The College_____

PURPOSES

Longwood College has four important educational objectives. These are:

1. To provide a sound education including professional preparation leading to a baccalaureate degree for students planning to enter teaching positions in elementary and high schools.
2. To provide a sound education for students seeking liberal arts degrees.
3. To provide preparatory training for students planning to enter professional schools and to provide terminal courses for those who wish to enter secretarial and clerical positions after two years of study.
4. To provide graduate study leading to the master's degree for those who wish additional preparation for teaching in the elementary or the high school, or for supervisory work in schools.

HISTORY

Longwood College, a pioneer first in private and later in public education, is one of the oldest colleges for women in the United States. The College was founded on March 5, 1839, this being the date that the Farmville Female Seminary Association was incorporated by the General Assembly of Virginia. The seminary opened its doors in an impressive brick building in the Georgian style of architecture, which now forms a part of Ruffner Hall, the administration building at Longwood College. Prior to 1839 there existed the Farmville Female Seminary established in 1833 and another female seminary established in 1835 by the Reverend A. J. Heustis. It is possible that the seminary of 1839 was an outgrowth of these earlier schools. If this is the case Longwood College can justifiably claim a founding date of 1833.

In succeeding years the increasing prosperity of the Farmville Female Seminary or Female Academy, as it was sometimes called, led the stockholders to expand the seminary into a college, and the Farmville Female College was incorporated in 1860. This college under both private and church management enjoyed a long period of successful work. Between 1860 and 1884 it was directed in turn by George La Monte, a young graduate of Union College, New York; Arnaud Preot, a distinguished French musician and linguist; Dr. Paul Whitehead, a Methodist minister; and the Misses Fannie and Mary Elizabeth Carter of Mecklenburg County.

The first State legislature to assemble after the adoption of the postbellum constitution established a system of public schools in Vir-

ginia on July 11, 1870. For twelve years or more the conduct of these schools was entrusted to such teaching forces as were found ready at hand. However, during this period it became evident to educational leaders that some provision must be made for the training of teachers. To meet this demand, the legislature on March 7, 1884, passed an act establishing a State Female Normal School. On April 7, 1884, the State of Virginia acquired the property of the Farmville Female College, and in October of the same year the Normal School opened with 110 students enrolled. This was the first state institution of higher learning for women in Virginia.

With the passage of the years, the Normal School expanded its curricula and ran through a succession of names. It became the State Normal School for Women in 1914, the State Teachers College at Farmville in 1924, and Longwood College in 1949.

The college's present name was derived from Longwood Estate, a tract of 103 acres acquired by the institution in 1928. This beautiful property, then consisting of thousands of acres, was purchased by Peter Johnston in 1765, and was the home of Peter Johnston, Jr., a lieutenant in Light Horse Harry Lee's famed legion and judge of the Circuit Court of Virginia. There, also was born General Joseph E. Johnston, confederate military figure.

In 1811 the estate was bought by Abram Bedford Venable, a United States Senator and the organizer and first president of the first bank in Virginia. After the destruction by fire of the original house on the estate, the present house was erected in 1815 by Nathaniel E. Venable, an officer in the War of 1812 and a member of the Virginia House of Delegates and the Senate. It is the birthplace of Lieutenant Colonel Charles Scott Venable, who was a member of General Robert E. Lee's staff, and professor of mathematics and chairman of the faculty of the University of Virginia.

The college was first authorized to offer four-year curricula leading to the degree of bachelor of science in education in 1916. It was authorized to offer the degree of bachelor of arts in 1935, the degree of bachelor of science in 1938, curricula in business education the same year, and courses leading to degrees in music education in 1949. In 1954, graduate programs were authorized.

Primarily a college for women, Longwood now offers nine baccalaureate degrees and two masters degrees in education.

ACCREDITATION

The college is fully accredited as a professional school for the training of teachers and as a liberal arts college. It is accredited by the Southern Association of Colleges and Secondary Schools, the National Council for Accreditation of Teacher Education, and the Virginia State Board of Education. It is on the list of colleges approved by the American Association of University Women. Its pre-medical curriculum is approved by the Council on Medical Educa-

tion and Hospitals of the American Medical Association. Its pre-professional curricula in law, dentistry, nursing, and medical and X-ray techniques prepare students for admission to accredited schools.

The college is a member of the Association of American Colleges, the American Association of Colleges for Teacher Education, the Association of Virginia Colleges, and the National Association of Business Teachers Training Institutions.

Longwood College is affiliated with the Richmond Area University Center, an agency which brings nationally-known scholars and lecturers to the Richmond area and arranges programs of research, cooperative professorships, adult education, and library exchanges among member colleges. Longwood shares directly in the enriched educational activity made possible through the joint efforts of the thirteen institutions affiliated with the Center.

LOCATION

The college is located in Farmville, a progressive community with a population of 5,000. The town is the business and educational center of this area of Virginia. Located here are good schools, churches, hotels, and the modern Southside Community Hospital. Hampden-Sydney College, a liberal arts college for men, is within five miles of Farmville.

Farmville is fifty miles east of Lynchburg and approximately sixty-five miles west of Richmond and Petersburg. It is situated on the Norfolk and Western Railroad. Serving it also are the Greyhound and Trailways bus systems. Excellent highways including U. S. 15 and U. S. 460, intersect here.

The climate is pleasant the year around. The geographic location of the college assures the absence of extremes in temperature and weather.

THE CAMPUS

The buildings and equipment of the college are adequate for the sound educational preparation of the students. The campus is compact; the buildings are arranged for usefulness and convenience. Many of the halls are connected by colonnades in order that students may pass from one building to another without exposure in bad weather. (See aerial view of campus on page 33.)

Administrative Offices

Most of the administrative offices of the College are housed in Ruffner Hall which is located near the center of the campus. On the first floor of this building is the rotunda which is attractively furnished as a reception hall. To the left of the rotunda are the offices of the President, Dean, Assistant Dean and Business Manager. To the right is the Home Office and the office of the Dean of Women. The offices of the Registrar are located in Tabb Hall.

Athletic Facilities

Located at the eastern end of the campus is the Student Building which contains a modern gymnasium, shower rooms, and indoor swimming pool. In the rear of this building are tennis courts and an athletic field used for archery, hockey, soccer, and other outdoor athletic contests. A nine-hole golf course is maintained at Longwood Estate. An auxiliary gymnasium is located in the basement of Tabb Hall.

Auditoriums

Jarman Hall houses an auditorium which seats 1,235 persons and contains all the equipment, including a four-manual pipe organ, and space necessary to stage elaborate productions of varied types. The music department with practice rooms and instruments for a full orchestra is also located in Jarman Hall.

A small auditorium is located in the Student Building.

Book Shop and Post Office

In the eastern end of Ruffner Hall is located the college's book shop and post office operated under the supervision of a full-time member of the College staff. Here new and used textbooks and other supplies may be purchased. Individual mail boxes are provided for the students.

Class Rooms

Class rooms are located on the first floor of Ruffner Hall, the basement floor of the Library, the first and second floors of the West Wing, in Stevens Hall, in Jarman Hall, and in the home economics building.

Dining Room

To the rear of the rotunda in Ruffner Hall is the dining room of the college which is equipped to seat one thousand persons. Each table in the room seats eight students. At each table a student serves as hostess.

The dining facilities of the college are operated by the Slater System, a nation-wide corporation which specializes in college food service management.

Adjoining the dining room are a modern kitchen, bakery, refrigeration room, and storage rooms.

Dormitories

Dormitories are located on the second and third floors of Ruffner Hall, Student Building, and West Wing. Tabb Hall and Cunningham Hall are modern buildings used exclusively for dormitories.

Student life in each of the dormitories is supervised by a director

of residence halls. The care of all dormitory rooms and buildings is under the supervision of the college hostesses.

The dormitories are equipped with adequate lighting and hot and cold water. In the freshman and sophomore dormitories some of the rooms are equipped for two students and others for three. In the junior and senior dormitories all rooms are equipped for two students with connecting baths between each two rooms. Students must provide their bed linen, blankets, towels, soap, and such items as rugs, lamps, and curtains. Each student should bring four single sheets, two single spreads, two pillow cases, blankets, and a supply of towels. Other items for a room are usually selected by students after they arrive on the campus when they can plan with their roommates color schemes and the arrangement of their furnishings.

Home Management House

The Department of Home Economics' home management house is located on Buffalo Street directly across from the campus. In this, senior students specializing in home economics gain practical experience in the management of the modern home.

Infirmary

The infirmary is a two-story building in the rear Tabb Hall and connected with it by an enclosed colonnade. This is a modern structure fully equipped to accommodate all students who normally require medical attention at any one time. It is staffed by the College Physician who is a part-time member of the college staff, a full-time nurse, and two part-time nurses.

Laboratory Schools

The laboratory schools in which students teach are operated jointly by the College and the local public-school authorities. The Elementary School is located on the campus, and the High School only four blocks away. Both schools are large enough, and yet not too large, to provide adequate opportunities for both pupils and student teachers. The buildings are well-equipped with laboratories, libraries, cafeterias, and workrooms. The principals and faculties of both schools are especially well qualified by training and experience for demonstration teaching and supervision of student teaching. The college program and the program of student teaching are co-ordinated through the Department of Education, which is responsible for the administration and coordination of the cooperative efforts of the faculty of the Elementary School, the faculty of the High School, and the special supervisors representing the various subject-matter departments of the College.

Laundry

The college's laundry is housed in a separate building located in the rear of Ruffner Hall. It is equipped with the necessary personnel and machinery to render excellent service. It is ample in capacity to meet the needs of the College.

Library

The Library is located on the corner of High and Pine Streets. It contains approximately 65,000 bound volumes, including books in the Morrison Memorial Collection and those purchased through the Goldman Memorial Fund, the Faye Johnson Memorial Fund, the Mix Memorial Fund, and the Wilson Memorial Fund. It receives twelve daily newspapers and 325 current periodicals.

Special files in the library include a vocational file of more than 4,040 items, a general pamphlet file of 6,718 items, a picture file of over 6,180 pictures, and over 1,037 maps.

Housed also in the library is the regional Bureau of Teaching Materials which contains a large library of films and slides. Here also are numerous types of recording machines, projectors, photographic equipment and other audio-visual equipment which are used by the students of the college and schools in the area of Virginia served by the Bureau.

The library building consists of stack rooms, a reading room, reference room, lecture rooms, projection rooms, and a browsing room. Students have access to all books and periodicals. Librarians assist them in study and research.

Music Building

The music building is a part of Jarman Hall. This contains classrooms, offices, soundproof individual practice rooms and studios, an instrument storage room, and a large band and orchestra rehearsal room. Among the various types of equipment there are twenty pianos; an electronic organ; a Steinway concert grand piano; a Baldwin small grand piano; a four-manual pipe organ; all types of string, reed, brass, and percussion instruments; a library of recordings and music; phonographs; a tape recorder; and a listening room for recorded music.

Recreation Centers

Various recreation centers are located on the campus. Beneath the dining room in Ruffner Hall is a recreation hall where students hold informal dances, play table tennis and shuffleboard, watch television, and meet for various other types of informal gatherings. Located in the hall is the "Snack Bar," a modern soda fountain operated by the Alumnae Association.

In Cunningham Hall are recreation rooms where junior and senior students may gather for informal parties and games. The sophomore recreation room is located in Tabb Hall.

The Longwood Estate, located at the eastern edge of Farmville, is owned and maintained by the college. (See the section of this catalogue describing the history of the college.) Here, in the atmosphere of the Old South, students have teas, banquets, receptions, and weekend parties in the historic home. The estate comprises 103 acres of beautiful, rolling grounds with a nine-hole golf course. In a wooded

section of the place is a natural amphitheatre where May Day festivals are held and a log cabin where students and chaperones may stay overnight.

Science Laboratories

Stevens Hall, located on the western side of the campus, contains lecture rooms and laboratories for biology, chemistry, geology, geography, general science, and physics. A greenhouse is located in the rear for use by the Department of Biology. Modern in every respect this new hall enables the college to offer excellent preparation in science.

The College Museum, which is located in Stevens Hall, contains more than 1,200 minerals, rocks, fossils, plants, and animals.

Most of the geological specimens were gifts from the private collections of D. A. Brodie and H. B. Derr.

Laboratories of the Department of Home Economics are housed in the home economics building located between Ruffner Hall and the Elementary School.

Student Activity Centers

Facilities are made available on the campus for various student activities other than the athletic program described in a preceding section. In the Student Building are located a parlor and cabinet room for the Young Women's Christian Association, a Student Council room, offices for the student publications, and individual rooms for sororities and honor societies.

Tea Room

A tea room, well-known for its delicious food, is operated by the college on the basement floor of Ruffner Hall. Here students, visitors, or faculty members may obtain breakfasts and lunches at reasonable cost.

THE COLLEGE YEAR

The college year consists of a regular session, including two semesters of 18 weeks each, and a summer session of nine weeks. The summer session consists of an eight-week undergraduate term running concurrently with two graduate sessions of three and six weeks each. Students may enter in the summer or at the beginning of either semester of the regular session. However, most students will find that the beginning of the first semester in September is the most convenient time to begin their studies.

Student Personnel Program

ADMISSION REQUIREMENTS

Eligibility for admission. The following students are eligible to apply for admission to the College:

1. Graduates of public and private high schools accredited by the State Department of Education in Virginia or the accepted accrediting agency of any other state. The State Board of Education has ruled that preference be given to Virginia students of academic and personal qualities of a high order who desire to teach.

2. Advanced students transferring from other recognized colleges and universities. Such students are given a fair equivalent in credit for courses they have taken, provided they are entitled to honorable dismissal from other institutions they have attended and that they meet the other admission requirements of the College.

High school credits. No specific number of high school units of credit in any subject is required for admission, provided the student has the necessary credits for graduation from an accredited high school.

Application procedures. In order to apply for admission a student must take the following steps:

1. Submit the preliminary application blank found in the back of this catalogue. This must be accompanied by an application fee of ten dollars. The fee is used as a property deposit for students who are accepted for admission. It is returned to those whose applications are rejected. It is forfeited by those who fail to complete their applications and by those who fail to attend after their applications are accepted. Checks and money orders should be made payable to Longwood College.

2. Fill out and return to the Chairman of the Admissions Committee a detailed application blank that will be sent to her when the College receives the preliminary application blank.

3. Request that the principal of the high school from which she was (or is to be) graduated submit to the College a transcript of her high school record on a form provided by the College. This form is sent directly to the principal by the College after it receives the student's preliminary application. Students who have attended other colleges and universities must likewise request that the registrars of those institutions send complete transcripts of their records.

Applicants who have not attended college previously and who have not taken the scholastic aptitude test administered to all high school students by the State Department of Education in cooperation with the local schools must take such a test. It may be administered by a local

school official of an applicant's choice or by an official of the College. The College will provide all necessary test material.

When the college receives the student's application, application fee, scholastic aptitude test (if any), and the transcripts of her records, its Committee on Admissions examines her qualifications carefully and notifies her as to whether or not her application is accepted. If it is, she and her parents are assured that in the opinion of an impartial committee she is qualified to undertake studies at Longwood College.

GUIDANCE AND COUNSELING

The College recognizes that the giving of information is only one phase of the student's education. It must also assist each student to develop in all areas of her life. It must be prepared to assist her in making plans for the future and in solving problems of the present. It must be interested in her as a person as well as a member of a class group. Therefore, every faculty member has guidance responsibilities involving work with students on a personal basis. A Student Counselor is available to provide counseling in the areas of vocational and personal adjustment for those students who request it.

The work of the Home Department, directed by the Dean of Women, is likewise an integral part of the student personnel program. This department is responsible for student life in the dormitories and for the social activities of the students. It has intimate daily contact with all students and is in a position to assist them at all times with their social adjustment. Its work is coordinated with that of the faculty so that there is continuity and purpose in the personal assistance rendered to students throughout their college careers.

The Student Health Service, directed by the College Physician, cooperates in every way with other activities of the student personnel program. The physical condition of every student is a primary factor in her adjustment while in college and the cooperation of the Health Service, the faculty, and administrative officials, is considered essential.

Each student's contact with the student personnel program begins with the consideration of her qualifications by the Committee on Admissions when she applies for admission. At the time that she is accepted, the College already has a knowledge of her background, achievement, abilities, and interests. Soon after she matriculates at the College, each freshman is assigned an adviser who is likewise her instructor in at least one class. This faculty member is available at all times to give her assistance in making her plans and solving her problems in an intelligent manner. The Student Counselor maintains extensive personnel records on each student.

The College recognizes that many students have not decided definitely on a specific course of study or vocation at the time that they enter as freshmen. Therefore, they are not required to make a choice

at the time that they begin their studies. All freshmen take a general course. The required subjects in this are English, history or geography, a science, and physical education. In addition, they elect courses in other subjects in which they are interested. This gives them an opportunity to "explore" during their freshman year in such a way that they are better prepared to make definite choices as to what they will study beginning with their sophomore year.

The first week of each regular session is known as "Orientation Week" for freshmen and other new students. The administrative officials of the College, in cooperation with the members of the Y.W.C.A. and carefully selected students who serve as orientation leaders, conduct a program of study and activities which acquaints the new students with the customs, traditions, and regulations of the College. This program has proved to be exceedingly valuable to new students as they adjust to the life on the campus. Throughout the country, the College is known for the sincere interest shown by the student body, faculty, and administrative officials in those beginning their study here.

