The College

The primary educational objective of Longwood College is to provide a baccalaureate curriculum distinguished by academic excellence. Particular attention is given to teacher preparation; pursuant to the goal of academic excellence, every effort is made to combine a strong liberal arts approach with this professional emphasis. The College also offers liberal arts degrees without teacher certification, as well as social welfare, office administration, and pre-professional medical curricula. Details of various departmental offerings may be found in the catalogue section on Departments of Instruction. Four undergraduate degrees are offered: Bachelor of Arts, Bachelor of Science, Bachelor of Science in Business Education and Bachelor of Music Education. In addition, Longwood College provides a graduate program leading to the Master's degree for persons who wish additional preparation for teaching in the elementary and secondary schools, or for supervisory or counseling work. Degrees are presently available with concentrations in education, English and history. The College will continue to study the need for additional Master's degree programs, including such disciplines as the natural sciences and physical education. Longwood College is pledged to a policy of non-discrimination because of race or religion. The policy of non-discrimination applies to all phases of college life including admissions.

HISTORY

Longwood College, a pioneer first in private and later in public education, is one of the oldest colleges for women in the United States. The College was founded on March 5, 1839, this being the date that the Farmville Female Seminary Association was incorporated by the General Assembly of Virginia. The seminary opened its doors in an impressive brick building in the Georgian style of architecture, which now forms a part of Ruffner Hall, the administration building at Longwood College. Prior to 1839 there existed the Farmville Female Seminary established in 1833 and another female seminary established in 1835 by the Reverend A. J. Heustis. It is possible that the seminary of 1839 was an outgrowth of these earlier schools.

In succeeding years the increasing prosperity of the Farmville Female Seminary or Female Academy, as it was sometimes called, led the stockholders to expand the seminary into a college, and the Farmville Female College was incorporated in 1860. This college, under both private and church management, enjoyed a long period of successful operation. Between 1860 and 1884 it was directed in turn by George La Monte, a young graduate of Union College, New York; Arnaud Preot, a distinguished French musician and linguist; Dr. Paul Whitehead, a Methodist minister; and the Misses Fannie and Mary Elizabeth Carter of Mecklenburg County.

The first State legislature to assemble after the adoption of the post-bellum constitution established a system of public schools in Virginia on July 11, 1870. For twelve years, or more, the conduct of these schools was entrusted to such teaching forces as were found ready at hand. However, during this period it became evident to educational leaders that some provision must

be made for the training of teachers. To meet this demand, the legislature on March 7, 1884, passed an act establishing a State Normal School. On April 7, 1884, the State of Virginia acquired the property of the Farmville Female College, and in October of the same year the Normal School opened with 110 students enrolled. This was the first State institution of higher learning for women in Virginia.

With the passage of the years, the Normal School expanded its curricula and ran through a succession of names. It became the State Normal School for Women in 1914, the State Teachers College at Farmville in 1924, and Longwood College in 1949.

The College's present name was derived from Longwood Estate, a tract of 103 acres acquired by the institution in 1928. This beautiful property, originally consisting of thousands of acres, was purchased by Peter Johnston in 1765, and was the home of Peter Johnston, Jr., a lieutenant in Light Horse Harry Lee's famed legion and judge of the Circuit Court of Virginia. There, also, was born General Joseph E. Johnston, Confederate military figure.

In 1811 the estate was bought by Abram Bedford Venable, a United States Senator and the organizer and first president of the first bank in Virginia. After the destruction by fire of the original house on the estate, the present house was erected in 1815 by Nathaniel E. Venable, an officer in the War of 1812 and a member of the Virginia House of Delegates and the Senate. It is the birthplace of Lieutenant Colonel Charles Scott Venable, who was a member of General Robert E. Lee's staff, and professor of mathematics and chairman of the faculty of the University of Virginia. Longwood Estate has recently been completely remodeled, and now serves as the official home for the President of the College.

The College was first authorized to offer four-year curricula leading to the degree of bachelor of science in education in 1916. It was authorized to offer the degree of bachelor of arts in 1935, the degree of bachelor of science in 1938, curricula in business education the same year and courses leading to a degree in music education in 1949. In 1954, graduate programs were authorized.

