster Posey is head of the English Department at Manchester High School in Richmond and has bought a home there. Nell and Jack love farm life; he is Soil Conservationist for Mecklenburg County.

Josephine Bell Brown was recently named to the Matthews County School Board. Mrs. Brown retired from the school system in 1969 after many years of teaching, but came out of retirement to fill a vacancy this past year. Ann Edmonds Huntington sent kind words from Alexandria, and she is still enjoying teaching. From Taipei, Taiwan, came word from Faye Greenland Campbell. After leaving Kuala Lumpur, Faye and family spent a month in Europe, revisiting Scotland, England, and Paris. There they had a reunion with Michelle Bodo Radan and Dr. and Mrs. Schlegel. A month in the U.S., and they were off to Taipei where Bruce was named Manager of Bank of America's Taipei Branch. In February, Faye and the children had a two-week trip to Rome and the Holy Land, with summer visits to Malaysia, Thailand, and Hong Kong. Son Brewster is a typical 9-year-old, and Sharon 6 is quite talented, excelling in ballet, swimming, Chinese, reading, and was selected as a demonstration exceptional child for a course given by the University of Southern California. I don't know how our news letter ever catches up with Faye, but she is faithful in responding.

The travel bug seems to have bitten more of the class of '54. Claire Kretzenbaum Hannan is tripping off to France, Greece, Italy, the Caribbean, New Orleans, and Miami with husband Bob. Bob is a Vice President with Marriott Motor Hotels. While in Miami Claire talked with Moneda Key Holman, '53. As boat owners, the Hannans and the Picardats (Sylvia Reames) tie up on the Potomac and visit. A trip was in the making to visit June Johns Griggs in Atlanta and Wanda Karler Marshall, '53, in Tennessee. Wanda's son, Echol, is in school in Alexandria, and Claire saw the family when they were in town. Moneda Key Holman is to become a grandmother in December, and daughter Becky will probably come home to Miami to have the baby, because her husband will be overseas. I thought I had the jump on everybody in that department! Moneda is still antiquing, but the last thing she took back to Miami from Virginia—you won't believe! She is nurturing a honeysuckle plant with as much care as she gives her orchids!

Marsh Hamer, 3 years and 8 months, son of Joyce Pomeroy Hamer, '55

Patsy Sanford Moore comes back to Farmville to visit her mom who is a neighbor of mine. She is much involved with family and children and is living in Springfield. June Johns Grigg and family have moved to Atlanta. Patsy's sister, Jane, lived next door to June in Annandale and says June's new house in Georgia is just lovely. Betty Islin Saffelle says that Life Begins at Forty, and it must mean the Saffelles. They are in a new city, new house, and a new position. Bob was named executive head of Wachovia Bank in Burlington. Down the block lives Mary Jean Carlyle Overstreet who helped welcome them.

Our male fellow graduate, Eric Robinson, is Executive Vice President of Virginia National Bank here in Farmville. He is so active in the community that I don't have room to list the many ways he lends his talents. Most recently, though, Eric was named to serve on Longwood's Board of Visitors. He doesn't look a day older, either, darn it. What is it about men!

Our Kip is almost eighteen, a senior at Prince Edward Academy, and Lisa is sweet sixteen and a junior. They both love sports and are on varsity teams, keeping us busy following them all over Virginia. Mike and I had a marvelous trip to London in April, with a short jaunt to Paris. The week in London was highlighted by a visit out to Suffolk County, 75 miles away, to see Betty Lou Garrett Atwood, Earl, and their family. They are taking full advantage of being so ideally located and are touring the continent at every opportunity. They showed us a perfect day in a darling picturesque English town named Lavenham. We saw farmland, old churches, and had dinner at an Inn that was built in 1500. Betty Lou teaches typing a few evenings and some sessions of shorthand. The craze at the moment, Betty says, is to go "rubbing". Brass rubbing, that is. She was kind enough to share some of her attempts with us, and we treasure them as mementos!

I do hope this letter makes up for the void last time. I was glad to hear you had missed it. We all love hearing from you!

Donnie Devine Clark from Charlotte, N.C., called me her news. She is past president of the Charlotte Alumnae Group, but continues her active life as president of the Zetas there. She took a fabulous trip to

Lake Ozark, Mo., to the Zeta Convention. Donnie and Len have two boys; William, 12, and 14-year-old Gus. Both boys are very athletic and particularly enjoy golf. Donnie sees Carolyn Vanture Culpepper and Ernestine Johnson Delaney occasionally. an enthusiastic fisherman. Barbara has retired from full-time school library work and is doing a bit of substituting. Otis continues with the C&P Telephone Co. in the Engineering Dept. in Richmond. The summer finds them in New Point, Va., where they, in a united family (Barbara's) effort run a campground. They meet people from so many interesting places. *Clare Davis Wallace* and *Anne Thaxton Jeffords* and families have been among her L.C. guests.

After a year in Franklin, *Jean Carol Parker Harrell* has moved back to Emporia where Ed is Executive V.P. and Cashier with the Citizen's National Bank. Coordinating the building of her new house and the activities of three growing youngsters has kept her busy. *Donna* is 15 and a cheerleader. *Hank*, 12, plays football, basketball and baseball and *Parker*, 10, plays outfield on the baseball team. *Jean Carol* and *Ed* met *Betty Davis Edwards* and *Bob* (who live in Winchester) at a Va. Bankers Association meeting at the Homestead recently. *Ann Carter*, *Hayden*, and family have also visited the *Harrells*. *Jean Carol* was sorry to leave *Gaynelle Edwards Riddich* in Franklin. They had renewed friendship in the church choir.

Betty Barr Gibbs and her family have moved into a new house on Broad Bay near Va. Beach. She said the crabbing is great (caught 52 in an hour). *Nancy Taylor* spent a week end with them in the spring. *Nancy* is teaching 5th grade in *Henrico County*. *Betty* has completed her work on her master's and has now been promoted to Assistant Principal of the *Williams Elementary School*. The *Diggs* are now living in *Rockville, Md.* *Bob* is with *IBM* in the *Data Processing Division Headquarters*. Their boys are ages 7 and 12, and *Sarah*, 3. *Nancy* saw *Carolyn Henderson* Barring at a school carnival very shortly after they moved to *Rockville*. . . . *Donnie*, *Frances Northern Ashburn's* son, was chosen to serve as a page in the 1972 session of the *Virginia General Assembly*. He was also recipient of the *Lancaster County Woman's Club's Camp Scholarship* last summer and spent two weeks at the *Nature Camp* in the *Shenandoah National Forest*. In addition he toured *Canada* with his *Boy Scout Troop*—quite a summer for one 13-year-old! *Frances* is teaching 7th grade English at *Mantua Intermediate School* in *Lancaster County*.