HEALTH SERVICE

The Student Health Service of the College upholds the highest standards of physical and mental health and emphasizes the prevention of illness. An excellent health record has been maintained here because of the close cooperation between the College Physician and other departments that are in a position to assist in the promotion of student health. The Department of Physical Education works in close cooperation with the Service with a view of promoting physical fitness and correcting defects as well as the development of health consciousness.

The Service is staffed by the College Physician who is a part-time member of the College staff, a full-time nurse, and two nurses employed on a part-time basis.

After a student's application for admission has been accepted by the Committee on Admissions, she is required to submit a medical certificate from the family or other physician stating that she is in good health and not handicapped with physical defects that will permanently disqualify her for college work. The College provides a special blank for this purpose.

Soon after a student matriculates, she is given an examination by the College Physician to determine her fitness for the various activities in the physical education program. The results of this examination are given to the Department of Physical Education. Every student is required to take some form of physical exercise.

Periodical examinations are given in order to observe the progress of cases limited in activities by the entrance examinations. Special physical examinations are given to students by the Service when they are requested by the Department of Physical Education.

Students needing medical attention are treated in the modern infirmary maintained by the College. This is well equipped and can accommodate all students who normally require medical attention at any one time. It is housed in a separate building connected with Tabb Hall. Daily sick call is held there at a time which is most convenient to the students.

The infirmary gives a twenty-four hour service with a nurse available at all times. The College Physician is available on call at any hour. The College does not assume responsibility for any medical attention except that given by the College Physician and by the nurses. Consultants, specialists, dental work, operations, hospitalization, private nurses, special prescriptions, X-rays, other laboratory work, etc., are at the expense of the student. The College Physician communicates with the parents immediately in case of serious illness.

The Southside Community Hospital is located only a few blocks from the College in Farmville. It is well equipped and is in the charge of a capable staff of physicians and surgeons. The College Physician is a member of the staff.

Health Regulations

All students are required to abide by the regulations of the Student Health Service. These are summarized below.

1. All medical excuses, whether illness is on or off campus, and whether the student is treated by the College Physician or her private physician, must come from the College Physician.

2. Off-campus students living in their own homes enjoy all the benefits of the Student Health Service except infirmary room service. The College personnel, however, are not entitled to the use of the Service.

3. A student sufficiently ill to be confined to bed is not allowed to remain in a dormitory. She must be in the infirmary where she may have medical attention and the care of the nurses. No excuses are given unless this rule is observed.

4. The director in charge of each dormitory must report any case of illness to the infirmary.

5. Hostesses or the heads of homes in which off-campus students are living are required to report without delay to the infirmary any cases of illness which may occur among the students in their homes.

6. Students at home on account of illness are required to notify the College Physician immediately upon their return to College.

7. Students who have been exposed to any infectious disease must report to the College Physician before attending classes or mingling with other students.

8. Students living in their homes or off-campus students who have been ill with infectious diseases must report to the College Physician before resuming classes.

9. Consulting physicians are called at the request of either the student or her parents or guardian, but in all cases these appointments must be made with the permission of the College Physician.

LIBRARY SERVICE

A library orientation program is required of all freshmen. This program is given by members of the English department in cooperation with the library staff. By means of this program students become familiar with the library building and its functional divisions, with the various book collections, and with general and special reference tools. They learn how to borrow library materials, how to use the Faculty Reserve Collection, and how to locate subject material or specific books. This program is followed by individual and group instruction throughout the entire four years of college.

Library service to alumnae is continued in the form of services locally rendered or services by mail. Loan service to teachers in south-side Virginia is formally organized according to the regional plan put into effect by the State Board of Education. It is the policy of the library to obtain maximum use of its materials in the interest of students, alumnae, teachers, and other friends of the College.

PLACEMENT SERVICE

The College maintains a placement service, directed by the Executive Secretary, for the benefit of its students and alumnae. Notices of vacancies are secured from superintendents, principals, supervisors, other employers, and alumnae. Qualified students and alumnae are notified of these and are placed in contact with the employers.

In order to secure the best possible service, administrative officials should state clearly the character of positions to be filled, and the alumnae needing help should state clearly their needs and promptly make known their acceptance of positions or change in positions.

Student Life

On the Campus

PHASES OF COLLEGE LIFE

The faculty members and administrative officials of the College believe that their primary responsibility is to assist students to be well-adjusted, useful citizens in the state and nation. Therefore, attention is given to all aspects of student life on the campus.

In the section of this catalogue describing the Student Health Service, the College's activities relating to physical life are outlined. Summarized below are other aspects of college life which receive careful attention.

Moral and Religious Life

The moral and religious aspects of education are considered as important as are the physical and intellectual. During the history of the College a tradition of good will, cooperation, and high standards of personal relationship has developed. Such a stabilizing influence cannot be described; it can be appreciated only through living in the atmosphere it engenders. But this intangible influence is experienced by both students and faculty to such a degree that it has become a distinct moral force in the whole College community.

The College is a home in which everyone is expected to do his part and share in a give-and-take relationship with others. Certain modes of life are prized and valued because in a long history they have proved their worth. In such an atmosphere it is difficult for the young student to fail to develop high ideals and a wholesome moral outlook on life.

The Young Women's Christian Association is a strong religious force in the college. It provides training and experience for the officers and others interested in religious work. The Y.W.C.A. conducts daily evening prayer services, urges attendance at church school and church, and fosters a spirit of religious life and service. Under its auspices a Religious Emphasis Week is observed; a series of addresses by some Christian leader is given each year on the fundamental principles of the Christian religion, and noted speakers representing the international point of view address the students on important current movements.

Students are also encouraged to participate in the religious life of the community. They receive a cordial welcome from the ministers of the town to attend their church functions, which include regular Sunday services, prayer meetings, Sunday School classes, and social gatherings. Special leaders, working with students through the medium of student organizations, are provided by many of the churches.

Farmville churches include the Baptist, Episcopal, Lutheran, Methodist, Presbyterian, Roman Catholic, and Wesleyan Methodist. Where

there is no organized church leadership, as in the case of the Christian Scientists, students of the respective faiths usually have contact with local residents having similar church affiliations.

Cultural, Social and Recreational Life

The individual with a well-rounded personality is social in outlook and attitude. She is able to work and to play with other people. The community life on the campus provides many opportunities for every student to participate in various social, recreational, and cultural activities.

Various receptions and parties at the beginning of the college year enable new students to meet the upper classmen, faculty members, and administrative officials. The College Circus, presented each fall by the four classes, provides entertainment and develops a spirit of cooperation and friendliness among the students. The Founders Day celebration, held yearly in March, brings together alumnae, students, and faculty members. The May Day Festival, held at the Longwood Estate on the first Saturday in May, is an outstanding event sponsored by a general committee chosen from the student body.

Numerous dances and productions are presented during the year by the classes and student organizations. Picnics, and hikes are held during the fall and spring months. Intramural and varsity competition in various sports, including archery, basketball, golf, hockey, swimming, softball, tennis, and volleyball provide opportunities for participation on the part of all students.

The College's choir, band, orchestra, Madrigal Singers, and chorus are open to students interested in music. The Longwood Players provides excellent experience for students interested in dramatics. Weekly radio programs are presented on the local broadcasting station by various student groups. The College's weekly newspaper, literary magazine, and yearbook are prepared and edited by students interested in writing and editorial work.

A weekly assembly is attended by all students. Distinguished speakers and other programs of interest are presented. Artist Series programs featuring outstanding lectures and various artists of the entertainment world are presented at intervals during the year. Among the outstanding speakers, artists, and programs presented on the Longwood campus during the 1956-57 session were the following:

Dance-Drama Company
Gene Lockhart, Dramatic Readings
Budapest String Quartet
Longwood Players, "The Skin of Our Teeth"
Barter Theatre, "The Rainmaker"
John H. Colburn, Managing Editor of Richmond Times-Dispatch
Edward Sinnot, Dean, Graduate School, Yale University

The Rounda

Institute of Southern Culture

The Institute of Southern Culture was established at Longwood College in 1956 to promote the study of traditional aspects of Southern civilization through academic course work, special lectures, and through the publication of research in the field. The Institute is currently sponsoring two series of lectures in the spring and summer by visiting scholars and members of the faculty. Course work in several departments of the college also provides a means for the exchange of ideas about various aspects of Southern life.

Academic and Professional Life

The academic and professional life of the College constitutes the main emphasis to which all other activities are secondary and contributory. It centers around the courses of instruction offered in the various departments of the College. Some courses are primarily cultural, liberal, and broadening in outlook. Others are primarily professional and are designed to prepare students definitely for teaching in the elementary and secondary schools of the State or for other vocations. In still others academic scholarship and the professional spirit are very closely combined.

The spirit of the class work is free and natural. The members of the faculty and the students work together as members of a large family in which every one is expected to do his part. Through such a spirit of fellowship and good-will are developed initiative, cooperation, responsibility, self-control, and other intangible qualities of personality and character.

SOCIAL REGULATIONS

The College is a community, the residents of which are the students, faculty members, and administrative officials. These persons work together to maintain high standards of conduct and, like all other communities, have developed regulations by which social life of the student body is governed.

Students are expected to conduct themselves as ladies and gentlemen while on the campus, in the community, and at other colleges. They must keep in mind at all times that they are representatives of the College wherever they are and that their conduct brings credit or discredit to the College as well as to themselves. Any questionable conduct will be dealt with at the discretion of the Student Government Association.

Boarding students are not permitted to keep cars on the campus nor in Farmville during the College session. Seniors may have cars at the College during the commencement period which is exactly one month preceding the date of graduation.

Complete information regarding all social regulations is given in the *Student Handbook* sent to every student during the summer preceding the opening of the new session.

ORGANIZATIONS

Numerous student groups on the campus assure a well-rounded program of activity for each student as well as the opportunity for student participation in the affairs of the College.

Student Government Association

All students of the College are members of the Student Government Association which is directed by a Student Council composed of officers and members elected by the student body. This group manages the affairs of the students in cooperation with the administrative officials of the College. Regulations governing the conduct of students both on and off the campus are enacted and enforced by them.

The underlying principles of conduct and relationship of the students, faculty members and administrative officials are embodied in the honor system, a cherished tradition of the College. The way of life on the campus is based on the Honor Code.

The Honor Code

A high sense of honor, in all his relationships and activities, should be one of a person's most cherished possessions. It is the one essential that enables a person to respect himself, and to merit the respect of others. It is the one thing that makes it possible for a group of people to live together with perfect confidence. Such an effective honor system is one of the oldest and highest traditions of Longwood College.

Upon entrance here a student is assumed to be a person of absolute honor until he proves himself otherwise. This means absolute honor in all academic work, financial and property matters, and personal relationships, whether supervised or not. It cannot be over-emphasized that this places upon each individual student the obligation of constant vigilance to maintain absolutely honorable conduct.

The Honor Code requires a student to remain not only honorable in his own conduct but also to report all infractions of the honor system he observes. This latter is in many respects the most difficult phase of the system. The measure of a student's love of the system and of his College, nevertheless, is the extent to which he is willing to shoulder this burden.

When a possible infraction of the honor system is reported to the Student Council, a careful and secret trial is conducted. The accused will be given every opportunity of proving his innocence. If the verdict is innocent, the minutes of the trial will be destroyed, but if the verdict is guilty the decision will be announced to the student body.

House Council

The House Council of the College is composed of four officers elected by the student body and of the students who are appointed presidents of the various halls in the dormitories by the President of the Council. It is the responsibility of this group to set up and enforce the regulations governing student life in the dormitories.

Young Women's Christian Association

The Y.W.C.A. in the College is a branch of the national Y.W.C.A. The administrative direction is in the hands of the students, assisted by an advisory committee of the faculty. It promotes a number of religious activities. Religious leaders are brought to the campus by the Association to discuss with students questions of religious interest and to help individuals with personal religious problems. Vesper services are held each evening in one of the nearby churches. The organization through its committees welcomes new students individually and sponsors a reception to freshmen early in the fall. It likewise provides informal entertainment for other groups of students from time to time during the year.

Athletic Association

All students are members of the Athletic Association. The Athletic Council, consisting of students and a faculty adviser, has control of both intramural and inter-collegiate sports and contests, and attends to all the business of the organization. Contests are held in tennis, basketball, softball, hockey, volleyball, golf, archery, and swimming. The nine-hole course at Longwood gives students an opportunity to play golf. In collegiate sports, teams are maintained in tennis, basketball, hockey, and swimming.

Honor Societies

There are a number of honor societies designed to recognize excellence in various fields. *Alpha Kappa Gamma*, a national honor society for leadership, was organized in 1928 with the Longwood chapter as one of its charter members. *Kappa Delta Pi* is a national honor society for students interested in the activities of the teaching profession. Its membership is limited to juniors and seniors whose scholastic records place them in the upper fifth of the student body. Organized in 1918 as a local honor society, it affiliated with the national group ten years later. Outstanding students in English are invited to join *Beorc Eh Thorn*, a local society, and students with good records in history and social sciences are admitted to *Pi Gamma Mu*, a national honorary social science society. *Alpha Psi Omega*, a national dramatic organization, recognizes outstanding dramatic achievement. Editors, business managers, and others in key positions on any of the student publications are eligible for membership in *Pi Delta Epsilon*, a national honorary journalism fraternity. The local chapter was organized in 1950. The *Monogram Club* recognizes leadership and participation in sports; its membership is limited to twenty-five.

Other Student Organizations

Longwood has many organizations intended to bring together students with common interests. Among the regional clubs for students from the same area are the *Eastern Shore Club*, the *Northern Neck Club*, the *Richmond Club*, the *Southwest Virginia Club*, and the *Chalameck Tri-County Club*. A unique organization is the *Grand-*

daughters Club, composed of students whose mothers or grandmothers attended the college. Other student clubs include:

The Association for Childhood Education is a national organization composed of nursery school, kindergarten, and primary teachers and others who are interested in the education of young children. Students who teach in the elementary school are eligible for membership.

Le Cercle Francais and *El Club Espanol* are clubs to which all modern language students are eligible. The programs of the regular monthly meetings, which are given in the foreign languages, consist of songs, skits, games, current events, and short talks on cultural subjects.

The Future Business Leaders of America is a national organization of prospective business teachers and leaders in the field. Participation in this organization will be of great help to Longwood students who teach business subjects and who serve as advisors to this or to similar types of co-curricular activities.

The Future Teachers of America is a national organization of prospective teachers enrolled in colleges and universities, and in high schools. The local organizations are called F.T.A. clubs in the high schools and chapters in the colleges and universities. The F.T.A. chapters are affiliated with the local, state and national education associations. They serve as training schools for the improvement of professional relationships. The J. L. Jarman Chapter was organized in November, 1939, and received its charter from the National Education Association in 1940.

The Home Economics Club strives to develop a better understanding of home economics and its contribution to personal and family living. Membership is open to all girls enrolled in home economics courses. The club is affiliated with the state and national Home Economics Association.

The H.O Club is an honorary swimming club. The members are chosen from the student body because of their ability and participation in swimming. Student members must pass the Red Cross Senior Life Saving Test to be eligible for membership. The annual water pageant, the Intercollegiate Telegraphic Swimming Meet, and recreational swimming are sponsored by this group.

The Longwood Library League includes in its membership students who are on the college library staff and students who are in training as future librarians. These Tri-L members meet together for the purpose of integrating and developing their common interests in books and libraries.

The Longwood Players is a group open to all students interested in dramatics. Any student may register for an apprentice period of one semester. At the end of this time the students who have shown an active interest in any phase of the drama will be elected to full membership. The club aims to provide the best in dramatic entertainment for the college students and the people of the community. Two three-

act plays are presented each session. Twice during the school year the Players presents a series of one-act plays, and at least one speech assembly is presented to the student body. For the past few years the club has sponsored a trip to New York for the primary purpose of attending the Broadway shows. Anyone in the student body is eligible to take this trip. If the student works with the club's competent director and the other club members, she will find the Longwood Players an organization worthy of her time and effort.

The *music organizations* of the College are the College Choir, Madrigal Singers, Choral Club, band, and orchestra. These are important factors in the life of the College. They select their members through try-outs at the beginning of the session and give several concerts each year.

Orchesis is an honorary dance group whose purpose is to foster creative interest in dance among students in the College, and to further and widen that interest through contacts with other college groups. Students are chosen as apprentices and qualify for membership by participating in two major dance events of the college year.

In addition to these organizations eight national sororities have chapters on the campus. They are Alpha Sigma Alpha, Alpha Sigma Tau, Delta Zeta, Kappa Delta, Pi Kappa Sigma, Sigma Sigma Sigma, Theta Sigma Upsilon, and Zeta Tau Alpha. Another social organization is the Cotillion Club, which sponsors a major dance each spring.

PUBLICATIONS

The students of the College sponsor four publications: *The Rotunda*, *The Colonnade*, *The Virginian*, and the *Student Handbook*.

The Rotunda is a weekly newspaper which keeps the students and faculty informed of the College news and the interests of the College as observed from the point of view of the students. It not only expresses the attitude of the students towards various phases of College life and current activities but also exerts an important influence in the development of the ideals of the community.

The Colonnade is a literary magazine to which students contribute essays, poetry, short stories, and other writings. It sponsors contests, from time to time, to stimulate literary effort.

The Virginian is the yearbook of the College. Students are responsible for the art work, the editing, and the management of the publication. Each issue represents a cross section of the College life for the year. It is, therefore, highly valued by the members of the graduating class.