LOCATION

The college is located in Farmville, seat of Prince Edward County, in southside Virginia. A progressive town with a population of 6,000, it is the business and education center of the area. Located in and near town are churches, hotels, motels, a country club, a municipal airport and a community hospital. Hampden-Sydney College, a liberal arts college for men, is five miles south of the campus. Many points of historic interest are within a short distance of Farmville, including Appomattox Courthouse and Saylor's Creek Battlefield.

Farmville is sixty-five miles west of Richmond and Petersburg, fifty miles east of Lynchburg and sixty miles south of Charlottesville. U.S. Highways 15 and 460 intersect in town. The Norfolk and Western Railroad serves the town for freight, but has discontinued passenger service. Greyhound and Trailway Bus systems provide excellent service to the town.

The geographic location of the college is such that a mild climate prevails throughout the year with an absence of extremes in temperatures.

CAMPUS AND BUILDINGS

The main campus consists of 50 acres adjacent to the Farmville business district. Buildings are colonial in architecture, constructed of red brick and adorned with white trim. All facilities are within easy walking distance of each other. An extensive construction program was completed in September 1970, representing a \$5,000,000 program involving five new buildings and renovation of older facilities. A 100-acre plot, one mile east of the main campus, provides a nine-hole golf course, club house, recreational cabin and facilities.

ACADEMIC BUILDINGS

Ruffner Hall

Dominated by the famous Rotunda and colonnades, this structure houses the main administrative offices. A number of faculty offices are located in the building. The interior of the dome is decorated with the fresco painted by E. Malsalconi. Joan d'Arc, sculptured by Henri-Michel-Antoine Chapu, reposes in the main foyer. Visitors to the college may stop at the Information Office in the foyer for college literature and guided tours of the campus. The Language Department is located in Ruffner Hall. Facilities of this department include a laboratory, recording room, and a system of dial-access.

Grainger Building

Located immediately west of and connected to Ruffner Hall, this building houses the Business Education, English, and Mathematics Departments, and several classrooms for the History and Social Sciences Department. Machine and office equipment rooms of the Business Education Department are air conditioned.

Lancaster Library

This beautiful structure, with its clock tower, was constructed in 1938 and received extensive enlargement and renovation in 1961. It is considered to be one of the finest such facilities possessed by any college in the state. The library is immediately west of the Grainger Building. Completely air-conditioned, its three floors include individual study carrels, group study and discussion rooms, seminar rooms, a typing room, faculty carrels, and a separate reading room for the use of the collection of periodicals and newspapers on 2,300 reels of microfilm. The main book collection, approximately 120,000 volumes, is available on open shelves to all users, with reading and informal lounge areas interspersed among the book areas on three floors. Other collections in the library include a file of 8,000 pamphlets, a picture file of 6,800 items and more than 1,300 maps. Twenty-two newspapers and some 875 current magazines are received. Also in the library is a collection of college publications, student publications, college catalogues, alumnae bulletins, and other materials.

A library orientation program is given to all freshmen by members of the English Department in cooperation with the library staff. By means of this program students are introduced to the library building and its functional divisions, to the various book collections, and to general and special reference tools. They are shown how to borrow library materials, how to use the Faculty Reserve Collection, and how to locate subject material or specific books. This program is supplemented by individual instruction through each student's four years of college.

During regular sessions, the library is open at scheduled periods totaling 86 hours each week. The time schedule is posted at the main entrance to the library. Library service to alumnae is rendered locally or by mail. Loan services to teachers in southside Virginia are provided according to the regional plan placed in effect by the State Board of Education. It is the aim of the library to obtain maximum use of its materials by students, alumnae, faculty, and friends of the College.

Jarman Hall

Located to the west of Lancaster Library, Jarman Hall provides facilities for the Department of Speech and Dramatic Arts. Among the appointments are classrooms, a small theater, rooms for dressing and storage of costumes, a prop shop, and the college radio station. The main auditorium seats 1,227 persons. Students gather in the auditorium on frequent occasions to enjoy concerts, plays, lectures and movies sponsored by the college. The auditorium is made available as a community center whenever possible.

Stevens-McCorkle Hall: Jeffers Auditorium

The Department of Natural Sciences, which includes the disciplines of biology, chemistry, physics and general science, occupies this structure. Located southwest of Jarman Auditorium, the Stevens-McCorkle-Jeffers complex contains laboratories, lecture rooms and office space for the department. The 235-seat capacity of Jeffers Auditorium, completed in 1968, also functions as a meeting place for various college groups.