Emily Kester Graham from *Salem* has been traveling quite a bit since her husband's death three years ago. She has taken bus tours through *Pennsylvania*, *Baltimore*, and *Washington, D.C.* and was looking forward to a trip to *Hawaii*. She has one daughter and two grandchildren. . . . Woman's Doubles at tennis on base this spring, and the rest of the family is all involved in activities from baseball to snorkeling.

What a full life *Marion Webb Gaylor* leads with teaching second grade again and still managing to keep up with her brood. *Peggy Jo* is 16 and a senior in high school—active in 4-H work. *Cathy* is 15 and a sophomore much involved in basketball. *Kellie* is 14 and a 9th grader. She and *Ed*, and *Ed, Jr.* live in *Winchester, Ky.* . . . *Anne Thaxton Jeffords* and her family left *Philadelphia* to spend a year in *Charlottesville* for *Jack* to get his engineering degree. Besides keeping up with her large family, *Anne* and *Jack* were building a canoe and sailboat.

Last Christmas the *Smiths*, *Bowlings* and *Griffins* got together again for an afternoon at *Betty Jane Griffin Holland's* home near *Carysbrook*. I keep in touch with *Clare Davis Wallace* who lives in *Lynchburg*. *Irving* works as a heating and air conditioning service man, and their three boys are all in elementary school. *Clare* keeps busy coordinating their activities and serving as *Irving's* secretary.

In *Front Royal* *Joyce Pomeroy Hamer's* husband, *Marshall*, teaches *Bible* at *RMA* as well as serving as *Chaplain* and director of religious services. Please be sure to keep in touch if you change address, and remember you don't have to wait for me to ask for news. I always love to hear from you.

Class of 1956

President: *Georgia Jackson*, 3900 *Tuniah Rd.*, N.W., *Washington, D.C.* 20007
Alumnae Secretary: *Gail Leonard* (Mrs. *N. L. Negaard*), 2418 *McRae Rd.*, *Bon Air, Va.* 22335

With all the news that we've received from you this summer it's really been a puzzle deciding just where to start, so I'll pick *Charles L. Winfree* who is, and has been, for the past thirteen years minister of *St. Matthews United Methodist Church* in *Annandale, Va.* It reads, "Being the 'old man' of the class of '56, I would like to claim two firsts: being the first grandparent; and also the first to have a daughter graduate from *Longwood*—class of 1971." How's that for a starter? Congratulations, *Charles*, from all your '56 classmates. In the cold months of winter it always warms us to think of summer fun. The summer of '72 took *Georgia Jackson* to *Maine's Penobscot Bay* for sailing; *Patsy Abernathy Casey* and family to a *Canadian lake* that's "away from it all"; *Loretta Brooking Gasswint* and husband *Norm* to *Hawaii*; *Margurete Franklin Grekos* and family to *New Hampshire*; *California* entertained the family of *Betty Shickelford Ellison*; and a *Bermuda* cruise delighted *Shirley Adams Daniel*. We hope each of you had a great trip. Congratulations go to our most recent mother—"Baby" *Carter Goldsmith* whose daughter arrived in *April*.

The *Glenmont, N.Y.* *Welcome Wagon Club* now boasts a southern president and southern secretary, *Betty Maas Sterzing*, who writes that the two of them plan to "make some changes in these Yankees." New homes now shelter the families of *Sue Upson Newman* and *Elizabeth Sutherland Connelly*. *Sue's* husband *Billy*, a *Richmond* architect, designed their home, and *Elizabeth's* new home is on her husband's family place, *Glebe Farm*, in *De Witt*. *Mary Davis Fischer's* husband retired from the *Navy* this summer, and, at the time of her writing, they were still undecided as to where to settle. Perhaps it will be where you now live so keep an eye out for her. It's a small world, you know! Guess who surprised *Anne Brooking Stelter* with a visit? *Dottie Rector Turmail* *Dottie* and *Dick* live in *N.Y.*, and have restored a carriage house for their home. "Brookie," *Ted*, and three sons live in *West Palm Beach, Fla.* Teaching piano occupies much of the time for *Joyce Clinepenel Bailey* of *Lynchburg*, and *Mary Ellen Hawthorne Balazs* of *Richmond*.

They both direct church choirs, and both have daughters who are promising pianists. School teaching fits into the busy schedule of many of us. Two classmates now teach in Virginia community colleges. Virginia Cowles teaches at John Tyler in Chester, and Norma Jeanne *Croft* Atkins is at Thomas Nelson in Hampton. Those in elementary and high school positions include: Lou *Wilder* Colley who teaches fourth grade in Hanover County, Nancy *Hartman* Welker who teaches first graders in northern Virginia, Jackie Marshall is now second and third grade coordinator in Suffolk schools, and Louise *Turner* Caldwell who teaches Government at Smithfield High.

While still on the subject of education, special congratulations must go to Helen Warriner who completed her Ph.D. at Ohio State. Louise *Turner* Caldwell sent news that they had a visit from Audrey *Owen* Beale and husband Bobby who were enroute to Edwards Air Force Base, California. Dale *Brothers* Birdsong is enjoying keeping up with the activities of her husband and three children in Franklin. Thanksgiving '71 we received a note from Bobbie *Mays* Harris who lives in Owensboro, Ky. with her husband, Bond, and two children. Those who "stay" at home each day also keep very busy schedules. Jo *McClelland* Gaty of Richmond participates in community activities and driving children Ben and Susan to their activities. Shirley *Kemp* Barlow has two pre-schoolers and serves as a room-mother for her first-grade daughter. Bonnie *Moore* Vest has given her time as a PTA president and garden club secretary in Salem. Church and community activities and two young sons make life in Chester busy for Sarah Jane *Brisentine* Mick. Beverly *Taylor* Newcomb and family have moved from New Jersey to Cincinnati. Bev's children are Sharon, 15, and Stuart, 16, who occupy their time with tennis, golf, baseball. Did any of you in the Norfolk area see Ann *Coleman* Ross this fall? She, Don, and three sons were to be there for a five month stay while Don attended the Armed Forces Staff College. Their home is Carrollton, Md. Our closing note came from Phyllis Nurney who suggests we give her a call if we visit Washington, D.C. It's been fun hearing from you, but there are so many classmates with whom we've lost touch. If you're one of those "lost souls", please come out of hiding—we'd love to hear from you!