The *Student Handbook* is the manual of rules and regulations governing the conduct of the students. In addition, it contains the constitutions and by-laws of the Student Government Association, the Young Women's Christian Association, and the Athletic Association, briefer descriptions of other organizations, and a description of the customs and traditions of the College. It serves as the orientation textbook for all new students.

Financial Information

EXPENSES

The cost of attending the College is quite moderate. Outlined below are the charges made to both boarding and day students.

VIRGINIA STUDENTS

Boarding Students:

*College fees (including laboratory fees)	\$235.00
Student activity fee	20.00
*Room, board and laundry	380.00
<i>Total charge for Virginia students</i>	<i>\$635.00</i>

Day Students:

*College fees (including laboratory fees)	\$235.00
Student activity fee	20.00
Service fee	12.00
<i>Total charge for Virginia day students</i>	<i>\$267.00</i>

NON-VIRGINIA STUDENTS

Same fees as for Virginia students plus tuition fee .. \$130.00

Special Students

Virginia students taking one course per semester are charged \$26.25. For two courses the charge will be \$52.50. Out-of-state students will be charged an additional fee of \$12.50 per course. All students taking three or more courses will be charged full rates.

Graduate Students

The charge for regularly enrolled graduate students carrying approximately a full load is at the rate of \$8.50 per semester hour credit. For students taking graduate courses at the College as evening and Saturday morning classes, the charge is at the rate of \$10.00 per semester hour credit. For non-Virginia students, the out-of-state tuition fee of \$130.00 will be paid on a prorated basis. Graduate students registering for thesis work will pay a fee of \$45.00. This amount is to be paid only once.

*Because of the uncertain conditions prevailing with respect to the cost of operating the institution, the College reserves the right to change its rates at any time throughout the year to meet such additional costs.

Student Teaching

Any student taking student teaching will be classed as a full-time student and will be charged full rates.

Auditor's Fee

A charge of \$3.00 per week or \$15.00 per semester is made for the privilege of auditing a course.

Music Fees

For individual lessons in music: voice, piano, violin, organ, or other orchestral instruments, the fees will be as follows:

	Practice 1 hour	Total
Fee per day		
2 lessons per week per semester	\$50.00	\$55.00
1 lesson per week per semester.....	25.00	30.00
Class of two, per semester.....	25.00	30.00
Class of four, per semester.....	12.50	17.50
Class of eight, per semester.....	10.00	10.00

Students may rent band and orchestral instruments from the college. The rental fee is \$5.00 per semester. Students must furnish reeds and strings as needed. Practice rooms are available at a rental of \$5.00 per semester, 1 hour each day.

Application Fee

All students applying for admission must submit an application fee of ten dollars. This is returned to those whose applications are rejected. It is forfeited by those who fail to attend after their applications are accepted or who cancel their applications prior to action by the Committee on Admissions. It is utilized as a deposit to the account of each student who is accepted and attends the College. Charges are made against it for any damage caused by a student to college property. The unused portion is refunded after graduation from the College or upon leaving college. (Note: This fee will be refunded to students whose applications are accepted but who cancel them prior to May 1.)

On or before July 15 of each year an additional payment of \$40.00 must be made in order to reserve a room in the dormitories. This is necessitated by the increased demand for accommodations. This deposit is to be made by both new and former students and will not be refunded. The deposit will be credited on the amount to be paid by the student at the beginning of the session in September.

Gymnasium Suits

All freshmen, and all transfer students who do not have credit for courses in physical education, must purchase an official gymnasium outfit consisting of two suits. The charge for these is \$14.00. Order blanks are sent to students after they have been accepted for admission.

Diploma Fee

A fee of \$2.50 will be charged for a secretarial diploma and a fee of \$5.00 will be charged for a Bachelor's or Master's diploma.

Post Office Fee

Each student is required to pay a fee of \$1.00 per session for the use of a post office box. This fee is payable directly to the College Post Office, located on the ground floor of Ruffner Hall.

Special Examination Fee

A charge of \$5.00 is made for each deferred examination and for the one re-examination permitted each senior.

Method of Payments

All fees for the semester are paid before entering classes. Board is payable by the semester in advance. For those who find it necessary, approval may be obtained to pay board and college fees in four installments of \$158.75 each, payable in advance. Students are not allowed to register for any semester at the College until all previously incurred college expenses have been paid or adequately secured. No credit for college work may be given to any student for a diploma, a teacher's certificate or for transfer purposes until all financial obligations to the College, other than student loans have been paid.

Refunds

The following charges and refunds will be made to students withdrawing from college:

Fees. A student withdrawing from the college within ten days after registering will have refunded all fees paid less \$65.00. This amount not refunded includes \$15.00 for registration, \$10.00 application fee, and \$40.00 room rent. A student withdrawing from the college after the first ten days, but before the middle of the semester, will have refunded all fees paid less \$85.00. This amount not refunded includes \$15.00 for registration, \$10.00 student activity fee, \$10.00 application fee, \$40.00 room rent, and \$10.00 general expense. In addition to these charges, out-of-state students will pay full tuition for the semester.

After the middle of the semester there will be no refund of fees, out-of state tuition, or room rent made to a student withdrawing from the college.

Exceptions. Refunds will be made at the discretion of the President of the College to students whose connection with the college terminates on account of personal illness, certified by the College Physician, unavoidable emergency, or whose connection with the College

terminates on account of disciplinary action or enforced withdrawal.

Board and laundry. Charges for table board and laundry will be prorated for the actual time in residence.

Guests

Students entertaining guests in the College dining hall are charged the following rates: Breakfast, 50c; lunch 60c; dinner, 75c.

Former students of the College are always welcome, and are not charged for meals or accommodations for a period not exceeding two days, with the exception of two week ends. On the week ends of the College Circus and May Day guests, including alumnae, are charged for meals at the rate stated above. Alumnae who visit the College for a period exceeding two days may secure meals and room accommodations at the rate of \$4.00 a day. The Dean of Women must be notified in advance of a contemplated overnight visit to the College by former students. All available space in our dormitories has been used to room students.

Students are not permitted to invite guests for week end visits unless the invitation is approved by the Dean of Women. Meals for guests, other than alumnae, are charged at the rate stated above. Meal tickets may be secured from the Business Office or the Home office.

Campus Bank

The College maintains a Campus Bank in the Treasurer's Office. Students should deposit spending money in the Student Deposit Account and withdraw it as needed.

FINANCIAL ASSISTANCE

The College offers three types of financial assistance to students in need of such aid: part-time employment, scholarships, and loans.

Part-time Employment

A limited number of part-time positions are available each year in the dining room, library, and offices of the College. New students employed in the dining room earn \$250.00 per session. Sophomores, juniors, and seniors may earn \$325.00 per session. Those employed in clerical and library positions may earn from \$100.00 to \$150.00 per session. Application for part-time position should be made to the Executive Secretary before May 1. Early application is advised.

Scholarships

Alumnae Scholarships. The following Alumnae chapters give scholarships to outstanding graduates of high schools in their respective communities: Farmville (Mary White Cox Memorial Scholarship),

Lynchburg, Norfolk, Peninsula (J. L. Jarman Scholarship), Richmond, and Roanoke.

Dabney Stewart Lancaster Scholarship. Established in 1955 by the Student Government Association. This scholarship is awarded annually to a member of the sophomore, junior or senior class. The name of the winner of the award is announced at Senior Assembly in May.

Eureka Ashburn Oliver Scholarship. The Mrs. Samuel C. Oliver (Eureka Ashburn, 1891-93) scholarship of \$100 each year for four years awarded to lineal descendants. If there should be no lineal descendant, then the scholarship is to be given to students of outstanding ability who need financial assistance from Nansemond County, selected at the discretion of the Admissions Committee of the College. When there are no applicants, the funds shall accumulate until there are applicants from her lineal descendants or from Nansemond County.

Earl G. Swem Scholarship in Library Science. This scholarship, worth \$50.00, is awarded annually to a freshman who intends to major in library science. (A recipient who changes her curriculum later and does not major in library science must repay the money.) Any freshman student who has been accepted for admission to the College may apply for this grant. Letters of application, describing the applicants' interest in library science and stating their need for this assistance, should be sent to the Librarian, Longwood College, Farmville, Virginia, before June 1 of any year. The selection of the recipient will be based on financial need and academic ability.

Leola Wheeler Scholarship. Established by the Longwood Players in memory of a former professor of speech and drama. The scholarship will be awarded annually in the spring to a student majoring in English who has demonstrated particular interest and ability in the field of speech and drama. The stipend will be at least \$200.00, and the scholarship is renewable.

Lions Club Scholarships. The Farmville Lions Club offers annually two scholarships of \$150.00 each to be awarded to a boy and a girl from Prince Edward County or vicinity. The main factor in choosing between acceptable applicants shall be financial need. All other factors being equal, preference shall be given to applicants for Hampden-Sydney College and Longwood College. The scholarships are renewable.

Longwood Scholarships for Freshmen. In 1952, the General Assembly of Virginia enacted legislation permitting state colleges to utilize a part of their state student loan funds as scholarships for freshmen and sophomores of outstanding ability who need financial assistance in order to attend college. On the basis of this authorization, Longwood College will award each year a limited number of scholarships to freshmen, each worth from \$300 to \$500 for the year. A few others may

be awarded to sophomores whose academic records in their freshmen year are outstanding.

A student may apply for a Longwood Scholarship during her senior year in high school. Each applicant must meet the following requirements:

1. Rank academically in the highest fourth of the senior class in high school.
2. Earn an above-average score on the test of scholastic aptitude now administered to all Virginia high school students or an above-average score on a similar test, according to national norms.
3. Be enrolled in, or a graduate of, a Virginia high school.
4. Present evidence of need for financial assistance in order to attend college.

These scholarships are outright grants of funds, not repayable by the students receiving them. Students to whom they are awarded are permitted to enroll in any program of study offered by the College.

Students who wish to apply for this assistance should write to the Dean of the College, describing their accomplishments and activities in high school, indicating the program of study they should like to undertake in college, and stating their need for financial assistance. Such letters must be submitted *prior to April 1 of each year*. Each applicant must have three persons, one of whom shall be the principal of the high school in which she is enrolled or from which she was graduated, send letters of recommendation to the Dean of the College.

Awards will be announced not later than June 1 of each year. The number of awards made will be dependent upon the amount of funds available and the qualifications and needs of students applying. Winners of scholarships will receive one-half of the grant at the beginning of each of the two semesters in the college year. Renewal of the scholarship for a second year will depend upon the student's need, her academic record in the first year, and the amount of funds available. However, only a few of the grants can be renewed for a second year.

Scholarships for Prospective Teachers. The General Assembly of Virginia has provided a number of scholarships for students in Virginia colleges who are residents of the State and who are enrolled in approved courses of study preparing them to be teachers in the public elementary and secondary schools. These scholarships are valued at \$350.00 per year. They are open to qualified sophomores, juniors, and seniors. Freshmen who have superior academic records in high school, who earn superior scores on a standard scholastic aptitude test, and who appear to be personally qualified for careers in teaching, are likewise eligible. For each year that the student receives a scholarship, she must agree to teach in Virginia's public schools one year, thereby cancelling the indebtedness and interest. If she does not teach, she must repay the amount received plus interest.

All scholarship applications must be endorsed by the college and sent to the State Department of Education, Richmond, prior to July 1.

Loan Funds

Unless it is otherwise noted in the description of the funds listed below, applications for loans should be made to the Dean of the College. Except in cases where a different rate is indicated, all loans bear three per cent interest. Loan funds are used to aid worthy students.

Alpha Kappa Gamma Loan. This loan of \$100.00 is awarded annually in memory of Edith Stevens, Associate Professor of Biology at Longwood College from 1925 to 1945. Interest at 2 per cent begins on the date of graduation or upon leaving college.

Alpha Phi Sigma Loan Fund. Established in 1931 by Alpha Phi Sigma Society.

Alpha Sigma Alpha Loan Fund. Established by the Alpha Sigma Alpha Sorority March 6, 1937.

Alpha Sigma Tau Loan Fund. Established by the Alpha Sigma Tau Sorority in March, 1942.

Carrie Fowles Memorial Loan Fund. Established in 1945 by the will of Mrs. Lula Bradshaw Turpin in memory of Carrie Fowles, who was a student at the College in 1899.

Cunningham Memorial Loan Fund. The alumnae of the College who were graduated during the administration of Dr. John A. Cunningham, from 1886 to 1896, raised a fund, intending to establish a scholarship in memory of his faithful and loving service to them and to the State, feeling that the most fitting tribute that could be paid him would be the effort to give to those who are unable to obtain it for themselves the training for the work to which he devoted his life. When this fund amounted to \$1,000 it was changed from a scholarship to a loan fund.

Daughters of the American Revolution Loan Fund. The Daughters of the American Revolution have established a student loan fund for the aid of worthy students in Virginia colleges. Not more than \$300 is available for any one institution, and no student may borrow more than \$300 or more than \$150 in one session. This loan is available only to juniors and seniors.

Daughters of the American Revolution Loan Fund. Thomas Nelson Chapter, Arlington, Virginia. A revolving loan fund of \$100, without interest, has been made available by the Chapter. Preference will be given to applicants from the Arlington area of Virginia.

Fay Byrd Johnson Memorial Loan Fund. Established in 1930 by the Mu Omega Sorority.

Gamma Theta Alumnae Loan Fund. In 1949 the Gamma Theta local sorority (1911-1949) became the reactivated Alpha chapter of

the Kappa Delta national sorority. The two Gamma Theta loan funds are being continued as the Gamma Theta Alumnae Loan Fund in memory of the local sorority.

Jennie Masters Tabb Memorial Fund. The alumnae and friends of Jennie Masters Tabb, Registrar of the College and secretary to the President from 1904-1934, established in 1945 a loan fund in her memory.

J. L. Jarman Loan Fund. The Norfolk Chapter of the Alumnae Association established in 1942 a loan fund in honor of Dr. J. L. Jarman.

Junior Woman's Club Loan Fund. The fund was established by the Farmville Junior Woman's Club in 1938. It is to be used to assist local students.

Longwood Players Loan Fund. Established by the Dramatic Club, March, 1940.

Mary White Cox Memorial Loan Fund. Established in 1945 as a memorial to Miss Mary White Cox by a gift from an alumna of the College.

Prince Edward Chapter Alumnae Loan Fund. This fund was started as a branch of the Virginia Normal League. For years many Prince Edward County girls received assistance from this fund without interest. Loans are made now at a small rate of interest. Applications for loans should be made to Mrs. W. J. Sydnor, Farmville, Virginia.

Robert Frazer Memorial (The Virginia Normal League) Loan Fund. The Virginia Normal League, organized by Dr. Robert Frazer in 1899 as a means of establishing a student loan fund, has been changed in name to the Robert Frazer Memorial Loan Fund.

State Student Loan Fund. The College has a loan fund, appropriated by the State, for assistance to students. Not more than \$300 per session is granted for any one student.

Tri-Sigma Loan Fund. Established by Sigma Sigma Sigma Sorority, at the Golden Anniversary of the College in March, 1934.

United Daughters of the Confederacy Loan Fund. The Virginia Division of the United Daughters of the Confederacy has established the Kate Noland Garnett Loan Fund. This loan amounts to \$150 and is granted to a sophomore, junior, or senior who is a lineal descendant of a Confederate soldier. Other scholarships or loans may be available. Applications should be made to Mrs. James B. Morgan, Chairman, Committee on Education, Virginia Division, United Daughters of the Confederacy, 330 Robin Hood Road, Roanoke, Virginia.

Zeta Tau Alpha Loan Fund. Zeta Tau Alpha, which was founded at the College in 1898, has established a student loan fund honoring the memory of one of its founders, Maud Jones Horner. The fund is used to aid deserving seniors. Loans are interest free.

Academic Regulations

Summarized in this section are important regulations related to academic work in the College. Students should be familiar with these as they undertake their studies in this institution.

COURSE NUMBERS

The courses listed in this catalogue that are numbered between 100 and 199 are designed primarily for first-year students; those between 200 and 299 are for second-year students; those between 300 and 399 are for third-year students; and those between 400 and 500 are for fourth-year students. Undergraduate Honor Courses are numbered 500. Courses numbered from 501 to 599 are for graduate students and advanced undergraduates. Numbers from 601 to 699 are for graduate students only and 600 courses are graduate thesis courses.

At least 44 of the 126 credits required for graduation must be in courses with numbers of 300 or above.

CREDITS

The College is organized on the semester plan. The credit hour, abbreviated as "credit," is the semester hour. For example, a class meeting three fifty-minute periods a week for one semester gives three credits.

STUDENT LOAD

The average schedule of a student during a semester includes classes giving from fifteen to seventeen credits. Boarding and regular students are required to carry a load of work giving a minimum of twelve credits. Students who wish to carry a load giving more than seventeen credits must obtain special permission. Such permission is granted rarely to a student whose academic average for the preceding semester is less than "B."

COURSE CHANGES

All changes made by students in their class schedules must be approved by the Assistant Dean.

No student is permitted to enroll in a course for credit later than two weeks after classes begin in any semester. The exact date will be announced at the beginning of each semester. Any student who withdraws from or "drops" a course after four weeks from the date that classes begin in any semester will receive a grade of "F" in the course unless the withdrawal is due to advice of the College Physician or the student withdraws from college.

No credit is allowed for any course taken for which the student has not registered and which is not listed on the approved schedule card filed in the Registrar's office.