A greenhouse is located nearby for use by the department, and a modern facility for the care and maintenance of research animals is available on the lower floor of Jeffers. The College Museum, located in Stevens Hall, contains more than 1,200 minerals, rocks, fossils, plants and animals. Most of the geological specimens were gifts from the private collections of D. A. Brodie and H. B. Derr. Modern in every respect, this building enables the College to offer excellent preparation in science.

Hiner Building

Renovated in 1970 and 1971, this building provides offices, classrooms and laboratories for the Department of Education, Psychology and Philosophy and for the Department of History and Social Sciences. Laboratories for geology and geography are also located in the Hiner Building. A studio providing closed-circuit television for classrooms on campus is in the

building, along with the Bureau of Teaching Materials. The latter contains an extensive assortment of audio-visual teaching aids and a tape and film library. The building is immediately south of Grainger Building.

Coyner Building

Opened in the fall of 1970, and adjacent to Hiner Building, the facilities of this structure include a Child Development Laboratory; a Housing, Equipment and Home Furnishings Laboratory; a Foods Laboratory and Clothing Laboratory. The four-year-old children of Longwood faculty and staff members may attend the nursery school, an integral part of the Child Development Laboratory which opens into a fully-equipped playground. Adjacent to the Housing, Equipment and Home Furnishings Laboratory is a workroom in which students may learn how to repair, refinish and upholster furniture. A professional reading library, faculty conference room, offices and a multipurpose classroom, equipped with a portable demonstration kitchen, are additional features of the Coyner Building.

Worthy Johnson Crafts Home Management House

Built in 1960, this facility is located across the street from Ruffner. Senior home economics majors live for one-half semester here, gaining experience in the management of modern homes and families. The combination of the Crafts and Coyner structures provides the department with excellent facilities for the teaching of home economics.

Wygall Building

A part of the Fine Arts complex completed in September 1970, and located two blocks south of Jarman Hall, this building houses the Music Department and is centrally air-conditioned. It contains a 215-seat recital hall, classrooms, offices, a listening laboratory, rehearsal room, sound-proof individual studios and practice rooms, a recording studio, and a Green Room for after-recital receptions. Among the various types of instruments available are 42 pianos, 24 electronic pianos for class instruction, a Schlicker two-manual organ, a Wilhelm two-manual organ, a Becharath practice organ, and two electronic organs. Other equipment includes two Steinway grand pianos, a Mason and Hamilton grand piano, two Baldwin grand pianos, and a Sperrhake two-manual harpsichord, all types of string, reed, brass, and percussion instruments, a library of recordings and music, and an electronic teaching machine for ear-training.

Bedford Building

Within the Fine Arts complex, and centrally air-conditioned, the Bedford Building houses the Department of Art. Special features of this structure include individual studios for painting, drawing, sculpture, ceramics, print making, art education, crafts, as well as facilities for the teaching of photo-

graphy. A spacious exhibit gallery displays the works of various well-known artists throughout the year. An auditorium having a capacity of 176 seats is available for lectures and films.

Wynne Campus School

This unique structure, housing a self-contained plant for elementary school children from kindergarten through seventh grade, was completed in September 1970. Circular in design, each classroom opens on one side into a multi-purpose gymnasium-library-music-auditorium room and on the other side to out-of-doors physical education and recreational facilities. It is air-conditioned, electrically heated, and equipped with the most modern teaching aids for the 200 students enrolled. Observation of elementary teaching methods employed at the campus school supplements the student teaching experience of college students majoring in elementary education. The school is situated at the southernmost end of the campus.

Iler Gymnasium-French Gymnasium

Several facilities are used by the Department of Health and Physical Education. **Iler Gymnasium**, immediately south of Coyner Hall, contains a gymnasium with regulation basketball court, classroom, faculty offices, and storage space for equipment. An athletic field and two tennis courts are adjacent.

French Gymnasium, east of Ruffner Hall, contains basketball courts with spectator gallery, a swimming pool, classroom, research and teaching laboratory, faculty offices and locker-shower rooms. It opens onto four tennis courts and a second athletic field.