President: Frances Raine, 1251 Gaskins Rd., Apt. E, Richmond, Va. 23233
 Alumnae Secretary: Jo Hillsman (Mrs. Leo Winters), 8605 Oakcroft Dr., Richmond, Va. 23229

Our fifteenth reunion was a big success when measured by happy reunions and shared memories. Charlie Hop flew all the way from Orlando to be with us and was joyfully welcomed. Margaret *Beavers* Reed and Shirley *Hardy* McCray drove in together. They see each other fairly often. Mae *Bennett* Guthrie, after a nice visit, rushed back Saturday afternoon to the busy life of a minister's wife. Anne *Caldwell* Cate was among those enjoying a bus tour of the much expanded campus. Jackie Pond is a frequent Farmville visitor, attending board meetings and bringing prospective Longwood ladies to visit. Nancy *Hughes* Goodman is still active in community life in Cumberland. Betty *Wheeler* Stables has been in Charlottesville for awhile, and her children are enjoying school there. Liz

Paul and Rob, sons of Jo Hillsman Winters, '57

Wilson Miller '56 brought news of Lynchburg friends and Anne *Miller* Serrett came from N.C. Ann *White Thomas* Matthews and her husband brought darling pictures of their children. Barbara *Burnside* Ridout, Frances Raine, Betsy *Richardson* Heyl, Jane *Wood* Witt, Eleanor *Stradley* Turner, and I represented Richmond. Barbara *Roller* Hardie is enjoying life in the country. Camille Atwood and Jo Davis both planned to come but had very important professional meetings they could not miss. Nancy *Lenz* Harvey also planned to attend but missed plane connections. Most of us gathered after the luncheon for a gab fest. We reminisced and caught up on current news; fifteen years didn't seem so long after all. How good it was to find that we didn't have to rely on "Do you remember when . . . ?" for conversation, but to discover that we held many current common interests. Part of the class was able to stay Saturday night for more catching up.

Just before Frances Raine left for vacation she brought over her Christmas cards from classmate to add to mine. She was getting ready for a trip to Hawaii with her first free summer in years. Frances completed her master's last summer and spent Christmas in Florida. Jane *Wood* Witt and I were delighted when our sons David and Paul discovered each other in first grade. Belle *Fitzgerald* Neighbors enjoys being home with Sarah 4 and Andrew 1. Jack teaches and Bell teaches a ladies' Sunday School class and paints a little between other routine chores. Eleanor *Stradley* Turner has traced Caroline *Stoneman* Wells to Glendale, Ariz. Eleanor also is having her first free summer for some time and says she is glad fall is almost here. Gloria *Kratzch* Young wrote from Maine that they planned Christmas holidays in Newport News. Dave attended a summer institute at the U. of Colo. in Boulder last summer. When school was out, Gloria and the boys spent two weeks in Virginia. When Dave had to be in Iowa in October, the entire family went to visit friends.

Anne *Thomas* Denny wrote that Lee got his master's degree last summer, the week before son Eric was born. The Denny's left Monterey when Eric was four weeks old, flew home for a visit, and now are living in Alexandria where they have bought a home. Lee is at Naval Supply Headquarters near the Pentagon. Chris will be in seventh grade this year. Mike, in fifth, and Mark starting kindergarten. Mae *Bennett* Guthrie says Jim's duties as pastor of Oxford and Rapps Mill (a chapel) and Chaplain at the Naval Reserve Center in Lynchburg plus com-

munity activities keep him busy. Allison will be in fourth grade this year, Holly in second; Nancy Lynn has another year at home before first grade. Mae has eight piano pupils; last year she taught one "home-bound" school child. Anne *Wayne Fuller* Patterson and Dick spent a week in Mexico last year. Johnny is in seventh grade this year, and Meredith is in third. Johnny plays little league football and basketball. Meredith takes dancing and swims very well. Jeanette *Packett* Williams gave Meredith a Longwood T-shirt which she loves. Virginia *Forward* Hood (Butch) sent a card from New York City where she and John live.

Jeanette *Morris* Bowman wrote that David was a first grader last year and Susan a pre-schooler. They visited Dottie, Jenna's sister, in Texas last year and also spent some time at the cabin in Ruidoso, New Mexico. Ginny Pearce is back east in Wilson, N.C. Margaret *Beavers* Reed writes daughters Debbie and Becky enjoy piano lessons and kindergarten.

Peanuts *Winder* Grimstead enjoys substitute teaching. Lloyd now edits *The Beacon* which appears twice a week in the Ledgers and Pilots circulated in Virginia Beach. They have kept in touch with the Schlegels. Gayle *Peoples* Shiner, Bill, Jim, and Beth were in Virginia last year for a short "relative-visiting" trip. Jim will be in eighth grade this year and is active in Scouts with Bill as scoutmaster. Gayle has Beth's Brownie troop and also finds time to refinish furniture. Bill's department is really growing in students with the "ecology boom" creating so much interest in his Environmental Sciences Program.

Bobbie *Scott* Williams is enjoying her home in Greensboro. Liz *Wilson* Miller reports that Nancy *Striplin* McClung and Charles are building a lovely home in Forest and are doing the work themselves, including a beautiful staircase that Chuck is making. Elizabeth *Elliott* Williams and her husband have just finished building a new home. They too did much of the work themselves. Liz does substitute teaching and takes in sewing. C. E. is now automotive equipment mechanic with C. & P. Robbie will be in sixth grade this year, and is a member of the YMCA and cub scouts. Christie *Hulvey* Fulton and her family live in Eugene, Ore. Her husband works for the government, but they are transferred frequently. They have three daughters: Stephanie 11, Lisa 8, and Leslie 6. Christie is active in sorority and church work.