ADJUSTMENTS IN CURRICULUM REQUIREMENTS

The College recognizes that the prior achievement of the students whom it admits varies greatly in the subject matter fields. For example, some are much more proficient in a subject such as English grammar than are others. As a result, any requirement that all students must enroll in identical basic courses in the freshman or later years usually results in heterogeneous classes in which the well-prepared student is not challenged or the student with the usual preparation is confronted with exceedingly difficult tasks.

Because of these differences in prior achievement, the College offers every student an opportunity to demonstrate his achievement in a required subject prior to enrolling in it. This may be done by the use of an oral or written examination, or a conference, at the discretion of the faculty member involved. At times, this evaluation may be made after the student has been enrolled in a course for one semester. Unusual proficiency demonstrated in the first semester of a two-semester course may indicate that the student should not continue in the same course but enroll in one of a more advanced nature.

In any case wherein the student is found to have a satisfactory knowledge of a subject prior to enrolling in it, or after completing a part of his study in it, the chairman of the department in which the subject is taught will notify the Registrar. In such a notification, he will state that the student is excused from taking the subject and will indicate the subject or course that may be taken in its stead. This may be an advanced course in the same subject or an elective course in any field to be selected by the student.

As the above indicates, the student is not granted college credit for prior achievement. However, recognition of such achievement enables him to plan a program of study that is challenging and in accord with his needs.

CLASS ATTENDANCE

Students are required to attend the classes in which they are enrolled. Absences are permitted if the student is ill, if there is an emergency in the student's family, or under the following conditions:

1. A student whose name appears on the Dean's List for the preceding semester is entitled to be absent from classes on any day that he can use his time in ways that seem to him more profitable.
2. A student with a "B" average for the preceding semester is entitled to three absences from each class during a semester.
3. A student with a "C" average for the preceding semester and who received no grade of "F" is entitled to two absences from each class during a semester. (Freshmen and transfer students are assumed to have averages of "C" during the first semester of their enrollment.)

4. A student with less than a "C" average for the preceding semester is entitled to one absence from any class during the semester.

Full information regarding class attendance and absences is given in the *Student Handbook* sent to every student during the summer months.

GRADES

The achievement of a student in a course is indicated by the grade that she receives. The significance of these marks is indicated below:

A: Superior or excellent college work

B: Above average college work

C: Average college work

D: Below average but passing college work

F: Failure

I: This grade indicates that because of illness or for other good reasons the work of the semester has not been completed. When this work has been completed acceptably, a final grade will be reported. A grade of "I" will become "WP" or "WF" unless removed within one year.

WP: This symbol indicates that a student withdrew from a course but was passing the work at the time that she withdrew. It is used in cases of students dropping courses after the four-week period at the beginning of a semester and those who withdraw from the College prior to the end of a semester.

WF: This symbol indicates that a student withdrew from a course and was failing the work in it at the time that she withdrew. It is used in cases of students dropping courses after the four-week period at the beginning of a semester and those who withdraw from the College prior to the end of a semester.

The lowest passing grade is "D." However, for a degree or a certificate a student must earn a general average of "C" (a quality point average of 1.00) on all of her college work. She must have also a general average of "C" in those courses constituting her major subjects or field. At times, it is necessary for a student to repeat certain courses or enroll in additional courses in order to raise her averages to these requirements.

At the end of the first half of each semester of the regular session, mid-semester grade estimates are issued to the students and their parents or guardians. These are not official grades. Instead, they represent

the instructors' estimates of the students' progress up to that point. At the end of each semester, reports are issued to students and their parents or guardians showing their final grade in each course in which they are enrolled.

QUALITY CREDITS

The quality of work completed by a student is recognized by the assignment of points to various grades. She receives three quality points for each credit with a grade of "A," two points for each credit of "B," and one point for each credit of "C." No points are given for grades below "C." Thus, a student who receives a grade of "A" in a course giving three credits receives nine quality points. A grade of "B" would enable her to receive six points and a grade of "C" three points in a three-credit course.

On the basis of this point system, a student's quality point average may be computed by dividing the number of quality points that she has earned by the total number of credits assigned to the courses in which she has been enrolled.

SCHOLASTIC ACHIEVEMENT NECESSARY TO REMAIN IN COLLEGE

Academic probation is a state of warning and indicates that the student's academic work is not satisfactory. If the average of a student is not satisfactory during the first semester, she will be placed on academic probation for the second semester.

Students will be placed on probation if their averages fall below the following: freshmen, 0.50; sophomores, 0.78; juniors, 0.90. In order to be eligible to return for another session, a student must attain the academic average for her classification.

PREREQUISITES FOR STUDENT TEACHING

All students enrolled in curricula leading to degrees in education undertake supervised teaching in the public schools of Farmville or nearby communities. Each student is assigned to work with a regular teacher who is qualified to give the needed assistance and direction to the student's experience.

Students may enroll in Education 300 or Education 400 during their junior or senior years provided they meet the following requirements:

1. They must have completed at least twelve semester hours of professional courses, including Educational Psychology and Education 351, 352.
2. They must have completed at least twelve semester hours in appropriate courses within the subject matter fields in which they plan to undertake their supervised teaching.
3. They must have a cumulative academic average of at least "C" on all work completed at Longwood College. Those planning

to do supervised teaching in the high school must have also an average of at least "C" in the subject matter field in which they will teach.

The student engaged in supervised teaching may carry a total load of work not exceeding 17 semester hours, including the credit to be earned in teaching, during the semester or semesters in which supervised teaching is done.

ACADEMIC HONORS

The College recognizes superior scholarship through its Dean's List and the announcement of an honor list at each commencement.

The Dean's List is published at the end of each semester. Students whose names appear on it are those who have earned an academic average of B+ (a quality point average of 2.50 or above) on the work taken in the semester with no grade below "C." Special privileges are granted these students. (See the section on "Class Attendance.") A student's name may be removed from the list at the middle of the semester if her mid-semester grade estimates do not meet the required standard.

Those students whose general averages for four years of study are above B+ (a quality point average of 2.35 or above) are graduated "With Honor."

EXAMINATIONS

Written examinations are given during a designated period at the end of each semester and summer session to every student enrolled in each course in the College. These are each three hours in length.

Deferred examinations for the first semester must be taken within thirty days after the beginning of the second semester. Those deferred from the second semester must be taken during the summer session or during the last two days preceding the date set for the return of upper-classmen to the College in September. Those deferred from the summer session must be removed during the same two days. (See page 40 for fees).

Re-examinations are not permitted for freshmen, sophomores, or juniors. A senior student is permitted *one* re-examination during her senior year. This may be in either the first or second semester. If it is the first, she is not entitled to another in the second semester.

REPETITION OF COURSES

Courses failed in this college must be repeated here if credit is to be obtained for them in this institution. In other words, a student cannot obtain credit for a course failed here by repeating it and earning a passing grade on it at another institution.

Students may repeat courses in which they have passing grades in an effort to raise such grades. However, when this is done the grade earned when the course is repeated will be the one utilized by the Col-

lege in computing the student's average or evaluating her record for the purposes of graduation, even if the grade is lower than the one received when the student enrolled in the course for the first time.

All grades earned by a student are recorded on her record in the office of the Registrar. Thus, when a grade of "F" is raised to a higher grade by the repetition of a course, a line is drawn through the "F" and the new grade is recorded by it, indicating that the "F" has been removed and that the student has demonstrated greater achievement in the subject.

TRANSFER OF CREDITS

The College accepts, on transfer, credits of acceptable grade earned in other accredited colleges and universities provided such credits may be applied toward the requirements for a degree in this institution. Credits of a grade quality of below "C" are not accepted on transfer unless there is definite evidence that the student has attained a greater mastery of the subject than the grade indicates.

The scholastic indexes of transfer students are computed twice. One index includes only the work taken at Longwood College; the other includes all work taken at Longwood College and elsewhere (including D's and F's which are not transferable). The lower of the two is considered the official scholastic index for purposes of the award of academic honors and election to honor societies. This regulation applies also to regularly enrolled students who may take extension, correspondence, or summer session work in another institution.

Not more than fourteen semester hours of correspondence course credit and not more than thirty semester hours of extension class and correspondence study combined may be credited toward a degree. The College does not accept, on transfer, credits earned through correspondence courses in the natural and physical sciences and certain other subjects. Students must obtain approval to include in their degree program correspondence and extension courses prior to enrolling in them. Otherwise, the College can assume no responsibility for accepting such credits on transfer.

The College cannot grant a student permission to enroll in a correspondence or extension course until after the student has attended this institution for at least one full summer session or a semester of the regular session.

When a student is enrolled in the College and enrolls also in a correspondence or extension course, the credit to be earned in the course will be counted in the total load of work that she is permitted to take.

GRADUATION REQUIREMENTS

The College awards the bachelor's degree to a student who has fulfilled the following requirements:

1. Completion of all study required in one of the nine curricula offered by the College.

2. Completion of a course of study giving a minimum of 126 semester hours of credit with a minimum general average of "C" (or 1.00 quality points) in all work taken and a minimum general average of "C" in courses taken in the major subject or field.

3. Attendance as a student for at least one session consisting of two semesters, including the last term immediately preceding graduation. (Two consecutive summer sessions may be substituted for one semester).

4. Approval of the individual by the general faculty as a worthy candidate for graduation.

CHANGES IN REQUIREMENTS

Progressive development in the College forces frequent revision of curricula. In every new catalogue some improvements are indicated. When no hardship is imposed on the student because of changes, and when the facilities of the College permit, the student is expected to meet the requirements of the latest catalogue. In this way, the student may realize the benefits of improvements in her curriculum that she would be unable to realize were she to follow the curriculum tabulated in the catalogue at the time that she entered the College.

Students returning to the College after an interruption of four or more years of their college study are required to conform to the requirements of the latest catalogue.

THE FRESHMAN YEAR

As indicated in the curricula outlined in this section of the catalogue all freshmen enroll in a program of study which is essentially the same regardless of the curricula in which they plan to major or specialize. During the first year, the student studies English: history or geography; a science; physical education; and two elective courses selected on the basis of her tentative plans for the future. Suggestions are made in the outline of each curriculum regarding these elective courses. A definite choice of a curriculum and major is not made until the beginning of the sophomore year. Thus, the student who is uncertain as to her choice of a major or a curriculum may explore the opportunities available to her. The College offers assistance to her in making such a choice. See the section of this catalogue entitled "Student Personnel Program."

Programs Of Study

CURRICULUM I

Leading to the Degree of Bachelor of Science in Elementary Education

The course of study outlined below leads to the degree of Bachelor of Science in Elementary Education. Students receiving this degree are fully qualified to be teachers in kindergartens and elementary schools. The Virginia State Board of Education will issue to them the Collegiate Professional Certificate. Students enrolled in this curriculum may obtain sufficient credit, through elective courses, to qualify for teaching in one of the high school subject matter fields.

Leading to the Degree of Bachelor of Science in Secondary Education

The course of study outlined below leads to the degree of Bachelor of Science in Secondary Education. Students receiving this degree are fully qualified as teachers in junior and senior high schools. The Virginia State Board of Education will issue to them the Collegiate Professional Certificate. Students enrolled in this curriculum must select a major subject and fulfill the requirements set up for it by the department in which it is taught. From 24 to 32 semester hours of credit are required for a major, depending on the subject. Students may major in art, biology, chemistry, English, general science, geography, history, library science, mathematics, physical education, social sciences, or sociology. Students who wish to become qualified to teach in the elementary schools of Virginia must take Mathematics 323, Education 325, and one of the following: Science 342; Art 301; or Music 123, 124, 223, 224 (four one-credit courses). In addition to these courses, at least three of the required six credits in supervised teaching must be done in Education 300. Those who wish to be certified to teach in the first three grades of an elementary school should do a substantial part of their supervised teaching in these grades.

in Music Education

The course outlined below leads to the degree of Bachelor of Arts in Music Education. Students receiving this degree are fully qualified to be teachers or supervisors of vocal or general music in the elementary or high schools. The Virginia State Board of Education will issue to them the Collegiate Professional Certificate.

CURRICULUM VIII

Leading to the Degree of Bachelor of Arts

The program of study outlined below leads to the liberal arts degree of Bachelor of Arts. Students enrolled in this may major in art, biology, chemistry, English, French, geography, history, Latin, library science, mathematics, music, psychology-philosophy, secretarial science, social science, sociology, or Spanish. Each student enrolled in this curriculum must select a major subject and fulfill the requirements set up for it by the department in which it is taught. Of the total number of credits required for graduation, the college requires the following credits for this degree: English, 12; foreign language, 18; mathematics, 6; music or art, 6 (all in one field); history and social science, 18 (six must be in history); philosophy, 3; psychology, 6; physical and health education, 6; and science (biology, chemistry, geology, or physics), 8.

CURRICULUM IX

Leading to the Degree of Bachelor of Science

The program of study outlined below leads to the liberal arts degree of Bachelor of Science. Students enrolled in this may major in biology, chemistry, geography, history, library science, mathematics, secretarial science, social science, or sociology. Each student enrolled in this curriculum must select a major subject and fulfill the requirements set up for it by the department in which it is taught. Of the total number of credits required for graduation, the college requires the following credits for this degree: English, 12; social science, 12 (six must be in history); science (biology, chemistry, geology, or physics), 30 (24 hours required of mathematics majors); foreign language, 12; mathematics, 6; art or music, 6 (all in one field); psychology, 6; and physical and health education, 6.

Students enrolled in this degree program may arrange their electives during the first three years at Longwood College in a manner to enable them to qualify for admission to the School of Medicine of the University of Virginia in the field of medical technology. After a year of successful study in this field at the University of Virginia, a student may transfer sufficient credits to Longwood College to complete the requirements for the B.S. degree. A student interested in this possibility should, before registering as a freshman at Longwood, seek the help of the faculty adviser for this field in arranging her program of studies.

CURRICULUM V-A

Preparation for Secretarial, Medical Secretarial, and Clerical Work

This two-year curriculum is designed to prepare students for secretarial and other clerical positions in business, industry, and government.

This curriculum also provides the necessary flexibility to enable students to qualify for positions as medical and technical secretaries in offices of physicians, dentists, and hospitals. Those interested in preparing for this type of work should arrange with the Chairman of the Business Education Department to include Biology 131-132 and Chemistry 121-122 in their programs of studies.

Students who complete the courses outlined below (or their approved equivalent) will be eligible for a certificate. Students may decide at any time to change to the four-year Curriculum V which leads to the Degree of Bachelor of Science in Business Education. This transfer can be made without loss of credit.

†Mathematics 155-156 or 161-162 may be elected in the freshman year.

Pre-Professional Preparation for Dentistry,
Nursing, and Medical and X-Ray Technology

This curriculum prepares students for admission to accredited schools of dentistry, nursing, and medical and X-Ray technology. Adjustments in it can be made where necessary to meet any special requirements of professional schools. Students planning to enter schools of medicine should complete Curriculum IX.

Students planning to enter schools of nursing after two years of study at Longwood should write for the bulletin entitled "Pre-Nursing Study at Longwood College."

The Graduate Program

Leading to the Degrees of Master of Arts in Education and Master of Science in Education

The program of graduate studies at Longwood College provides opportunity for broader training on the part of public school teachers and other qualified persons. The program is open to graduates of recognized colleges or universities. Those who are able to qualify and who complete all of the requirements may earn either the Master of Arts degree in Education or the Master of Science degree in Education. Graduate courses are available during the regular academic year—either full-time or part-time (evenings and Saturday mornings)—as well as in the Summer Session.

Admission to Graduate Study

A student who holds the baccalaureate degree from an accredited institution may apply for admission to graduate study. For this purpose he should obtain from the Graduate Council of the College a blank to use in applying for admission. The applicant should have official transcripts of all undergraduate and graduate work taken at other institutions sent to the Dean at least one month prior to the opening of the session. All documents become the property of Longwood College. A student may enroll in graduate courses without becoming a candidate for a degree.

Admission to graduate courses will be granted to persons who meet the following qualifications:

1. United States citizenship, or, in the case of foreign students, possession of an appropriate Department of State study permit.
2. The Bachelor's degree from a college or university accredited by the National Council on Accreditation of Teacher Education, the Southern Association of Colleges and Secondary Schools, or other regional agency.
3. An academic aptitude for graduate work, which will be determined principally from the applicant's undergraduate record.

Conditional Admission

The following applicants may be admitted conditionally:

- a. Applicants for whom all of the necessary entrance information has not yet been received and approved by the Graduate Council.

- b. Students whose undergraduate records are not entirely satisfactory or who show minor deficiencies in their major fields.
- c. Capable students who lack not more than five semester hours to complete their undergraduate program at Longwood College.
- d. Mature persons who have special or personal interest not covered by the above.

The conditional status, however, should be regarded as temporary, and the students should seek to remove all conditions as soon as possible.

Admission to the Departments

The special requirements of the several college departments are designed to insure that the student is able to take advantage of the opportunities provided for advanced study. These requirements relate as a rule to the completion of certain undergraduate "prerequisites" but may include satisfactory performance on aptitude or achievement tests. Details will be furnished by the department.

After admission to graduate study a student should seek an early conference with the chairman of the department in which he plans to specialize. On the basis of this conference, the department chairman will aid the student in selecting his advisory committee which will assist the student in planning his program and be available whenever counsel is desired. If the student is uncertain as to the area in which he wishes to specialize, he should confer with some member of the Graduate Council.