A dance studio is located in French Building. Fencing classes are conducted in Barlow Building to the rear of French. Instruction in golf is given at the golf course at Longwood Estate, while instruction in bowling is presented at the bowling alley in the Student Union.

RESIDENCE HALLS

Eleven dormitories offering comfort, convenience, recreation and study areas are an integral part of life at Longwood College. A Head Resident occupies a suite of rooms in each dormitory and is available to the students for any help they may need. She also works closely with the Housekeeping Supervisor for dormitory maintenance.

The student rooms are warm and colorful, furnished with beds, desks, chairs, dressers, bookshelves, and closet space. Each student is responsible for the care of her own room and is expected to furnish her own study lamp, bed linens, bedspreads, blankets, pillows, towels, washcloths and waste baskets.

Kitchen and laundry facilities are available on most halls for student use. The recreational areas located in each dormitory are spacious and each has an adjoining kitchen.

In the spring, returning upperclassmen choose their dormitories and suites for the next fall session.

Tabb-French Halls

The oldest of the dormitories, these two buildings are located east of Ruffner Hall, the Administrative Building, and overlook the colonnade and sunken gardens. Students have direct inside access to the gymnasium, swimming pool, infirmary, dining hall and a number of classrooms. Bathroom facilities are located on each floor. Extensive renovation programs were completed in these dormitories in 1970 and 1971.

The Cunninghams

North Cunningham, constructed in 1928, Main Cunningham in 1932 with an annex constructed in 1938 and South Cunningham in 1958, form a complex of three dormitories. Centrally located on campus, each of these dormitories has elevator service and rooms arranged in suites with connecting baths.

Wheeler, Cox, Stubbs Dormitories

These three dormitories, similar in construction and appointment, were built during the periods 1960 to 1966 and are located on the western edge of the campus. Elevator service is provided in each and the rooms here, as in the Cunninghams, are arranged in suites with connecting baths. Social sorority members may choose rooms in Stubbs adjacent to the chapter rooms.

Curry and Frazer Dormitories

These ten-story high-rise buildings were completed in 1969 and 1970 respectively. They are of contemporary design, centrally air-conditioned and offer elevator service. Located on Main Street on the eastern edge of the campus, the dormitories are connected by a beautifully appointed Commons Room. Students are housed in suites of two and three bedrooms, and each suite contains a bathroom facility.

SUPPORT FACILITIES

Lankford Building

This building is the hub of student activities on the Longwood Campus. Constructed in 1967, it is located between Iler Gymnasium and Stubbs Dormitory, the Cunninghams and the Wygal Music Building. The lower floor contains bowling alleys, a snack bar, bookstore, post office and office for student publications. The entrance near the Snack Bar opens onto a patio where umbrella-covered tables provided for student use. The upper floor contains the beautiful Gold Room where many social affairs are held, reading and television rooms, a large meeting hall which may be divided into three smaller rooms, offices for student government organizations and offices for the Director of Student Activities. A separate room with Pullman kitchen is provided for the use of day students.

Dining Hall

This facility is part of Ruffner Hall and may be entered from the Rotunda. The dining hall accommodates all boarding students for family-style meals in both upper and lower halls. Food service is provided by the A.R.A. Slater Management, Incorporated, a nationwide company specializing in college food service. The bakery and kitchens contain modern cooking and dishwashing equipment.

Under construction is an extension of first and second floor facilities which will provide seating for an additional 450 persons, a banquet room and central air-conditioning for the entire building with completion scheduled for the fall of 1972.

Infirmary

Located adjacent to Tabb and French Dormitories, the Infirmary provides routine medical service for students. It is staffed by a physician and five registered nurses. A psychiatrist is available for students who desire his services. A renovation and modernization program of the building was undertaken in 1971.

Graham Building

The laundry, maintenance shops, housekeeping offices and Campus Police Office are quartered in this structure. It is centrally located south of Ruffner Hall. The laundry is equipped with the necessary personnel and machinery to render required service to the students. The steam power plant, which adjoins the Graham Building, is equipped with four boilers and provides heat and hot water for all buildings but the Wynne Campus School.