Leo, Paul Rob, and I spent our vacation in Orlando with my nephew, Jamie Fleet-

Tina and Lisa, daughters of Dolores *Winder* Grimstead, '57

wood, and his wife last summer. We visited in Disney World, Cypress Gardens, St. Petersburg, Silver Springs, and Cape Kennedy. Our trip was delightful with only one disappointment—Charlie Hop wasn't home. He was visiting his brother in Winston-Salem, N.C., and in the Northern Neck of Virginia. He wrote that he always enjoys visitors from Farmville and Longwood and talks to a number of Longwood girls in the Orlando area when he gets "homesick for the old college." He asks that I give his very best to all the Longwood girls. By the way, Charlie's new address is 839 Winthrop Place, Orlando, Fla. 32803.

Dr. Ethel Sutherland wrote me at Christmastime. She too is enjoying her retirement. She and a friend spent a delightful two weeks in Nova Scotia and Cape Breton Island. Last August she spent two weeks on Cape Cod. Her home is in New York City, and she goes to concerts and to the theatre once in awhile.

Please send news to Frances Raine or Jo Hillsman Winters. Many classmates jot a note on a Christmas card. Why not add one of our names to your list now while you're thinking about it? Remember that the pictures you send must be black and white. It is also very important to send any address change to the Alumnae Office. Please continue helping us locate missing alumnae.

Thanks for all your notes. It's always good hearing from you.

Class of 1958

President and Acting Secretary: Shirley Hauptman (Mrs. Hunter M. Gaunt, Jr.), 324 Feather Bed Lane, Winchester, Virginia 22601

Greetings, fellow classmates! Carol Wolfe turned the newsletter over to me this year. She has bought a house in Falls Church and is teaching at Oakton High School in Vienna. She went camping to Disney World, Myrtle Beach, and Charleston. Many thanks, Carol, for a job well done these past years.

I want to thank also Anita Heflin Allen, Jackie Lou Harnsberger Lewis, and Ann Brierley Fulghum who helped me so ably in obtaining the news for this letter. Anita is the Director of Placement and Alumni Affairs at American University Law School in Washington. However, she will soon be an administrative assistant to a member of the Virginia House of Delegates. In the meantime, she is going to school part-time and will complete the requirements for a master's degree in December. Jim, her husband, is working on a doctorate; they take some classes together at American U. On top of all this, there is Doug 11, Meredith 8, and Elizabeth 5, who sometimes say, "Daddy, aren't you ever going to get smart enough so you can stop going to school?"

Jackie and her family live in Newport News where Bob is chief engineer at the Shipyard in charge of nuclear fueling of aircraft carriers. Jackie keeps busy with Junior League of Hampton Roads and her children Jennifer 10, who is involved with tennis and riding this summer, and Bob 8, who loves fishing, sailing, and his boa snake.

In Richmond Ann is busy "coping". Two boys now—12-year-old foster son, Sammy, and 2-year-old Mark. 2 mini-dachshunds, plus the landmark school consolidation case, make life interesting. Ann gathered much news from the Richmond area. Ruth Zich Hill is living in Saluda and teaching in Westmoreland County. Anne Foster Duke is on the faculty at VCU, teaching linguistics; and her husband is also a faculty

member there. Barbara Parkinson Bowles is teaching at Gill School in Chesterfield County. Carolyn Waugaman is back in Richmond, working for the Dept. of Agriculture and still doing a great deal of writing—mostly poetry. "Tipi" writes that she has semi-renovated an old tenant house in Bon Air and is raising Pembroke Welsh corgis and having a great time "kicking around" at various dog shows. If you're interested in a "super-cool" puppy, give her a call. Emily Atkinson Williams is a co-owner of The Braxton School, a new business college for women. We hope her new venture will be a success. Ann tells us that Marodith Nichols has bought a townhouse and plans to move in December. Carol King Robertson has moved to Richmond where her husband, Bruce, will work on his master's degree at VCU; she hopes to teach.

Alyce Somerville Kyle is living in New York where her husband is a Presbyterian minister, and she is a deacon in the church. They have a daughter, Martha. Nancy Richardson Raybold keeps busy in Alexandria with her children Janet 7, and Stuart 5. She plays tennis, teaches swimming and lifesaving and is on the Parklawn Recreation Assoc. Board of Directors. They have recently enjoyed a trip to Florida in their travel trailer.

Gwen White Pruitt writes that they are on the move again. Upon completion of the course at the Armed Forces Staff College in Norfolk, they will be moving to Dayton, Ohio, where Dan will be stationed at Wright-Patterson Air Force Base. Sue Amory Jenkins from Hampton has a little daughter, Christy Sue. We feel sure that Lawrence and Brian, Christy's two older brothers, will make good babysitters! Mary Lee Teel Webb keeps busy with their two adopted daughters, Becky and Lee. Charles is an attorney specializing in tax work, and they have bought and remodeled an old home in downtown Charlottesville.

Suzie Barr Kendall is a busy housewife in Winchester. Besides looking after Gentry 6, Brent 4, and Katie 2, she is active in the hospital auxiliary, church work, and garden club work. Bob is a neurosurgeon and is looking forward to more free time since he has a new partner. They have recently bought a farm on the outskirts of town and enjoy this as a weekend retreat in the renovated farmhouse. Martha Jane Lloyd Westphal lives in Bolingbrook, Ill., and teaches in an open-space, open-concept school. Her three sons attend this school. Jane's husband is a major in the Marine Corp and teaches naval science at the Ill. Inst. of Tech.

As for me, I have thoroughly enjoyed getting everyone's news and finding out who's who and what's what! We moved into an old pre-civil war house this spring, after doing extensive work on it for some months. Winchester finally annexed some land into the city limits (the first time since George Washington surveyed it, I think) so we are enjoying country living and city conveniences. Our daughter, Cary 11, has enjoyed having her own horse, Hunter, Cary, and I are anticipating a trip to Europe in several weeks. We will go to Rome, Paris and London and will sail back on the Queen Elizabeth II.

Now for the most important thing of all—we have a reunion this spring! Would you believe 15 years?? Please start making your plans to return for Founders Day, March 16, 17 and let's try to get together for coffee at the Alumnae House Saturday morning. Thanks again for all of your news.