Admission to Candidacy

A student is considered ready to seek admission to candidacy for a Master's degree when he has:

- a. Demonstrated his aptitude to undertake graduate work for at least one summer term or one semester at the graduate level.
- b. Removed any conditions attendant upon his admission to the Graduate Program and removed any deficiencies in prerequisites established by his department.
- c. Formulated a program of study.
- d. Secured his advisory committee's approval of his application for candidacy and has had it approved by the Graduate Council.
- e. Holds the Collegiate Professional Certificate issued by the Virginia State Board of Education.
- f. Satisfied other requirements of the College.

Requirements For a Degree

A satisfactory graduate program represents more than a series of courses or an accumulation of credits, important as these may be. The additional and indispensable element prerequisite to receiving the Master's degree consists of the development of some special competence by the student, together with the satisfactory completion of an approved program of study in which he has displayed a degree of mastery in his field of specialization. A candidate for a degree may either:

- A. Complete 24 semester hours of credit and a thesis, or
- B. Complete 30 semester hours of credit without a thesis.

In plan "A," the thesis is approved by major and minor professors as well as by the student's advisory committee, and two typewritten copies of the thesis are presented to the Graduate Council at least four weeks before the degree is to be conferred.

Selection of Major and Minor

The number of departments prepared to offer a graduate major, will be expanded as rapidly as possible. For the present, courses leading to the degree of Master of Arts in Education may be taken when the major is chosen from one of the following fields:

Education

English

History

Music

For the degree of Master of Science in Education, the corresponding choice may be made from the following departments:

Biology

Education

Music

A major in any subject consists of 18 semester hours of work, or 12 hours of course work plus a thesis. Either the major or the minor must be in the field of education. Furthermore, in order to insure the breadth of training necessary for a teacher, a student may not elect more than 18 semester hours in his major subject. The additional course may be elected from any other subject of the student's choice.

Nine semester hours in a field constitute a minor in that field.

However, if the candidate is a teacher in an elementary school or if he is preparing to teach in the elementary grades, he will be permitted to elect two minors of 6 semester hours each instead of a single minor of 9 hours. In this case where education is not the major, it must be one of the two minors. The departments or fields in which a candidate may minor are the following: art, biology, business education, chemistry and physics, education, English, French, Spanish, geology and geography, history, home economics, mathematics, music, physical education, and psychology.

Students interested in commencing work in any of the foregoing fields should contact, and if possible confer with, the head of the department concerned.

Comprehensive Examinations

Students expecting to graduate in June who do not submit a thesis take an essay type written examination, not to exceed 3 hours' duration, covering the student's major field of study. This examination is designed to evaluate competency in written expression, ability to reason within an area, and the ability to apply information. This examination will be administered by the Graduate Council, Saturday, May 3, 9 a.m.

A student electing to do a thesis (Plan A) is, in general, exempted from taking the comprehensive written examination. An oral examination, not to exceed one hour's duration, is required as an oral defense of the thesis. The Graduate Council may require a written comprehensive examination if it is recommended by the Head of the Department of the student's major field.

Thesis

The student electing to write a thesis selects the subject for the thesis in collaboration with the advisor as soon as possible after commencing the graduate program. (See paragraph on Student Load).

The finished thesis must be approved by both the major and minor professors and the student's advisory committee. Two type-written copies are to be presented to the Graduate Council at least four weeks before the degree is to be conferred.

Residence

Normal residence requirements of one academic year or its equivalent may be reduced by extension and transfer to a minimum of eighteen semester hours.

Students with undergraduate deficiencies may find it necessary to take more than the normal time to complete requirements.

Credit by Transfer

Transfer of residence as well as transfer of credit from another institution is permitted up to 6 credit hours. (Exceptions to each of the foregoing may be made for students already enrolled in another Virginia institution and who have already earned more than 6 semester hours at the time this program was inaugurated.)

Course Numbers

Graduate courses are of two categories: 500-courses are for Graduates and Advanced Undergraduates while 600-courses are for Graduates only. Not more than 60 per cent of a student's total program may consist of 500-courses.

Student Load

Fifteen credit hours per semester constitute a normal load during the academic year. For permission to carry more than this the student may petition the Graduate Council. If the student is already employed, the normal load is 3 semester hours; permission to carry two courses of 3 credits each must therefore be obtained from the Graduate Council.

Time Limit

The work for a graduate degree is to be completed within seven years after commencing such work. An extension of this time-limit is permissible only upon the consent in writing of the Graduate Council.

Graduation

A student planning to graduate on a certain date should file with the Graduate Council an application for graduation at least 60 days before the degree is to be conferred.

Departments of Instruction

Instruction in the College is offered by the departments described in this section of the catalogue. Included in the description of each department are the requirements for a major in it and the courses which it offers.

Numerous courses in most departments have prerequisites. These will be noted in the descriptions of the departments of the courses. Generally, courses numbered between 100 and 199 are for freshmen. Those numbered between 200 and 299 are for sophomores; those between 300 and 399 are for juniors; and those 400 and above are for seniors. Undergraduate Honors Courses are numbered 500. Courses numbered from 501 to 599 are for graduate students and advanced undergraduates. Numbers from 601 to 699 are for graduate students only and 600 courses are graduate thesis courses. Courses with numbers divided by commas, such as 111, 112 are semester courses. This means that the College gives credit toward a degree for the satisfactory completion of one semester of the course even though the student may not enroll in it for the second. Courses in which the numbers are hyphenated, such as 111-112, are year courses. In these, the College grants credit toward a degree for them only upon the successful completion of both semesters of the work.

Honors Courses

The honors program, inaugurated by the College in 1930 but in recent years continued only in the Department of English, has now been expanded under a revised plan to include any department in which the student's major interest lies.

Honors courses are designed for capable students who wish to pursue under individual instruction an intensive study of a subject of their choice, thereby becoming acquainted with methods of research, organization of materials, and the presentation of results in a scholarly manner. Such intensive study is intended also to stimulate initiative, resourcefulness, and original thought.

Under this plan, the student is directed in creative research by an instructor who has specialized in the field and who acts as her sponsor. Candidates for honors must be enrolled in honors courses for two semesters, not necessarily consecutive. They may withdraw from such courses only with the consent of the Honors Committee.

The subject and plan of the research are decided in conferences between the students and the faculty member sponsoring her program. Students interested in honors courses should submit a brief outline describing their projected research to the chairman of the department in

which the work is to be done. The department chairman will present each student's application to the Honors Committee for approval.

The results of a study under this program must be organized into a formal paper. Furthermore, the candidate must stand an oral examination given by an examining board of three members well acquainted with the field. The candidate receives honors in the department sponsoring her only on the recommendation of this examining board. In the event that she fails to be recommended for honors, a grade will be assigned to the work that she has done by her sponsor who will be guided by the caliber of the work.

The program of honors courses is administered by the Honors Committee which must approve all students enrolled in such courses and must appoint the sponsors and examining boards. Members of this committee are Miss Ruffin, Chairman, Miss Draper, Miss Southerland, Mr. Swertfeger, Mr. Simkins.

The class schedules and records of a student enrolled in the honors programs will indicate that she is enrolled in a "500" course giving six semester hours of credit for two semesters of work. (No credit will be given to a student who does not complete both semesters.) If for example, the honors work is being done in the field of mathematics, the student's record will show the following: *Mathematics 500, Honors Course in Mathematics, 6 credits.*

Candidates for honors in a department are eligible also for general honors awarded by the College for outstanding academic records.

DEPARTMENT OF ART

Virginia Bedford, *Chairman*
Mrs. Lemen, Miss Ross

The Department of Art offers courses in visual and tactile arts, and art education for teachers in the elementary and secondary schools.

Freshmen may choose exploratory electives from the following: Art 121, 122, 201, 202, 221, 222.

A major in art in Curriculum II and Curriculum III requires the following: Art 121, 122, 201, 221, 222, 301, 321, 322, 421, 422. A major in art in Curriculum VIII requires the following: Art 121, 122, 221, 222, 321, 322, 421, 422, and two elective courses in art.

Art 121, 122. General Art Structure. Understanding the major and minor arts of past and present civilizations through laboratory experiments, criticisms, and discussions to develop appreciation and to give a basis for good judgment as consumers. Art 121: color, compositions, and painting. Art 122: architecture, sculpture, and graphics. First and second semesters; 5 periods a week; 3 credits each semester. Instructors: Art staff.

- Art 201. Crafts.** Design approach to the creative use of tools and materials in vocational and recreational handicrafts for school, camp, and home. First and second semesters; 6 periods a week; 3 credits. Instructors: Miss Bedford, Miss Ross.
- Art 202. Advanced Crafts.** Special problems in advanced crafts including ceramics, enamels, textile design, leather carving with basketry. Prerequisite: Art 201. Second semester; 6 periods a week; 3 credits. Instructor: Miss Bedford.
- Art 221. Drawing and Composition.** Fundamentals of drawing and composition in various media and techniques. First semester; 6 periods a week; 3 credits. Instructor: Miss Ross.
- Art 222. Ceramics.** Modeling, decorating, glazing, and firing pottery and sculpture. Second semester; 6 periods a week; 3 credits. Instructor: Miss Bedford.
- Art 301. Art Education.** Drawing, painting, composition, color and crafts related to the public school curriculum. Use and demonstration of media with emphasis on creativity. Offered each semester; 6 periods a week; 3 credits. Instructor: Mrs. Lemen.
- Art 321. Color, Design, and Lettering.** Color in theory and practice applied to design and composition. Lettering for form, spacing, and skill with tools related to advertising design. Alternate years. Offered first semester 1958-59; 6 periods a week; 3 credits. Instructor: Miss Bedford.
- Art 322. Figure Drawing.** Figure drawing from the model for proportion and action. Composition involving drawing, painting and design techniques. Alternate years. Offered second semester 1958-59; 6 periods a week; 3 credits. Instructor: Miss Bedford.
- Art 421, 422. Art Appreciation.** A survey of architecture, sculpture, painting, and related minor arts of all civilizations from ancient times to the present. Not open to freshmen. Art 421: architecture and sculpture. Art 422: painting. First and second semesters; 3 periods a week; 3 credits each semester. Instructor: Miss Ross.
- Art 431. Painting: Oil.** Students must furnish all equipment and materials. Both semesters; 6 periods a week; 3 credits. Instructor: Mrs. Lemen.
- Art 441. Painting: Water Color.** Students will furnish all materials and equipment. Both semesters; 6 periods a week; 3 credits. Instructor: Mrs. Lemen.
- Art 442. Painting and Composition.** Open to students who have completed Art 431 or 441 or equivalent. (May be repeated as 443, 444, etc.) Fall and spring semesters. Hours to be arranged. Students will furnish all materials and equipment. 6 periods a week; 3 credits. Instructor: Mrs. Lemen.

GRADUATE OFFERING IN ART

The graduate minor in Art requires 9 credits. Elementary teachers who wish to take a double minor may with the advice of the art staff select any two courses.

For Graduates and Advanced Undergraduates

- Art 501. Craft Techniques.** A progressive series of problems in crafts with emphasis on the use of tools and materials for functional and decorative

results. Ceramics, enameling, metal work and jewelry, silk screen, or weaving. The student will concentrate in one craft in one semester but may repeat the course for further study in another craft (as 502). 3 credits. Fee: \$6.00. Instructor: Miss Bedford.

Art 531. Painting Studio Expressive qualities of painting will be stressed. Individual problems will be set up by the student and techniques will be developed in order to achieve satisfactory solutions. Slide exhibitions and reading will be included. (Art 531-O, Oil; 531-W, Water Color; 531-S, Silk Screen). 3 credits each. Instructor: Mrs. Lemen.

For Graduates Only

Art 611. Problems in Art Education. The student will select an area of art education for concentrated study through readings, research, and experimentation. The conclusions will be presented as a project or term paper. Prerequisite: Art 121, 301 or equivalent. 3 credits. Instructor: Miss Ross.

Art 621. Special Studies in History of Art. A seminar consisting of individual research and group presentation and discussion. Concentration will be on a particular artist, period, school or movement in art and art theory according to the need and interest of the student. Prerequisite: Art 421, 422 or equivalent. 3 credits. Instructor: Miss Ross.

DEPARTMENT OF BUSINESS EDUCATION

Merle L. Landrum, *Chairman*

Mr. Leeper, Mr. Myers, Mr. Snead, Mrs. Taliaferro

The Department of Business Education offers programs leading to the following:

1. The degree of bachelor of science in business education which qualifies students to teach business subjects in secondary schools and to hold office positions in the field of business.

2. A certificate which signifies preparation for secretarial and clerical positions in offices in business, industry, and government, as well as positions of medical and technical secretaries in offices of physicians, dentists, and hospitals.

Those who plan to major in Secretarial Science under Curricula VIII and IX must elect a minimum of 32 semester hours in business subjects. Course work with the required number of semester hours of credit is as follows: Shorthand 6-12, Typewriting 4-8, Accounting 12, Office Machines 3, Business Law, Insurance and other social business subjects to total a minimum of 32 semester hours. In order to facilitate scheduling, students pursuing work under Curricula VIII and IX are advised to complete all courses in typewriting and shorthand by the end of the second year.

Students who have successfully completed courses in typewriting and/or shorthand before entering Longwood College may, with the approval of the chairman of the department, be given advanced

standing in those subjects. This procedure permits such students to be placed in classes with others who have reached similar levels of achievement.

DEPARTMENT OF ENGLISH

R C. Simonini, Jr., *Chairman*

Mrs. Davis, Mr. Gresham, Mr. Meeker, Miss Nichols,
Mrs. Schlegel, Mr. Taplin, Mr. Wellard, Mr. Wiley

The Department of English offers courses in writing, literature, linguistics, journalism, speech, dramatic art, and in the teaching of English. The Department seeks to coordinate its work with that of the other departments and with the counseling program of the College. It seeks the cooperation of all instructors in securing and maintaining the use of creditable English in all classes. Improvement in the command and effective use of the mother tongue is further motivated by the extracurricular activities sponsored by the Department.

Students in advanced courses who show marked deficiencies in the fundamentals of English are required to remedy these deficiencies before receiving credit.

To become eligible to take a major in English, a student must make a grade of "C" or above in English 111-112 or the equivalent. The major in English requires also the following: English 211-212; English 224; two courses with numbers on the 300, 400 or 500 level elected from departmental offerings; either English 405 or 512; and sufficient approved elective courses in the Department to make up a total of the 30 hours required for the major.

Students taking English as their major in curricula leading to teaching in the high school are advised to shape their programs so as to include studies in the related fields of history and the social studies, foreign languages, library science, music, and art.

For students who wish to meet certification requirements for teaching English in the high schools of Virginia, the following courses are recommended: English 111-112; English 211-212; English 224; and either English 405 or 512.

English Placement Test

An English placement test is administered to all beginning freshmen prior to registration for classes. Students will be placed in appropriate sections of either English 111 or 112 according to their performance on this test.

Junior English Test

In order to be assured that Longwood students maintain the standards of English usage and reading comprehension required in English 112, all juniors are required to take a test in correctness and effectiveness of written expression and reading ability during the first semester of the junior year. Satisfactory achievement on this test is

a prerequisite for graduation in all curricula. Those failing to attain an acceptable standard on the test are expected to enroll in the Remedial English class or Developmental Reading program and are required to repeat the test at a stated time within a year. This regulation applies also to transfer students.

Composition

English 111-112. Freshman English. Oral and written communication. Class and laboratory work in reading, writing, speaking, and listening. Emphasis on correctness, clarity, and effectiveness in use of language. Training in library research and documentation. DEPARTMENT OF FOREIGN LANGUAGES

Helen Draper, *Chairman*
Miss Barksdale

Students desiring a major in French require 24 semester hours credit in French, exclusive of French 111-112; those desiring a major in Spanish require 24 semester hours credit in Spanish, exclusive of Spanish 111-112; those desiring a major in Latin require 24 semester

hours credit in Latin, exclusive of Latin 111-112. All foreign language majors are advised to elect courses in European and South American history and geography. To fulfill the foreign language requirements of Curricula III, VII, and VIII, students must elect 18 semester hours credit in one language, or 12 semester hours credit in one language and 6 semester hours credit in another. The 12 semester hours credit required in Curriculum IX must be in one language. A student may take 6 hours credit in one language as an elective in any curriculum.

A course in methods of teaching foreign languages, taught by a member of the Department of Foreign Languages, is given with Education 400. It is a course primarily for majors in foreign languages, is conducted entirely in English, and gives no credit toward the major in French, in Spanish, or in Latin.

A native Spanish student and a native French student assist in each class once a week for drill in pronunciation and oral use of the languages. They are also hostesses of French and Spanish-speaking tables in the dining room and take part in the club meetings, thus offering unusual opportunities to students for speaking both languages and for learning about customs and cultures.

The foreign language laboratory consists of a listening-room equipped with six booths, each containing a play-back and an ear-phone, two Stereophone tape-recorders, a recording room with a sound-proof ceiling and machines for making recordings by tape and discs, and a library of commercial recordings and exercises in the foreign languages prepared by the student assistants in French and Spanish.

Students who have had no previous courses in French or Spanish will take French 111 or Spanish 111, Section A, meeting five times a week. Students who have completed one year of high school French or Spanish, or the equivalent, will take French 111 or Spanish 111, Section B, meeting three times a week.

*Leave of absence, 1956-57.

The basic requirements for a major in history are History 111-112 and 221-222, and 18 credits in history courses on the junior-senior level. All history majors are earnestly urged to explore the other social sciences by way of their electives.

The subject matter of geography includes materials from both the natural and the social science fields. Since major emphasis is placed upon the life of people as it is related to natural environment, courses in geography are counted as credits in social science. A major in this field requires 30 credits.

In sociology a major requires Economics 443-444, Government 331, and 18 semester credits in sociology, which should include Sociology 221, 222.

Students preparing to enter social welfare work should take at least 18 credits in sociology, including social psychology; 8 credits in biology; 6 credits in economics; and 3 credits in American government.

A major in the social sciences requires 30 semester hours, not more than 15 of which may be in any one social science.

History

History 111-112. History of Civilization. A survey course in world civilizations. First and second semesters; 3 periods a week; 3 credits each semester. Instructors: The Staff.

History 221-222. American History. An introductory survey course in American history. First and second semesters; 3 periods a week; 3 credits each semester. Instructors: The Staff.

History 331. American Civil War and Reconstruction. Prerequisite: History 221-222. Alternate years. Offered second semester 1958-59; 3 periods a week; 3 credits. Instructor: Mr. Schlegel.

History 334. United States History Since 1900. Prerequisite: History 221-222. Alternate years. Offered second semester 1957-58; 3 periods a week; 3 credits. Instructor: Mr. Moss.

History 337, 338. Southern History. First semester: the Old South; Second semester: the New South. Prerequisite: History 221-222. First and second semesters; 3 periods a week; 3 credits each semester. Instructor: Mr. Simkins.

History 341. Europe-Renaissance to Waterloo. Early modern European history. Prerequisite: History 111-112. Alternate years. Offered first semester 1957-58; 3 periods a week; 3 credits. Instructor: Mr. Helms.

History 342. Europe Since Waterloo. Nineteenth and twentieth century European history. Prerequisite: History 111-112. Alternate years. Offered second semester 1957-58; 3 periods a week; 3 credits. Instructor: Mr. Helms.

History 430. History Seminar. Offered on demand. 1 period a week; 1 credit. Open only to senior history majors. Instructors: The Staff.

History 441. Virginia History. Prerequisite: History 221-222. Alternate years. Offered first semester 1958-59; 3 periods a week; 3 credits. Instructor: Mr. Schlegel.

History 443-444. British History. Prerequisite: History 111-112. Alternate years. Offered first and second semesters 1958-59; 3 periods a week; 3 credits each semester. Instructor: Mr. Moss.

History 445. Latin American History. Alternate years. Offered first semester 1957-58; 3 periods a week; 3 credits. Instructor: Mr. Simkins.

History 446. History of the Far East. Alternate years. Offered second semester 1957-58; 3 periods a week; 3 credits. Instructor: Mr. Schlegel.

History 447. American Colonial History. Prerequisite: History 221-222. Alternate years. Offered first semester 1957-58; 3 periods a week; 3 credits. Instructor: Mr. Moss.

History 448. History of Russia. Prerequisite: History 111-112. Alternate years. Offered first semester 1957-58; 3 periods a week; 3 credits. Instructor: Mr. Schlegel.

Economics

Economics 443-444. Principles of Economics. First and second semesters. 3 periods a week; 3 credits each semester. Instructor: Mr. Bittinger.

Geography

Geography 141-142. Principles of Geography. Fundamentals of geography as a foundation to the understanding of man's environment. First and second semesters; 3 periods a week; 3 credits each semester. Instructors: Mr. Dunbar, Mr. Lane.

Geography 242. Economic Geography. Relation of geographic factors to economic conditions in determining the nature and location of the several productive occupations, and the distribution of the output of these occupations, including their transportation and marketing. Second semester; 3 periods a week; 3 credits. Instructor: Mr. Lane.

Geography 311, 312. Geography for Teachers. World regional geography with special attention to the contributions which geography makes to the social studies. First and second semesters; 3 periods a week; 3 credits each semester. Instructors: Mr. Dunbar, Mr. Lane.

Geography 353. Geography and Geology of Virginia. Geographical appraisal of Virginia, including the geology, landforms, soils, climate, economic minerals, original vegetation, and the human geography of Virginia, emphasizing settlement and population, agriculture, industries, and transportation. Second semester; 3 periods a week; 3 credits. Instructor: Mr. Lane.

Geography 354. Weather, Climate, and Man. An elementary background of various weather phenomena and climatic patterns. Particular emphasis is given to the effects of weather and climate upon man and his activities. Alternate years. Offered first semester 1958-59; 3 periods a week; 3 credits. Instructor: Mr. Lane.

Geography 356. Conservation of Natural Resources. Survey of resource problems and related conservation techniques in the United States. Particular emphasis is placed upon the resource conservation problems of the Southeastern States. Alternate years. Offered first semester 1957-58; 3 periods a week; 3 credits. Instructor: Mr. Lane.

Geography 401. Geography of Southeast Asia. Regional analysis of the physical geography and problems in the economic and political geography of Southeast Asia. Emphasis on China, Japan, and India. Alternate years. Offered first semester 1958-59; 3 periods a week; 3 credits. Instructor: Mr. Lane.

Geography 402. Geography of South America. Regional analysis of the geography of South America, including treatment of physical, cultural, and economic characteristics of the several regions within the South American nations. Alternate years. Offered second semester 1958-59; 3 periods a week; 3 credits. Instructor: Mr. Lane.

Geography 403. Geography of Europe and the Mediterranean. Regional analysis of peninsula, western and central Europe and the Mediterranean Basin. Alternate years. Offered first semester 1957-58; 3 periods a week; 3 credits. Instructor: Mr. Lane.

Geography 404. Geography of Anglo-America. Regional analysis of the human geography of the United States, Canada, and Alaska, emphasizing the physical and economic factors affecting the utilization of the several regions. Alternate years. Offered second semester 1957-58; 3 periods a week; 3 credits. Instructor: Mr. Lane.

Geography 445. Geographic Influences In American History. This course deals with the importance of natural environment in the exploration, colonization, and expansion of trade and settlement; the distribution and development of cities, industries, and transportation systems; and the growth of the United States to a continental world power. Alternate years. Offered first semester 1958-59; 3 periods a week; 3 credits. Instructor: Mr. Dunbar.

Geography 454. Man's Role in Changing the Face of the Earth. A review of the diverse ways cultures have transformed the natural landscapes of the world. Comparative studies of the land use of primitive and technologically advanced peoples. Offered on demand. 3 periods a week; 3 credits. Instructor: Mr. Dunbar.

Geography 455. The South: Landscapes and Folk Culture. Investigation of changes in the natural landscapes wrought by man. Elements of material culture that give character to areas will be considered. Alternate years. Offered first semester 1957-58; 3 periods a week; 3 credits. Instructor: Dr. Dunbar.

Government

Government 331. American National Government.. First semester; 3 periods a week; 3 credits. Instructor: Mr. Bittinger.

Government 442. American State and Local Government. Second semester; 3 periods a week; 3 credits. Instructor: Mr. Bittinger.

Sociology

Sociology 221, 222. Introductory Sociology. Emphasis in Sociology 222 is placed on social development of the child. First and second semesters; 3 periods a week; 3 credits each semester. Instructor: Mr. Bobbitt.

- Sociology 331. Social Psychology.** Alternate years. Offered first semester 1958-59; 3 periods a week; 3 credits. Instructor: Mr. Bobbitt.
- Sociology 332 Race and Cultural Minorities.** Offered second semester 1957-58; 3 periods a week; 3 credits. Instructor: Mr. Bobbitt.
- Sociology 335. Juvenile Delinquency.** The nature of delinquent behavior. Social determinants of delinquency. Methods of detention, probation and parole, court administration. Alternate years. Offered second semester 1958-59; 3 periods a week; 3 credits. Instructor: Mr. Bobbitt.
- Sociology 441. Marriage and the Family.** Offered each semester; 3 periods a week; 3 credits. Instructor: Mr. Bobbitt.
- Sociology 442. Introduction to Social Service.** Offered second semester; 3 periods a week; 3 credits. Instructor: Mr. Bobbitt.
- Sociology 443. The Community.** Alternate years. Offered first semester 1957-58; 3 periods a week; 3 credits. Instructor: Mr. Bobbitt.
- Sociology 444. Contemporary Social Problems.** Alternate years. Offered second semester 1957-58; 3 periods a week; 3 credits. Instructor: Mr. Bobbitt.
- Sociology 445. Social Pathology.** Alternate years. Offered first semester 1958-59; 3 periods a week; 3 credits. Instructor: Mr. Bobbitt.

GRADUATE OFFERING IN HISTORY AND SOCIAL SCIENCES

The Department of History and Social Sciences is prepared to offer a major for the Master of Arts degree in Education.

For Graduates and Advanced Undergraduates

- History 533. The Renaissance and Reformation.** 3 credits. Instructor: Mr. Schlegel.
- History 537. The Old South.** Advanced study of the history of the South through the Civil War. 3 credits. Instructor: Mr. Simkins.
- History 538. The New South.** Advanced study of the history of the South since the Civil War. 3 credits. Instructor: Mr. Simkins.
- History 542. The World in the Twentieth Century.** A study of the leading world powers and their interrelations in the twentieth century. 3 credits. Instructor: Mr. Schlegel.
- Geography 541. Problems in Political Geography.**
- Geography 545. Geographical Influences in American History.**
- Geography 554. Weather, Climate, and Man.**

For Graduates Only

- History 621. Economic History of the British Empire in the 17th and 18th Centuries.** A comprehensive examination of mercantilism as applied, and as it worked out, in the British colonial world in the Americas. 3 credits. Instructor: Mr. Moss.
- History 651. Reading and Research in American Historical Biography.** Offered on demand. 3 credits. Instructor: Mr. Moss.
- Geography 601. Research in Regional Geography.**

DEPARTMENT OF HOME ECONOMICS

Mrs. Nell H. Griffin, *Chairman*

MISS BERNARD, MRS. GEE

The Department of Home Economics offers students an opportunity to prepare for teaching home economics in the public schools and to prepare for positions as home economists in business. Special emphasis is placed upon the development of the student in the areas of home and family living in all home economics courses. Students meeting the requirements for a bachelor of science degree in home economics education are qualified to teach in state and federal reimbursed secondary schools. Students meeting the requirements for a bachelor of science degree in general home economics are qualified to accept positions in areas of textiles, merchandising, public utilities and other such positions.

The courses required for majors in this field are shown in the outline of Curriculum IV.

Home Economics 121. Personal and Family Living. Personality adjustment as it relates to the present and future family life. Required in Curricula I and IV. Offered each semester; 3 periods a week; 3 credits. Instructor: Mrs. Griffin.

Home Economics 123. Modern Clothing Techniques. Selection, buying, and construction of family clothing using simplified methods. First semester; 1 single and 1 double period a week; 2 credits. Open to non-majors. Instructor: Miss Bernard.

Home Economics 221. Food Preparation. Principles of food preparation. Study and practice in buying and preparing foods. Second semester; 1 single and 2 double periods a week; 3 credits. Instructor: Mrs. Gee.

Home Economics 222. Meal Management. New trends in planning, marketing, preparing, and serving family meals. Prerequisite: Home Economics 221. Second semester; 1 single and 2 double periods a week; 3 credits. Instructor: Mrs. Gee.

Home Economics 231, 232. Textiles and Clothing. A study of fibers and fabrics. Application of principles in the selection and use of fabrics; fittings, construction, techniques, and the use of commercial patterns. First and second semesters; 1 single and 2 double periods a week; 3 credits each semester. Instructor: Miss Bernard.

Home Economics 241. Home Care of the Sick. Individual and family health opportunities. Simple procedures for the home care of a patient. First semester; 2 periods a week; 2 credits. Instructor: Mrs. Gee.

Home Economics 300, 301. New Trends in Homemaking: Foods, Clothing. First semester: furnishing the new kitchen, preparation of family meals and refreshments. Second semester: selection and care of family clothing and home furnishings, construction of simple garments. For non-majors. First and second semesters; 1 single and 2 double periods a week; 3 credits each semester. Instructors: Mrs. Gee, Miss Bernard.

- Home Economics 322. Advanced Clothing.** Advanced work in fabrics, pattern adjustments, fittings, and construction. Prerequisites: Home Economics 231, 232. 1 single and 2 double periods a week; 3 credits. Instructor: Miss Bernard.
- Home Economics 334. Child Care and Guidance.** The physical, social, and emotional development of the child in the family. First semester; 3 periods a week; 3 credits. Instructor: Miss Bernard.
- Home Economics 335. Food and Health.** Practice in foods and nutrition. Recommended for pre-nursing students and as an elective for others. Alternate years. Offered first semester 1957-58; 1 single and 2 double periods a week; 3 credits. Instructor: Mrs. Gee.
- Home Economics 336. Teaching of Vocational Home Economics.** The organization of teaching materials, teaching methods and evaluation procedures for vocational programs in secondary schools. Second semester; 3 periods a week; 3 credits. Instructor: Mrs. Griffin.
- Home Economics 345. Nutrition.** The fundamental principles of human nutrition. Prerequisite: Home Economics 221. First semester; 2 single and 1 double periods a week; 3 credits. Instructor: Mrs. Gee.
- Home Economics 347, 348. The House: Its Plans, Furnishings, and Equipment.** A study of housing standards; aesthetic and economic factors influencing the selection of house plans and furnishings. The selection, operation, and care of equipment. First and second semesters; 2 double periods a week; 2 credits each semester. Instructor: Miss Bernard.
- Home Economics 414. Children's Clothes.** Planning, selecting, and constructing of clothing for children. Prerequisites: Home Economics 231, 232. First semester; 1 single and 2 double periods a week; 3 credits. Instructor: Miss Bernard.
- Home Economics 421. Home Economics for Elementary Teachers.** Aspects of home and family living as applied to the elementary school program. 3 periods a week; 3 credits. Instructor: Mrs. Griffin.
- Home Economics 424. Tailoring.** Tailoring techniques as applied to construction of suits or coats. Prerequisites: Home Economics 231, 232. Second semester; 1 single and 2 double periods a week; 3 credits. Instructor: Miss Bernard.
- Home Economics 431. Special Problems in Homemaking Education.** The responsibilities and activities of the home economics teacher in the total school and community program. Offered each semester; 3 periods a week; 3 credits. Instructor: Mrs. Griffin.
- Home Economics 441. Home Management Residence.** Senior home economics students are required to live in the home management house approximately one-half semester. Directed experiences in family living and home management. Prerequisites: Home Economics 222, 345. 3 credits. Instructor: Mrs. Gee.
- Home Economics 443. Money Management.** A study of the needs and desires of consumers, and the use of family income. 3 periods a week; 3 credits. Instructor: Miss Bernard.
- Home Economics 450. Experimental Cookery.** Experimentation in factors affecting food preparation. Comparative studies of published experimental data. Prerequisite: Home Economics 222. First semester; 2 single and one 3 hour period a week; 3 credits. Instructor: Mrs. Gee.

Home Economics 452. Demonstration Techniques. Study of techniques used in commercial demonstrations. Practice in radio, TV, and audience presentations of home economics materials. Prerequisite: Home Economics 222. Second semester; 1 single and 2 double periods a week, 3 credits. Instructor: Mrs. Gee.

GRADUATE OFFERING IN HOME ECONOMICS

A minor in Home Economics requires the completion of three courses in the field. Courses are chosen through consultation with the Chairman of the Department. Home Economics 501 and 601 are required courses for students who desire to make Home Economics one of the two minor fields in the elementary education program.

For Graduates and Advanced Undergraduates

Home Economics 501. Home Economics in the Elementary School. A study of the various aspects of home and family life included in the program for elementary schools. Emphasis placed on family relations, housing, nutrition, appearance, health, and clothing needs as related to the child. Prerequisite: 3 semester hours in home economics. 3 credits. Instructor: Mrs. Griffin.

For Graduates Only

Home Economics 601. Family Relations. A study of modern family life, the interpersonal relationships of family members. Emphasis is placed on the developmental stages in the life cycle of families. Prerequisite: Sociology 221. 3 credits. Instructor: Mrs. Griffin.

DEPARTMENT OF LIBRARY SCIENCE

M. Beverley Ruffin, *Chairman*
Miss Armstrong, Mrs. LeStourgeon, Miss Terry,
Miss O'Brien, Miss Johnson

The courses in library science are planned for the following students: (1) those students who wish to meet the certification requirements for school librarians in the public schools of Virginia; (2) those students who wish to meet the requirements in library science for entering upon a master's program in a graduate library school; and (3) those students who wish to elect one or more courses in library science as a part of their general education. Students majoring in library science will begin their library science program in their junior year.

Program for School Librarians.

Longwood College offers a 30-semester hour program in librarianship that is planned to meet the state requirements for full-time school library positions. Twenty-four of these credits must be in library science and will constitute a major in Curriculum I, II or III. The

remaining six credits may be taken in other subject fields with the approval of the chairman of the Department of Library Science.

Subject to the certification regulations of the State Department of Education and with the approval of the Chairman of the Department of Library Science and the Dean of the College, experienced school librarians may substitute three credits in an elective course in library science for the required course in directed library service.

Students who wish to become elementary school librarians will enter Curriculum I, II, or III, where they will obtain a major in library science. Students who wish to become high school librarians will obtain their major in library science in Curriculum II or III.

Students in training as teacher librarians must obtain a minimum of 18 semester hours in library science in order to meet the state certification requirements.