Class of 1959

President: Lillian Lee Rosson (Mrs. Lewis C. Spicer, Jr.), Westwood Estates, Abingdon, Va. 24210

Alumnae Secretaries: Patsy Elizabeth Powell (Mrs. Luther B. Ray, III), c/o MAJ. Luther B. Ray, III, HQA USMTMSA, APO New York 09616

Dottie Cothorn (Mrs. Ralph Nugent), 701 Sterling Ave., Martinsville, Va. 24112

As you can see from the above address, Patsy Powell Ray has left the country. As of June, Patsy and her family will be spending twenty-four exciting months in Saudi Arabia! Along with a million other things to do, Patsy managed to do a great job of sending letters to our classmates. While reading your wonderful letters, I couldn't help recalling many pleasant memories of days at Longwood. Only recently I found my daughter Meg (now age four) looking through our senior yearbook while Ralph asked if she could find her mother. "But none of these pictures have gray hair!" she replied. I think you will have to agree that "We're not getting older—we're getting better!"

As proof of this, our class can proudly boast of three principals and an assistant principal within various areas of Virginia. Helen Jean Young just completed her first year as principal of an elementary school in Clifton Forge. She says it is a challenge and offers many new experiences. Virinda Joyner Snyder is principal of Wilton Woods Elementary School in Fairfax County, and Minnie Lee Dean is now serving as an assistant principal in Alexandria. Mary Ellen Moore Mitchell is principal of a Newport News Elementary School and is serving on the Board of Visitors at Longwood. Also headlining the news this year are two brides and two births! Virinda Joyner became Mrs. Richard N. Snyder last December in Alexandria. Merle Ridinger Weingart is now Mrs. Russell Peery! They are residing in Hartford, Conn. As for births, Patricia Farrington Gaines is the proud mother of a baby girl, Barbara Ellen. According to her old roomie, Barbara Heck Bruns, Pat's first words after the event were, "How would you like to go back to Longwood where it was peaceful and quiet?!" Also visited by the stork was Sandra Kilmon Phillips to whom a baby boy, Hal, was born. Congratulations to all of you!

It is with regret that I report the death of Nancy Knowles Saunders in August, 1971. She was an outstanding personality in our class, and the loss will be felt by all of us. Mary Ellen Moore Mitchell reported that

Ellen and Eric, children of Barbara Heck Bruns, '59

shortly afterwards; several classmates got together. Among those present were the following: "Weedie" Norman Hoffman, Wayne Boyden Dunbar, "Beebee" Station McMillan, Betty Griggs Barco, Jr., Jo Lynn Holland Chaffin, Joan Lee Thomas Jenkins, Gin Kuyk Lynch, Jr., and Betty Brown Culpepper Holland. Mary Ellen also mentioned that she sees Nancy Andrews in Farmville when returning for board meetings.

Other letters from Virginia include ones from Jo Ann Baldwin Black of Staunton and Lillian Rosson Spicer of Abingdon. Jo Ann sent a lovely colored photo of her three adorable girls, ages seven, three, and one; however only black and white pictures can be used in the news—so sorry, Jo Ann! Please send another next year. Lillian reports that her year has been child centered. Ann Lewis is into everything, jabbers constantly, and is a Daddy's girl. She also mentioned that Southwest Virginia now has an alumnae chapter, the Highlands Chapter. Liz Jones paid us a lovely visit here in Martinsville last spring and brought some slides of the campus. Helen Jean Young is planning to attend the Inter-Session at U.Va. during the summer and then to enjoy a trip to Iowa and South Dakota. She suggests that we hold our fifteenth reunion in Saudi Arabia! How about it, Patsy? Received a long newsy letter from Doris Ayers McElfresh in Blacksburg where she has been working as a resource teacher at Gilbert Linkous Elementary School. At the same time she is working toward her master's at V.P.I. Will plans to start work on a Ph.D. this fall at N.C. State and to commute to Blacksburg on weekends. Afterward he plans to return to his original position as Extension Forester with the Division of Forestry and Wildlife at Tech. They enjoy camping—spent Christmas in Florida and toured Disney World. Doris plans to be in charge of Vespers at 4-H Conservation Camp at Virginia Beach this summer. Agnes Lowry Frasier and Tom live in Lynchburg. They now have a family of three boys, ages 11, 10, and 9, and a new horse! Octavia Loftin Reynolds will also be in Lynchburg by the time this letter is printed, where they will enjoy living on a farm.

Barbara Hack Bruns and family are residing in Falls Church with the completion of their townhouse. They have two children, and Jerry is employed as Director of Psychological Services. She sees Betty Lee Smith quite often as she is living at Southern Towers. Pat Farrington Gaines and family are in McLean where Pat is enjoying motherhood. She is still happy in Personnel with Xerox. She saw Linda Allen Phillips when at Virginia Beach. Linda is teaching and being a mother to three children. From Fairfax, I received a Christmas letter from one of my old roomies, Molly Workman McLeod all about Virllinda's wedding. Among those present were the following: Liz Nichols Thornby—Matron of Honor, Lois Ogburn Elsam, Juliet Robinson Franklin, Inez Crump Mihalsoe. Received a long, newsy letter from the bride herself—Virllinda Joyner Snyder. After a honeymoon in St. Thomas, Virgin Islands and a visit to Ft. Lauderdale, she and Dick have settled down in Springdale. Dick is retired from the Air Force, but still loves to fly. They are part owners of a small plane and make many short trips on weekends. She also reported that Inez Crump Mihalsoe's husband, Charles, runs a Pizza Shop which they often visit. The Mihalsoes reside in Williamsburg. Another classmate whom she often sees is Liz Nichols Thornby and her family who live in Rockville, Md. where Liz is teaching in Montgomery County.

Max, 5½, and Steven, 2, sons of Dixie Hilliard Nicholson, '60

From out of state came news from Maryland, North Carolina, Mississippi, Missouri, Ohio, and West Virginia. Sandra Kilmon Phillips and Hattton are residing in Salisbury, Md. where Hattton is Supervisor for the Campbell Soup Company! Sandra says little Hal has really made a great change in their lives. She works as a Protective Services Supervisor by the Division of Social Services in Delaware. Ann Glover Odell reports that life continues exciting in Oxford, Miss. Her youngest is Lee, age 6. She is chairman of a volunteer organization for international students, and an adult Sunday school teacher. From Charleston, W. Va. comes news of Judy Eckstrom Morris. She and Bob moved into a new house two days before Thanksgiving and have been having fun getting settled. Judy is teaching fifth grade. Charlotte McGhee Bard and John are residing in Kansas City, Mo., where John is employed with Black and Veatch Engineering firm. Charlotte has been teaching at Smith Hale Jr. High but plans to develop a pottery shop patterned after the one near Williamsburg. From Winston-Salem, came a note from Gloria Gardner Buchanan who does volunteer tutoring for underachievers. Her oldest son plays the violin and piano. Gloria is working as a part time docent in Old Salem. Another classmate, Ann LaBonte Furell, also lives in Winston-Salem. News comes from Margie Layman Forte in Columbus, Ohio. Wes is with the Borden Co. and is now Senior Counsel for Domestic Operations. In August, they, along with their two children, took their first European trip.

Betty Rawls Unwin, David, and their two boys are in Pirmesans, Germany, where David is serving as a Warrant Officer. They are only twenty miles from the French Border and have been in Bavaria and Austria. Donna Boone Lewis lives in Asheville, N.C., where her husband is dean of students at a private school for boys, "The Asheville School." Nancy Cross Johnston and John live in South Boston and teach in Halifax County. Sou 1 in is 3. Patsy, we shall look forward to hearing the news of your experiences next year and would love a picture of you "driving" your camel to the local neighborhood grocery! Patsy will be doing next year's newsletter; so send your Christmas cards and letters to her at the above address by Christmas or no later than Easter. If you send pictures, please be sure they are black and white. Also use a U.S. Air Mail 11¢ stamp!

As for yours truly, life has been unusually busy here in Martinsville where Ralph has been promoted to a Senior Research engineer with DuPont. He has also been busy serving as Vice Commodore of the Virginia Inland Sailing Association at Smith Mt. Lake. Daughter Meg joined the Cherub Choir at church and entered four-year play school last September. I was proud to receive first prize again this year in the needle-

work division of the Art Festival sponsored by the Va. Museum of Fine Arts. We enjoyed a trip to "The Land of Oz" at Beech Mt. last summer and saw Dale Brothers Birdsong, class of '56, from Suffolk.

Let's begin thinking ahead toward our fifteenth reunion and making plans to attend. Wouldn't it be wonderful if we could have one hundred percent attendance!

From Hampton, Virginia *Kemp* Bauserman says she sees Jane *Hanger* Longacre who will be teaching kindergarten this year at Denbigh Presbyterian Church. Virginia says her little ones, Andrew, 3, and Leanne, 2 keep her busy. In addition she is serving as parliamentarian of a junior woman's club, as co-chm. of the social committee of the Peninsula Alumnae Chapter, and is teaching a Sunday school class of teenage girls. Virginia had talked to Mary Rob *Harris* Clodfelter who was visiting her family in Hampton. Mary Rob and her husband live in Ohio where she keeps busy with Scott, 2, and helping Harve build their home, do-it-yourself style. When Sue *Sharpe* Gillenwater wrote she and Ed had been to Atlanta where they had seen Anne *Yinger* McCann, Jim, and son, Todd. Nancy *Branscomb* Warren

and her husband and their girls stopped over in Norton to visit Sue on their way to Newport News to visit Nancy's family. Sue was hoping to see *Bettie St. Clair Perkins* in Cherry Hill, N.J., on her way to visit her sister in New York.

From Middletown, Maddie MacNeil wrote that she was working on the Skyline Drive at Skyland and Big Meadows, teaching children in the afternoons and performing for an hour in the evenings. Maddie says she met many interesting people but her big news, though, is her first album! The name of it is "Gentle Folk"—it consists of traditional folk songs, two of which were written by Shenandoah Valley residents. Congratulations, Maddie! I understand our class has another successful artist; Dottie Nelson Duke is becoming known for her art work. She and her family are in Richmond. Sandra Weaver Huff wrote from Oak Ridge that she was editing and typing a book her mother-in-law had completed. Sandra and Jack were planning to leave for Europe in September for a five-week vacation in Italy and Greece. Sandra had seen Carolyn Elliott Holden in Newport News and reported that Carolyn was quite a gourmet cook and was expecting her first child in August.

Lois Peters Meredith and Sid were hoping to make a trip east sometime after their October baby arrives. They live in Omaha and had been to Miami for the New Year's Orange Bowl game. Also planning a trip was Betsy Wilson Price. Betsy and Beau were headed for the Hawaiian beaches in the fall. She had their third son Timothy Denny in Feb. and still made it to the reunion on Founders Day! I was delighted to have Betsy and her two older boys, Scott and Mark, spend a day with us this summer. I enjoyed visiting Ann Howell Griffin and Bill and their two sons, Billy and J. T., while Buddy and I were in Richmond this summer. Ann, who is quite an avid reader and a great cook, will be teaching biology at Collegiate this year. As for myself, Stacey, 4, and eighteen-month Will, seem to occupy most of my time. I am slowly taking up golf, but it will be a long time before I'm on tour!

Elle Brown Marks and family live in Lynchburg. Their children are Karen 8, Robert 4, and Ken 2. Jean Cloud loves her work as instructor for medication technicians in Richmond. She enjoys folk dancing and camping, and has planned a trip to Calif. in July. Judy Jones Tharrington and J. C. have settled down to civilian life and moved into a new home in Annandale. Class of 1963

President: Alice White (Mrs. John E. Trainer, Jr.), 5715-H Bourbon Alley, S., Jacksonville, Fla. 32211

Acting Class Secretary: Susan LaRue Rollins (Mrs. William J. Wykle), 1518 Dogwood Road., Charleston, West Virginia 25314

A big Green and White "Thank You" goes to all who responded to our call for news.

This has been a busy year for the Wykles with a new (to us) old house in the woods and a procession of painters, plasterers and the like.

A delightful surprise in the mailbox this year was a long letter from Charlie Hop in Orlando. He had heard from Alice White Trainer and her family in Jacksonville and reports that they had an addition to their family last spring. Charlie had been to Founders Day, 1972, and hopes to join us in March 1973 . . . we hope so, too! Also writing from Florida, Cocoa this time, was Anne Friedman Spencer. She is interested in all the activity at nearby Cape Kennedy, and she and her two boys spend a great deal of time on the beach and camping.