Program Leading to Graduate Study in Library Science

Students who wish to meet, wholly or in part, the requirements in library science for entering upon a master's program at a graduate library school may follow one of the programs described above for the training of elementary and high school librarians; or, they may obtain a major in library science in Curriculum VIII or IX. This major will consist of (1) the four basic undergraduate courses in library science which are required before admission to the master's program at a graduate school (L.S. 321, L.S. 341, L.S. 454, L.S. 456); (2) a course in *Children's Literature* (L.S. 326); and (3) four courses (3 credits each) chosen from the field of American, English or world literature. From this combination of courses a student obtains a knowledge of books published in various fields, and a technical knowledge of how to purchase them, to process them, and to service them in a library.

Any student in whatever curriculum she is enrolled who is preparing for graduate work in library science should study two years of a modern foreign language.

General Requirements

Experience in library work on a paid basis is required of all library science majors. The minimum amount of such service is one semester as a student assistant, or one summer session in the Longwood College Library or in some other library approved by the head of the Department of Library Science. Working experience in bookstores, book binderies, publishing houses, or in other related activities is also recommended. The ability to use a typewriter is highly desirable in library work. Every library science student is advised to pursue a second undergraduate major in some subject field which is of special interest to her.

Library

Jarman Hall

Library Science 300. Directed Library Service in Elementary School Library. This course may be substituted for part of the required teaching in Education 300. Offered both semesters; 8 periods a week; 3 credits. Instructors: Miss Ruffin, Miss Johnson.

Library Science 321. Books and Related Materials. The evaluation and selection of library materials, including a study of the needs of young people. First semester; 3 periods a week; 3 credits. Instructor: Miss Armstrong.

Library Science 326. Children's Literature. Same as Education 326 and English 326. Offered both semesters; 3 periods a week; 3 credits. Instructor: Mr. Wellard.

Library Science 341. Library Reference Materials. Study and evaluation of reference materials, including those used in school libraries. First semester; 2 double periods a week; 3 credits. Instructor: Miss Terry.

Library Science 347. Audio-Visual Education. Same as Education 347. Offered both semesters; 2 lecture and one laboratory period a week; 3 credits. Instructor: Mr. Johnson.

Library Science 400. Directed Library Service in High School Library. This course may be substituted for part of the required teaching in Education 400. Offered both semesters; 8 periods a week; 3 credits. Instructors: Miss Ruffin, Miss O'Brien.

Library Science 454. Administration of Libraries. Includes a consideration of the philosophy and standards for school libraries; the cooperative relationship among school officials, teachers, and librarians; the library as a reading and information center; the physical equipment and quarters and techniques essential in the selection, acquiring, processing and servicing of books and other library materials. Second semester; 2 a week; 3 credits. Instructor: Miss Ruffin.

Library Science 456. Organization of Materials. (Cataloguing and Classification) Library procedures and techniques in the processing and servicing of books and other school library materials. Second semester; 2 double periods a week; 3 credits. Instructor: Miss Terry.

Library Science 458. Public School Librarianship. The school library in the social order; its relationship to various types of libraries on the national, state, regional, and local level; its place in the Virginia educational pattern; accreditation and certification. Second semester; 3 periods a week; 3 credits. Instructor: Miss Ruffin.

Library Science 460. History of Books and Libraries. A study of the historical development of books, writing implements, and libraries, with an emphasis on their social implication in modern times. Second semester; 3 periods a week; 3 credits. Instructor: Miss Ruffin.

DEPARTMENT OF MATHEMATICS

Ethel Sutherland, *Chairman*

Mrs. Badger

The Department of Mathematics offers two types of courses: (1) those designed to meet the needs of students who plan to teach in the elementary and secondary schools of the State; (2) those designed to provide the pure mathematics required of students in Curricula VIII and IX.

A major in mathematics in Curricula II and III requires Mathematics 161, 162 (or 155, 156), 345, 346, 447, 451, and at least six credits from the following electives: Mathematics 231, 235, 325, 342, 454, 460.

A major in mathematics in Curricula VIII and IX requires Mathematics 161, 162 (or 155, 156), 345, 346, 447, and at least nine credits from the following electives: Mathematics 231, 235, 325, 342, 454, 460.

Students majoring in mathematics are urged to elect general physics and other courses lending themselves to mathematical interpretations.

One and one-half units of high school credits in algebra and one unit in geometry are prerequisites for a major in mathematics in any curriculum.

Mathematics 161, 162, or 155, 156 will satisfy the mathematical requirements in Curricula III, VIII, and IX.

Mathematics 121 and 122 are open to all students.

Mathematics 121, 122. General Mathematics. Mathematical aspects of such topics as stocks and bonds, insurance and annuities, taxation, installment buying, and consumer credit; the nature of the number system; the nature of the fundamental operations; statistical concepts and interpretations of data. 3 periods a week; 3 credits each semester. Instructor: Miss Sutherland.

Mathematics 123. Mathematics for Teachers in the Elementary School. The subject matter of arithmetic from the teacher's point of view; emphasis on meanings and understandings; social usage of certain topics; analysis and solution of problems. Both semesters; 3 periods a week; 3 credits. Required in Curriculum I. Instructor: Miss Sutherland.

Mathematics 155, 156. Elements of College Mathematics. A correlation of the fundamental concepts of algebra, trigonometry, and analytic geometry. (Mathematics majors, science majors, and others desiring a course of a more comprehensive and rigorous nature should elect Mathematics 161, 162.) First and second semesters; 3 periods a week; 3 credits each semester. Instructor: Mrs. Badger.

Mathematics 161, 162. Fundamentals of College Mathematics. A close correlation of the essentials of algebra, trigonometry, analytic geometry, and the elementary calculus, with emphasis upon the interrelation of the various branches of mathematics; applications of mathematics to other fields, including the physical sciences, engineering, and statistics. First and second semesters; 3 periods a week; 3 credits each semester. Instructor: Mrs. Badger.

Mathematics 221. Business Mathematics. Offered both semesters; 3 periods a week; 3 credits. Required in Curriculum IV and V. Instructor: Miss Sutherland.

Mathematics 231. Analytic Geometry. First semester; 3 periods a week; 3 credits. Instructor: Mrs. Badger.

Mathematics 235. Advanced Geometry. An extension of elementary geometry with emphasis on applications requiring integration of subject matter. Some theorems of historic interest will be considered. Alternate years. Offered second semester 1958-59; 3 periods a week; 3 credits. Instructor: Mrs. Badger.

Mathematics 323. Mathematics for Teachers in the Elementary School. A continuation of Mathematics 123. Emphasis on principles, methods, selection and evaluation of materials. Offered both semesters; 3 periods a week; 3 credits. Required in Curriculum I. Instructor: Miss Sutherland.

Mathematics 325. Statistics. Theory and practical applications of statistics. Alternate years. Offered first semester 1958-59; 3 periods a week; 3 credits. Instructor: Mrs. Badger.

Mathematics 342. Advanced Algebra. Advanced topics in algebra not considered in Mathematics 155 or 161. Alternate years. Offered second semester 1957-58; 3 periods a week; 3 credits. Instructor: Mrs. Badger.

Mathematics 345, 346. The Differential and Integral Calculus. First and second semesters; 3 periods a week; 3 credits each semester. Instructor: Mrs. Badger.

Mathematics 447. Advanced Calculus. Advanced topics in calculus not considered in Mathematics 345 or 346. Open to students who have completed a year's study of the calculus. Alternate years. Offered second semester 1957-58; 3 periods a week; 3 credits. Instructor: Mrs. Badger.

Mathematics 451. The Teaching of High School Mathematics. Alternate years. Offered first semester 1957-58; 3 periods a week; 3 credits. Instructor: Mrs. Badger.

Mathematics 454. Use of Mathematical Instruments. Application of mathematics to indirect measurements with simple exercises in surveying, leveling, and map making. Instruction in the slide rule is included. Offered on demand. Prerequisite: Trigonometry. 3 periods a week; 3 credits. Instructor: Mrs. Badger.

Mathematics 460. Differential Equations. Primarily a study of ordinary differential equations of the first and second order with applications to elementary work in mechanics and physics. A few types of differential equations of higher order will be treated. Alternate years. Offered second semester 1958-59; 3 periods a week; 3 credits. Instructor: Mrs. Badger.

GRADUATE OFFERINGS IN MATHEMATICS

The Department of Mathematics offers a graduate minor in mathematics for teachers in the secondary school. One full year of differential and integral calculus is prerequisite for graduate study in mathematics. To meet the nine-hour requirement for a graduate minor three courses may be selected from those listed below.

For Graduates and Advanced Undergraduates

Mathematics 521. Solid Analytic Geometry.

Mathematics 531. The Foundations of Geometry. A study of the various systems of geometries, including Euclidean and non-Euclidean geometry. 3 credits.

Mathematics 543. The Foundations of Algebra.

Mathematics 650. Reading and Research in Mathematics. Selected topics in mathematics for intensive and critical reading. 3 credits.

DEPARTMENT OF MUSIC

John W. Molnar, *Chairman*

Mr. Adcock, Miss Asher, Miss Bailey, Miss Clark, Mr. McCombs,
Miss Patterson, Mr. Urben

The aims of the Department of Music are to emphasize the emotional, esthetic, intellectual, and social values of music; to broaden the concept of music in life and in the public schools; to prepare grade teachers to teach music in their respective grades; to prepare supervisors and special teachers of vocal and instrumental music in elementary and high schools; to help students attain an artistic proficiency on their instruments and in the use of the singing voice; and to develop an understanding and appreciation of the best music through participation in instrumental and vocal ensembles, and through directed listening to the world's great musical literature.

The required courses in Curriculum I are Music 123, 124, Music 223, 224, and Music 331. Elementary majors and physical education majors are urged to enroll in Music 193, 194 (Piano).

Students enrolled in Curriculum VIII who plan to major in music should enroll in Music 113-114 during their freshman year. A major in Curriculum VIII requires the following courses: Music 113-114; Music 213-214; the study of voice or an instrument until artistic standards of achievement are attained; plus sufficient electives in music to total 30 credits.

Students enrolled in Curriculum VIII who plan to major in music with emphasis in sacred music should enroll in Music 113-114 during their freshman year. Such an emphasis requires the following: Music 113-114; Music 213-214; proficiency in piano, organ, and voice, with a major emphasis upon either voice or organ; plus sufficient electives in music to total 30 credits.

The amount of credit in applied music that may be transferred from other institutions will be determined through evaluation of a student's proficiency by the Department of Music.

Music Theory

Music 113-114. Structure of Music. An integrated study of music theory through the keyboard, written and creative work, ear training, form and analysis, and music reading. Topics include diatonic chords and non-harmonic tones in examples from all types of music literature. Prerequisite: one year of piano or its equivalent. First and second semesters; 3 periods a week; 3 credits each semester. Instructor: Miss Clark.

Music 213-214. Structure of Music. Continuation of Music 113-114, with similar objectives but on a more advanced level, emphasizing modulations to related keys and non-harmonic tones. Prerequisite: Music 113-114. First and second semesters; 3 periods a week; 3 credits each semester. Instructor: Miss Clark.

- Music 284. The Auxiliary Choir.** Techniques of organization and training of children's boys', and youth choirs for the church service. Second semester; 1 period a week; 1 credit. Instructor: Miss Bailey.
- Music 313, 314. Structure of Music.** Continuation of Music 213-214, with emphasis upon larger forms, chromatic harmony, and advanced part writing. Prerequisite: Music 213-214. Alternate years. Offered first and second semesters 1958-59; 3 periods a week; 3 credits each semester. Instructor: Mr. Urban.

Music 474. Teaching Piano Individually. An approach to teaching problems, tone production, development of technique, musical styles and interpretation, and piano teaching materials for all levels, as related to private piano instruction. Offered on demand. Second semester; 2 periods a week; 2 credits. Instructor: Mr. Urben.

Applied Music

Opportunity is offered all students of the College for cultural development through the study of the piano, voice, organ, or orchestral or band instruments, either through private instruction or in small classes. Technical facility, interpretation, and artistry are stressed. Students may enter at any stage of advancement and continue from that point.

Students in Curriculum VI or Curriculum VII are expected to continue the study of their major instrument until artistic standards of performance are attained, as determined by the faculty of the Department of Music. Each student shall appear on at least one student recital each year. Students majoring in voice or an orchestral instrument shall study the piano until able to perform at least material of the grade of Music 292 (piano).

Students enrolled in Curriculum VIII, majoring in music with emphasis in sacred music, shall choose either voice or organ for the applied major; proficiency in the one not chosen for the major, as well as piano, must be on the level of Music 292 before graduation.

All music majors must pass a piano proficiency test during their junior year.

Individual and Small Class Lessons in Voice and Instruments

Music 191, 192. Individual lessons, Elementary; Music 193, 194, class of two, four, or eight, Elementary. Two half-hour lessons weekly; 1 credit each semester.

Music 291, 292. Individual lessons, Intermediate I; Music 293, 294, class of two or four, Intermediate I. Two half-hour lessons weekly; 1 credit each semester.

Music 391, 392. Individual lessons, Intermediate II; Music 393, 394, class of two or four, Intermediate II. Two half-hour lessons weekly; 1 credit each semester.

Music 491, 492. Individual lessons, Advanced; Music 493, 494, class of two or four, Advanced. Two half-hour lessons weekly; 1 credit each semester.

Music 197, 198. Voice Class. Carriage, breathing, placement, diction, phrasing, song singing; students will be assisted by advanced voice majors under the supervision of the instructor. Offered on demand. First and second semesters; 2 periods a week; 1 credit each semester. Instructor: Mr. McCombs.

Music 381, 382. Piano Sightreading. Reading of materials at sight; solo, ensemble, and accompanying materials; improvisation of accompaniments to songs and dances. Offered on demand. First and second semesters; 2 periods a week; 1 credit each semester. Instructor: Miss Clark.

Music 383, 384. Service Playing. A practical study of hymn playing for the various denominations; chant accompaniments; modulations and improvisations; suitable service organ music; suitable accompaniments for solos, anthems, and larger choral works; conducting from the console; use of the organ with other instruments. Prerequisite: Music 192 (Organ). First and second semesters; 3 periods a week; 3 credits each semester. Instructor: Miss Bailey.

Music 399. Half Recital. Preparation and presentation of one half of a solo recital from memory. First and second semesters. 1 credit. Instructors: Staff.

Music 456. Piano Accompanying. A study of the techniques of accompanying through acquaintance with vocal and instrumental soli and ensemble accompaniments, with a practical application in actual experiences in accompanying fellow students and ensembles. Offered on demand. First and second semesters; 2 periods a week; 2 credits. Instructor: Mr. Urben.

Music 463. Piano Literature. A study of pianoforte literature through performance and through listening to recordings; the history, formal structure, and aesthetic values of representative compositions of each composer or period. Required of piano majors. Alternate years. Offered first semester 1957-58; 2 periods a week; 2 credits. Instructor: Mr. Urben.

Music 464. Voice Literature. A study of solo vocal and choral music through performance and listening to recordings; the history, formal structure, and aesthetic values of representative compositions of each composer or period. Required of voice majors. Alternate years. Offered second semester 1958-59; 2 periods a week; 2 credits. Instructor: Mr. McCombs.

Music 499. Full Recital. Preparation and presentation of a full solo recital from memory. First and second semesters; 2 credits. Instructors: Staff.

Grades in applied music will be recorded in the following manner:
Music 191 (piano) or Music 191 (voice).

Ensembles

Opportunity is offered to all students of the College, who are qualified, to participate in music ensembles. Credit and grades in ensembles will be recorded in the following manner: Music 143-144 (Orchestra) or Music 143-144 (Choir). Ensembles may be participated in without credit.

Music 143, 144 (Ensemble), two periods a week; one-half credit each semester.

Music 243, 244 (Ensemble), two periods a week; one-half credit each semester.

Music 343, 344 (Ensemble), two periods a week; one-half credit each semester.

Music 443, 444 (Ensemble), two periods a week; one-half credit each semester.

Orchestra. Open to all students who perform on orchestral instruments upon audition with the conductor. Study and performance of materials ranging from high school to symphonic music. Conductor: Mr. Molnar.

Band. Open to all students who perform on band instruments upon audition with the conductor. Study and performance of band music, ranging from high school to symphonic band level. Conductor: Mr. Adcock.

Choir. Open to students upon audition with the conductor. Standard choir and chorus literature, accompanied and a capella. Formal programs are given each semester, several off the campus. Conductor: Mr. Molnar.

Chorus. Open to all students who wish to sing glee club and chorus materials. Formal programs are given each semester. Conductor: Miss Bailey.

Madrigal Singers. Sixteen voices selected by audition. Vocal chamber music, motets, and part songs are studied and performed. Conductor: Mr. McCombs.

Instrumental Ensembles. String quartettes, woodwind and brass ensembles, and piano ensembles will be formed if sufficient demand exists.

Music 348. Piano Ensemble Literature. Survey and performance of outstanding original compositions and transcriptions for duets and two pianos on an intermediate level. First and second semesters; 1 period a week; 1 credit. Instructor: Miss Clark.

Music 448. Piano Ensemble Literature. Survey and performance of outstanding original compositions and transcriptions for duets and two pianos on an advanced level. First and second semesters; 1 period a week; 1 credit. Instructor: Mr. Urben.

GRADUATE OFFERING IN MUSIC

The Department of Music offers a major and a minor in Music Education. The requisite number of hours will be selected from the departmental offerings by the student in consultation with her advisor.

For Graduates and Advanced Undergraduates

Music 516. Instrumentation for School Groups.

Music 521. Music for Children.