Ann Greene Hodges wrote, "Tell everybody they've got six months to lose those extra pounds and ten years of accumulated wrinkles. Use Coty cosmetics . . . they'll help." Spoken like a good wife, for Rusty is still a successful Coty salesman, and they hope to be in Columbia, S.C. for a long time. Ann stays on the go with Hank and Katie (bless her heart), she did take time to write about some of you. They visited Toddy and Lani Robinson Brewer and their two girls in Marietta, Ga., in the spring; she saw Rosa Pettit Noyes during the summer. Rosa has moved from Roanoke to Richmond since our last newsletter. On the same trip "north" (to Washington) Ann had also spent some time with Dee and Gari Dickson Laird. David III has a new little brother, Robert Dickson, born in August. Mutual Navy friends had reported that Charlene Owen McKay and her family were

Beth, 4, and Kate, 6, daughters of Kay Lockridge Goodman. '63

headed for the west coast again.

Joyce Cundiff Highsmith is in Charlotte with a new daughter, Leanne, born in March and a new house under construction. Billy and Shelby Lucy Hawthorne and little Alice seem settled in Knoxville, Tenn., where he teaches at the University. They had a wonderful vacation in California and Disney Land. They later visited Dianne Wade Heirholzer in Charlotte. This year brought our first news from Dianna Euksuzian Der-Hovhannessian. She and George live in Kearny, N.J. She taught in a private business school until shortly before the birth of Arthur in May. Frieda Boykin Cathey and Tom are delighted with their year-old Cindy and a new home in Manassas. Kay Lockridge Goodman car pools to school and dancing lessons with Kate and Beth in Lexington. Jeanette Thompson Roberts has a little girl, Ann Jeanette. She was born in August after the Goodmans had visited the Roberts family in Charlotte.

Debbie Dove Kidd taught until 1965 when she entered Catholic U.'s graduate school. She completed her master's in 1968 and has worked with the Fairfax County Public Library for the past four years. She, husband Danny, and son Daniel now live in Woodbridge. Other news from around Virginia included a letter from Nelda McPherson Emert. She, Bob, and Chris, 3, moved from Fredericksburg to Buckingham in July when State Trooper Bob was transferred. Nelda is teaching and looking forward to a new home across the road from Liz Jones, our Alumnae Director. Still in Fredericksburg is Sara Decker Johnson; she keeps busy with Randi and Kim while Walt flies for Eastern. Joyce Outland Bradt had a new daughter in January. She and Rod and the three children took a five-week trip to Canada during the summer after Rod served as a delegate to the NEA Convention in Atlantic City. Living in the country near Staunton is Dudley Brooks Buck who has just started teaching at Mary Baldwin College. Cissie Griggs visited Dudley during the summer and was enjoying an apartment on the beach and teaching in San Diego, Calif.

Janice Harris Overbey, Buck, and two-year-old Judi are looking forward to a new baby in December, and Janice keeps "involved" with work in Delta Kappa Gamma, DAR, and the girl scouts. Joan McKenna Ward, her husband, and three-year-old daughter are living in Hampton; Joan teaches at Christopher Newport College. She

wrote that her family had visited Ida Appendini Garcia Rio (one of our Spanish Assistants) in Mexico shortly after Mary Morris spent her Christmas vacation with Ida. Enjoying her first summer as a full time housewife and mother was Judy Purcell Earnhart who worked in the office of an Ohio congressman until year old Allison was born. Judy and Navy Captain Chuck are now in Alexandria and look forward to a possible overseas assignment next. Harriet Hunt Little lives in a lovely old home in Fincastle, and she and her husband host the "Ned Little Show", a weekly television feature on a Roanoke channel. Besides the folk music, Anne Spencer reports that Ned is becoming quite well known for his work with wood cuts. Margaret Vaughan is living in Purcellville and heading the math department at Loudoun Valley High School. Sandy Little Heard and Ron live in Fort Knox, Ky., and are proud parents of Christopher Saunders. Dot Womack Tate has two daughters and is president of the Danville Alumnae Chapter. Elaine Lohr Alfano's three daughters are Theresa, Susan, and Angela.

So many are planning and hoping to attend our 10th reunion in March, 1973 . . . will we see you at Longwood then? Do come celebrate Founders Day with us!

Janet Lacy Martin, husband, and four children are enjoying camping and fishing in the South Dakota area. Janet is serving as president of the Alpha Sigma chapter of Epsilon Sigma Alpha. Also busy with a new home and teaching is Cynthia Alcock Rizzo. She and Joe took time for a trip to the Bahamas last winter.

Paula Kirby Blundell and family plan a move to Gaithersburg, Md., where Frank will start an accounting practice in Frederick. She and Frank attended Hampden-Sydney homecoming last fall, and Paula was amazed at the changes on the Longwood campus! Khaki keeps busy as housewife and mother of two sons, ages 4 and 7. Janet Culpepper Guthrie and husband have just returned from their second trip to Europe. Janet is chairman of the business department of Indian River High in Chesapeake. Jeanette Elder Crosswhite has had a hectic year of teaching and taking classes, and is in the process of moving to a new home. They will visit Georgia this summer.

Voted for the most unusual hobby this year is Barbara Jean Turner Boyd who has taken up skydiving and sends a picture of the sport. She writes "Since April, I have logged 23 jumps and was falling at terminal velocity, 120 miles per hour. It really is a thrilling sport and more girls should take it up." Otherwise she is working as a home economist for VEPCO. Eunice Lewis writes from Suffolk of her marriage in June to J. Elbert Barrow. Before her marriage Eunice taught 8th grade by day, adult clothing instruction at night, and worked with the Beta Theta chapter of Delta Kappa Gamma. Another new bride of our midst is Diana Delk who married Timothy Andrew Gahan this year. They live in Richmond.

New babies are very much a part of our class news this year. Bobbie Cadow Rutherford writes of their third son in July, Todd Stuart. She and Woody spent the Easter holiday in New York. Bobbie hears from Margaret McMullen '63 who is teaching in the Washington area. Also bravely reporting boy number three is Carolyn Houser Reid, whose son Christopher Lee was born in April. And this type of thing seems to happen in triplicate so it wasn't too surprising to hear of another "third boy" born to Peggy Thorpe Vaughan in February, Terrell Andrew. Peggy's husband, Kely, is working on his master's in vocational rehabilitation counseling at VCU. Ann Sink Miles

Barbara Jean Turner Boyd, '64 is enjoying her new hobby sky diving.