- Music 522. Music in the Church.
Music 523. Church Choir Conducting.
Music 525. Conducting.
Music 531. Music in the High School.
Music 551. The Teaching of Piano.

For Graduates Only

- Music 611. Musical Form.
Music 641. Symphonic Literature.
Music 671. Administration and Supervision of Music.
Music 685. Seminar in Music Education.

DEPARTMENT OF NATURAL SCIENCES

Raymond H. French, George W. Jeffers, *Co-Chairmen*
Mr. Brumfield, Miss Burger, Mr. Lane, Mr. McCorkle,
Mr. Merritt, and Assistants

The Department of Natural Sciences offers courses in biology, chemistry, general science, geology, and physics.

The aim of the department is to prepare students to teach science in elementary and secondary schools and to equip them to carry on graduate study.

The work of the first year which is in most cases prerequisite to further work is designed to meet the science requirements in other curricula of the college.

A major may be taken in biology, chemistry, or general science. A student majoring in biology or chemistry shall have 24 semester hours in the primary field and 8 semester hours in a second field. In Curriculum IX a year of mathematics and a year in a third science are also required; these additional subjects are strongly recommended for majors in other curricula.

A major in general science shall have 32 semester hours distributed among the four areas: biology, chemistry, geology, and physics.

Biology

Biology 131-132. General Biology. Prerequisite to all other courses in the department. First and second semesters; 2 single and 2 double periods a week; 4 credits each. Instructors: Mr. Jeffers, Mr. Brumfield, Mr. Merritt, and Assistants.

Biology 231, 232. Botany. The first semester treats morphology and physiology, the second taxonomy, ecology and horticulture. First and second semesters; 2 single and 2 double periods a week; 4 credits each. Instructor: Mr. Brumfield.

- Biology 320. Anatomy and Physiology.** The body as a whole; cells and tissues; the skeletal, muscular and nervous systems; the special sense organs. First semester; 2 single and one double periods a week; 3 credits. Instructor: Mr. Jeffers.
- Biology 321. Physiology.** A consideration of the circulatory, digestive, excretory, endocrine, and reproductive systems. Second semester; 2 single and one double periods a week; 3 credits. Instructor: Mr. Jeffers.
- Biology 331. Invertebrate Zoology.** First semester; 2 single and 2 double periods a week; 4 credits. Instructor: Mr. Jeffers.
- Biology 332. Comparative Anatomy.** Alternates with Biology 333. Offered second semester 1957-58; 2 single and 2 double periods a week; 4 credits. Instructor: Mr. Jeffers.
- Biology 333. Vertebrate Zoology.** A continuation of Biology 331. Alternates with Biology 332. Offered second semester 1958-59; 2 single and 2 double periods a week. 4 credits. Instructor: Mr. Merritt.
- Biology 352. Genetics.** First semester; 3 periods a week; 3 credits. Instructor: Mr. Brumfield.
- Biology 354. Methods in Experimental Biology.** First semester; 2 double periods a week; 2 credits. May be repeated (as 355) for credit. Instructor: Mr. Merritt.
- Biology 361. Bacteriology.** First semester; 1 single and 3 double periods a week; 4 credits. Instructor: Mr. Brumfield.
- Biology 362. Mammalian Anatomy.** May be taken only with the consent of the instructor. Second semester; 1 single and 3 double periods a week; 4 credits. Instructor: Mr. Jeffers.
- Biology 430. Biological Seminar.** Open only to a few qualified students subject to the approval of the chairman of the department. Offered both semesters, and may be repeated for credit by a student. In that event the number will be 431, 432, etc. One period a week; 1 credit. Instructors: Mr. Brumfield, Mr. Jeffers, Mr. Merritt.
- Biology 441. Evolution.** An introductory course dealing with the history, types of evidence, and theories of evolution. Second semester; 3 periods a week; 3 credits. Instructor: Mr. Brumfield.
- Biology 455. Field Biology.** Second semester; 2 double periods a week; 2 credits. May be repeated (as 456) for credit. Instructor: Mr. Merritt.

Chemistry

- Chemistry 121-122. General Chemistry.** First and second semesters; 2 single and 2 double periods a week; 4 credits each semester. Instructor: Mr. French.
- Chemistry 221, 222. Organic Chemistry.** Prerequisite: Chemistry 122. First and second semesters. 2 single and 2 double periods a week; 4 credits each semester. Instructor: Mr. McCorkle.
- Chemistry 321. Quantitative Analysis (Volumetric).** Prerequisite: Chemistry 122. First semester; 1 single and 3 double periods a week; 4 credits. Instructor: Mr. McCorkle.

Chemistry 322. Quantitative Analysis (Gravimetric). Prerequisite: Chemistry 321. Second semester; 1 single and 3 double periods a week; 4 credits. Instructor: Mr. McCorkle.

Chemistry 323. Qualitative Analysis. Prerequisite: Chemistry 321. Second semester; 1 single and 3 double periods a week; 4 credits. Instructors: Mr. McCorkle, Mr. French.

Chemistry 341-342. General Chemistry. Similar to Chemistry 121-122, but designed as a beginning course for juniors and seniors. First and second semesters; 2 single and 2 double periods a week; 4 credits each semester. Instructor: Mr. French.

General Science

Science 141, 142. Physical and Biological Science. First and second semesters; 5 periods a week; 4 credits each semester. Instructor: Miss Burger.

Science 342. Science for Elementary Teachers. Required in Curriculum I. Offered each semester; 4 periods a week; 4 credits. Instructor: Miss Burger.

Science 442. Science for Secondary Teachers. Second semester; 1 single and 2 double periods a week; 3 credits. Instructors: Miss Burger, Mr. McCorkle.

Geology

Geology 111. Elements of Geology (Physical). The origin of scenery or landforms, the classification of rocks and minerals, and the structure of the earth. First semester; 2 single and 2 double periods a week; 4 credits. Instructor: Mr. Lane.

Geology 112. Elements of Geology (Historical). Geography of the past dealing with the plants and animals of pre-historic time. Second semester; 2 single and 2 double periods a week; 4 credits. Instructor: Mr. Lane.

Physics

Physics 311, 312. General Physics. First and second semesters; 2 single and 2 double periods a week; 4 credits each semester. Instructor: Mr. McCorkle.

Physics 401, 402. Selected Topics in General Physics. First and second semesters; 2 single and 2 double periods a week; 4 credits each semester. Instructor: Mr. McCorkle.

GRADUATE OFFERINGS IN THE NATURAL SCIENCES

A graduate major requires 18 semester hours and a minor nine hours.

For Graduates and Advanced Undergraduates

Biology 501E. Outdoor Life. (May be repeated for credit in which case it will be numbered 502E, 503E, etc.)

Biology 505E. Plants in the Classroom.

Biology 506E. Animals in the Classroom. How to handle, feed and maintain living animals; their structure, habits and life histories; what to watch for and how to experiment so as to arrive at scientific answers. 3 credits. Instructor: Mr. Jeffers.

Biology 521. Organic Evolution. Historical development of the evolutionary concept; appraisal of modern theories; current status in the light of modern day genetics. Prerequisite: 12 semester hours of biology or permission of the instructor. 3 credits. Instructor: Mr. Jeffers.

Biology 555. Field Biology (May be repeated for credit)

Science 501. Selected Topics in Physical Science. Discussions, laboratory, and directed reading on one or more of the following topics: mechanics, properties of matter, light, electricity, and magnetism. Suited to both elementary and secondary teachers. Prerequisite: 8 semester hours of science or permission of the instructor. Fee: \$6.00. 3 credits. Instructor: Mr. McCorkle.

For Graduates Only

Biology 630. Research in Biology.

Biology 631. Plant Morphology.

Biology 641. Histology and Embryology.

Chemistry 601. Inorganic Preparations.

Chemistry 603. Organic Preparations.

DEPARTMENT OF PHYSICAL AND HEALTH EDUCATION

Olive T. Iler, *Chairman*

Miss Brockenbrough, Mrs. Landrum, Miss Weddle

The department has a two-fold purpose: first, to provide professional courses in physical and health education that will prepare students to teach physical education in the elementary schools, high schools and colleges, and health education in elementary and high schools; second, to provide opportunity for all students to engage in developmental and recreational activities.

A regulation suit is required in all activity courses. The suits are purchased through the College. See page 39.

The swimming pool will be open to students at certain hours for recreational purposes. Those desiring this privilege must register at the swimming pool office and wear the regulation swimming suit.

All students are required to pass a beginner's swimming test or a course in swimming before the end of the junior year and two years of activity courses in physical education, unless excused by the College Physician.

A degree of Bachelor of Science with a major in physical education requires the following courses: Activity courses including Physical

Education 102, 103, 202, 203, 212, 232, 302, 303, 322, 329, 351, 353, and 354; and courses including Physical Education 250, 337, 339, 340 and 402; Health Education 239, 342, and 343. Physical Education 321, 328, 330 and 352 are recommended as electives.

Students with a major in physical education who have not had a course in physiology and anatomy are required to take Biology 320, 321, as prerequisites to Physical Education 339.

It is desirable for the teacher of physical education or a worker in the field of recreation to have ability in music, dancing, handcrafts, camping and various sports. It is recommended that they enroll in Music 193. (piano).

All students with a major in physical education are expected to participate in the intramural program offered by the Athletic Association and the May Day festival.

Physical Education

Physical Education 102-103. Basic Techniques. Techniques of activities basic to the physical education and recreation programs; hockey, golf; folk dancing, gymnastics, stunts and tumbling, archery. Required of all physical education majors. Offered first and second semesters 1959-60; two periods a week; $\frac{1}{2}$ credit each semester. Instructors: Staff.

Physical Education 111-112. Freshman Physical Education. Participation in games, athletics, gymnastics and dance. Required in all curricula. First and second semesters; 3 periods a week; 1 credit each semester. Instructors: Staff.

Physical Education 113. Seasonal Sports. Practice and study of techniques in hockey and volleyball for beginners. First semester; 3 periods a week; 1 credit. Instructor: Miss Iler.

Physical Education 114. Seasonal Sports. Practice and study of techniques in volleyball and archery for beginners. Second semester; 3 periods a week; 1 credit. Instructor: Miss Iler.

Physical Education 115. Seasonal Sports. Practice and study of techniques in tennis and volleyball for beginners. First semester; 3 periods a week; 1 credit. Instructor: Miss Iler.

Physical Education 116. Seasonal Sports. Practice and study of techniques in volleyball and golf for beginners. Second semester; 3 periods a week; 1 credit. Instructor: Miss Iler.

Physical Education 202-203. Basic Techniques. Techniques of activities basic to the physical education and recreation programs; field ball, soccer, speedball, swimming, recreational activities. Required of all physical education majors. Offered first and second semesters 1957-58; 2 periods a week; $\frac{1}{2}$ credit each semester. Instructors: Staff.

Physical Education 210. Swimming (Beginners). Instruction in techniques of strokes and diving. Each semester; 3 periods a week; 1 credit. Instructor: Miss Weddle.

Physical Education 211. Swimming (Intermediate). Continuation of Physical Education 210. Each semester; 3 periods a week; 1 credit. Instructor: Miss Weddle.

- Physical Education 212. Swimming (Advanced).** Continuation of Physical Education 211 including the American Red Cross Senior Life Saving Course. Second semester; 3 periods a week; 1 credit. Instructor: Miss Weddle.
- Physical Education 213. Synchronized Swimming.** Stunts and variations of standard strokes taught in rhythm to a musical accompaniment. Development of strokes and stunts for use in water pageants and programs. (Students admitted by permission of instructor). First semester; 3 periods a week; 1 credit. Instructor: Miss Weddle.
- Physical Education 214. Swimming.** American Red Cross Instructor's course. Prerequisite: Red Cross Senior Life Saving Certificate. Second semester; 3 periods a week; 1 credit. Instructor: Miss Weddle.
- Physical Education 217. Seasonal Sports (Intermediate).** Practice and study of techniques in hockey and basketball. First semester; 3 periods a week; 1 credit. Instructor: Miss Iler.
- Physical Education 218. Seasonal Sports (Intermediate).** Practice and study of techniques in basketball and tennis. Second semester; 3 periods a week; 1 credit. Instructor: Miss Iler.
- Physical Education 231. Fundamentals of the Dance.** Beginning course in modern dance for those with no or little previous dance experience. First semester; 3 periods a week; 1 credit. Instructor: Mrs. Landrum.
- Physical Education 232. Modern Dance.** Intermediate course in modern dance for the student who has acquired a vocabulary of movement. Prerequisite: Physical Education 231 or upon recommendation of instructor. Second semester; 3 periods a week; 1 credit. Instructor: Mrs. Landrum.
- Physical Education 250. History and Principles of Physical Education.** Historical survey of the field of physical and health education; present day trends and practices; theoretical concepts and underlying principles. Alternate years. Offered second semester 1957-58; 2 periods a week; 2 credits. Instructor: Miss Iler.
- Physical Education 302-303. Basic Techniques.** Techniques of activities basic to the physical education and recreation programs; tennis, volleyball, basketball, field and track, softball. Required of all physical education majors. Offered first and second semesters 1958-59; 2 periods a week; ½ credit each semester. Instructors: Staff.
- Physical Education 318. Gymnastics.** Techniques of fundamental gymnastics, marching and stunts. Offered if sufficient demand. Second semester; 3 periods a week; 1 credit. Instructor: Miss Iler.
- Physical Education 319. Seasonal Sports (Advanced).** Practice and study of techniques in hockey and basketball. First semester; 3 periods a week; 1 credit. Instructor: Miss Iler.
- Physical Education 320. Seasonal Sports (Advanced).** Practice and study of techniques in basketball and golf. Second semester; 3 periods a week; 1 credit. Instructor: Miss Iler.
- Physical Education 321. Advanced Modern Dance.** An advanced course in dance choreography for the student interested in the creative aspect of dance, in dance as an art form, and dance in the theatre. Class limited to those with an extensive dance (ballet or modern dance) background, or those having taken Physical Education 231 and 232. Offered if sufficient demand. Second semester; 3 periods a week; 1 credit. Instructor: Mrs. Landrum.

- Physical Education 322. Dance in Education.** The place of dance in the high school physical education program. A survey of existing forms with special emphasis on the teaching of modern dance. Designed for the physical education major student. Second semester; 3 periods a week; 1 credit. Instructor: Mrs. Landrum.
- Physical Education 328. Dance in Our Daily Lives.** A course in dance appreciation open to all students. A study of the relationships of music and dance, of the interrelationships of the arts of painting, sculpture, drama, poetry and literature to dance, and of the existing forms of dance in our daily lives. First semester; 2 periods a week; 2 credits. Instructor: Mrs. Landrum.
- Physical Education 329. Tap Dance.** A beginning course in tap dance for those without previous experience. Emphasis is upon development of creative group response through basic fundamentals. First semester; 3 periods a week; 1 credit. Instructor: Mrs. Landrum.
- Physical Education 330. American Square Dance.** Practice in regional forms of American dance with some emphasis on social dance fundamentals. Second semester; 3 periods a week; 1 credit. Instructor: Mrs. Landrum.
- Physical Education 331. Creative Tap Dance.** Intermediate or advanced techniques of tap dance for those with previous experience. Techniques for projecting or furthering the development of individual and/or group creativity in tap dance. Prerequisite: Physical Education 329 or equivalent. Offered if sufficient demand. Second semester; 3 periods a week; 1 credit. Instructor: Mrs. Landrum.
- Physical Education 337. Recreational Leadership.** Study of the varied activities comprising a balanced recreational and camping program. Includes discussion and practice. First semester; 3 periods a week; 2 credits. Instructor: Miss Iler.
- Physical Education 339. Kinesiology.** Analysis of movement in daily life skills, sports, dance and swimming. Prerequisite: Biology 320, 321. Alternate years. Offered first semester 1958-59; 3 periods a week; 3 credits. Instructor: Mrs. Landrum.
- Physical Education 340. Physical Education for the Handicapped.** Study of and practice in teaching the handicapped, atypical and temporarily disabled. Prerequisite: Physical Education 339. Alternate years. Offered second semester 1958-59; 3 periods a week; 2 credits. Instructor: Mrs. Landrum.
- Physical Education 351, 352. Methods and Materials of Teaching Physical Education in Elementary Schools.** Principles and techniques involved in the selection and presentation of physical education activities for the elementary school. Required in Curriculum I. Prerequisites: Physical Education 111-112. First and second semesters; 2 single and 1 laboratory periods a week; 2 credits each semester. Instructor: Miss Brockenbrough.
- Physical Education 353-354. Longwood College

Alumnae Association

The Alumnae Association serves both the College and its former students. It keeps the alumnae informed of the activities of the College and keeps the College informed as to the problems and needs of the alumnae. The Association is a kind of clearing house through which the alumnae and the College can work together to their mutual benefit. It also serves to keep former students of the College interested in one another by organizing them into local associations and bringing them back to the College on special occasions.

The Association operates in many ways. It keeps a record of former students, holds reunions, aids worthy students through the Fraser Memorial Loan Fund, Cunningham Memorial Loan Fund, J. L. Jarman Loan Fund, Mary White Cox Memorial Loan Fund, and Jennie Masters Tabb Memorial Fund, and organizes local chapters of alumnae in counties and cities. It makes available the College news through *The Rotunda*, the weekly publication of the College, and the Alumnae Magazine, and brings to the attention of the College the achievements and needs of individual alumnae. It holds an annual meeting at the College on Founders Day in March.