Betty Howard Hutchison is helping with the FISH organization in Leesburg and is helping to organize a playschool for 3-5 year olds. She and Larry sheltered families last winter who had abandoned their homes during a severe snow storm and had to be airlifted to shelter. Betty visited Jeannie Kafer Stern in May. Last fall, Betty and Larry visited Longwood campus and marveled at the changes. She missed seeing Lois Obenshain who was serving as Head Resident of Main Cunningham while she worked on her master's degree in education, specializing in Supervision and Guidance and Counseling. Lois saw Gay Taylor Wolford and daughter Wendy at Longwood's May Day and reports that Chris Longstreet Wilson is teaching elementary physical education in East Tawas, Mich. As the summer closed and September drew nearer, many of us wished we were going back to old LC—either because we had jobs or because we did not! However, we will survive, and most are looking forward to reunions at Oktoberfest.

Among the first of the marriages of the summer, Carolyn Simpson Baker and Clark, were married in Farmville. Beautiful wed-

ding pictures were taken on campus! They live in Washington, Ind., where Carolyn teaches the fifth grade. Among others leaving the Old Dominion is Linda Droste who moved to North Canton, Ohio, where she hopes she will be teaching. Karen Gourley is living in Los Angeles and will be married this fall. Another Californian, Elise Caldwell Jermain, and Clarke have been living in Sacramento since February. Elise finished her last semester at Sacramento Univ. She and Clarke are now living at another Air Force base in California until they transfer in December to Ohio (a little closer and colder!) Lynn Woodlief is teaching kindergarten in Roanoke and will have a fall wedding on November 18. Jo Brown lives in Rocky Mount and teaches Spanish at Franklin County High, after a busy summer working. Also in Franklin County is Sue Davis who is next door to Jo in the Junior High, teaching Science. In northern Virginia, you will find Margaret Lowry and Patti Coogan. Maggie teaches physical education at Fauquier County High while living in Manassas. Margaret uses her spare time with the Hockey and Softball teams and the cheerleaders! Do you have any spare time?

There was one person we managed to get from the beach area to Richmond! Marriage won out with Amelia Nespoli Hopkins. Amelia and Roger had a beautiful wedding August 5, with a reception that was unbelievable! Amelia is now teaching Life Science at Hermitage Middle School in Henrico; this seems to be a meeting ground for Longwood students. Pat Lewis is also there teaching 8th grade English and surviving very well. Sue Yeatts Bonham is also on the Hermitage Middle School staff, teaching Spanish and French. Other grads in Henrico include Beverly Blunt who teaches

Class of 1962

Lisa Worthington has one of the most unique teaching jobs of any of us—teaching English to the “locals” in Athens, Greece! Lisa is also taking French and Greek at the Univ. of Athens.

What a summer it was for most of our class! Members of our class filled the summer with travel, fun, apartment hunting, walking down church aisles to the tune of wedding bells, and settling into new living quarters.

August 29th turned out to be a Longwood Reunion in the City of Chesapeake as new teachers met for a city-wide orientation program. Some of the faces that showed up were Bev Aston and Val Callis who are teaching 6th and 5th grade respectively, at Crestwood Elementary. Bev and Val share an apartment in a “singles only” complex near the ocean front at Va. Beach. Barbara Duck lives in Portsmouth and teaches science at Deep Creek Jr. High. Sandi Harris is “making lesson plans” for the 6th grade at Central Elementary and lives in Chesapeake. Andy Lassiter, '73, returned to her home town to teach Physical Education and Health at Indian River Jr. High. Rakes, and Carol Servies share an apartment in Va. Beach that “caters” to service men. Sally teaches 2nd grade at Park Elem. in Chesapeake, and Nancy occupies herself teaching 2nd grade at Portlock Elem. while she waits for Ricky Setzer to return home in February from Taiwan. Carol is a 5th grade teacher at Carey Elem. in Norfolk.

As usual the autumn days find Nancy Fowlkes on a hockey field, but this time Nancy is coaching instead of playing. Nancy is the J.V. hockey coach at Cox High in Va. Beach where she also teaches Health and Physical Education. Also teaching in the Va. Beach system are Susan Fawcett, Martha Marchese, and Teresa Seaman Kellam. Thomas Sully Exhibit

Plans are being finalized for the opening of the Thomas Sully Exhibit on March 16 through April 22. The opening date coincides with Founders Day weekend so that alumnae may be the first to view a presentation of works by the 19th century American artist whose name will be perpetuated by the future establishment of a museum on our campus. The generous gifts of Mrs. Jeanne Sully West were the beginning of the Longwood collection.

This special exhibit is being made possible by a matching grant of \$2,000 from the National Endowment of the Arts and the Virginia Commission for the Arts and Humanities.

In addition to the 10 works by Thomas Sully which are owned by Longwood College, some 20 other Sully works will be on loan from various museums and art galleries throughout the country. Of special interest to our alumnae will be those paintings from the Metropolitan Museum of Art, the National Gallery of Art, and the National Portrait Gallery of the Smithsonian Institute.

Also included in the exhibit will be several Sully works loaned by various private families, among them being Mr. and Mrs. Thomas A. Sully, Jr. of Newport News, (Elizabeth Butler, '38).

Tentative plans for Founders Day weekend include a lecture on the life and works of Thomas Sully, a benefit dinner, and the opening reception for the exhibit. Alumnae interested in attending the benefit dinner should write directly to Miss Barbara Bishop, Chairman of the Art Department, Longwood College.

Tribute to America

by RUBY Leigh ORGAIN, '99

We may exist without friends,
 We may exist without hope,
 We may exist without love,
 But where is the man
 who can really live
 without his country's grace?
 Bountifully, God has given us
 beyond merit of deserving—
 The majesty of mountains,
 The glory of wooded hills,
 Prairies reaching to far horizons
 and fertile valleys where rivers run.
 This is America!
 This is America the world will not forget!
 To this width of land, with men of fame,
 And to its banquet of love and service,
 We bring the tribute of grateful praise—
 Through days of protest and violence,
 Through days of demonstrations,
 and days of achievements,
 Through every swift vicissitude,
 O, God! Bless America!