Service Building

A new service building, located at Main and Redford Streets on the eastern edge of the campus, is under construction and is scheduled for completion in 1972. The lower level will contain offices of the maintenance supervisor and automobile, plumbing, painting, and electrical and air-conditioning shops. Parking for the motor pool and equipment will be adjacent. The upper floor will provide a warehouse for central stores and an office for the storekeeper.

Alumnae House

This elegant and historic house, located two blocks from the main campus on High Street, was formerly the residence of the college president. It now provides offices for the Alumnae Secretary, social facilities and limited overnight accommodations for visiting alumnae.

Parking

A hard-surface parking lot for student automobiles was completed opposite the student union in 1970. It is lighted and will accommodate 90 cars. A temporary parking lot is located opposite Curry and Frazer Dormitories. Students authorized automobiles are also permitted to park on the several streets passing through and bordering the campus. The Chief of Campus Police maintains a chart showing parking areas and issues parking permits.

Parking for faculty and staff is provided in lots adjacent to Jarman Auditorium, Tabb Hall, Graham Building, Hiner Building, Coyner Building and the Fine Arts Center.

STUDENT TEACHING CENTERS

The public schools in the counties adjacent to Farmville, the Roanoke City public schools, the Danville City public schools, the Richmond City public schools, the Lynchburg City public schools, the Colonial Heights City public schools, and the Chesterfield County, Henrico County, and the Prince George County public schools cooperate with the College in making facilities available for student teaching.

These schools are well equipped with laboratories, libraries, cafeterias, and workrooms. The faculties include teachers who are well qualified as supervising teachers.

The College program and the program of student teaching are coordinated through the Department of Education.

THE COLLEGE YEAR

The college year consists of a regular session, including two semesters of 16 weeks each, and a summer session. The summer session for undergraduate and graduate students consists of a ten-week session divided into two five-week terms. The ten-week summer session makes it possible for an undergraduate student to complete a degree program in three calendar years as compared with the traditional four academic years generally required to complete such a program.

Both undergraduate and graduate classes during the summer are scheduled for five days a week. Students may apply for admission to Longwood College in the summer session or at the beginning of either semester of the regular session.

COMMENCEMENT

Commencement exercises are held once a year, in the spring. Those students completing degree programs between commencements will be given a letter certifying that they have fulfilled all requirements for graduation. They will receive diplomas at the next spring commencement.

Graduating seniors must buy or rent from the college book store the caps, gowns, and hoods required for commencement exercises.

ACCREDITATION

The College is fully accredited as a professional school for the undergraduate training of teachers and as a liberal arts college. It is accredited by the Southern Association of College and Schools, the National Council for Accreditation of Teacher Education, and the Virginia State Board of Education. It is on the list of colleges approved by the American Association of University Women. Its pre-medical curriculum is approved by the Council on Medical Education and Hospitals of the American Medical Association. Its preprofessional curricula in nursing, medical technology, pharmacy, dental hygiene and physical therapy prepare students for admission to accredited schools. Its social welfare program is approved by the Council on Social Work Education.

The College is a member of the Association of American Colleges, American Association of Colleges for Teacher Education, Association of Virginia Colleges, National Association of Business Teachers Training Institutions, American Association of College Registrars and Admissions Officers, Southern Association of Colleges for Women, American Library Association, and the Virginia Museum of Fine Arts.

SPECIAL AFFILIATIONS

The variety of courses available to Longwood students has been increased by a cooperative arrangement with Hampden-Sydney College. Under the terms of the arrangement, full-time students at either institution may enroll for courses at the other institution without added expense. Students desiring to take advantage of this program must secure approval from the Dean of the College.

Longwood College students may find these academic areas of particular interest: Bible and religion; classical languages; computer mathematics.

Longwood College is affiliated with the University Center in Virginia, an agency which brings nationally known scholars and lecturers to the Virginia area, and arranges programs of research, cooperative professorships, adult education, and library exchanges among member colleges. Longwood shares directly in the enriched educational activity made possible through the joint efforts of the institutions affiliated with the Center.

Student Personnel Program

ADMISSION REQUIREMENTS

Eligibility for admission. Longwood College is pledged to a non-discriminatory policy of admission concerning race and religion. The following students are eligible to apply for admission to the College.

1. Graduates of public and private high schools accredited by the State Department of Education in Virginia or schools in the process of being accredited by the state department of education or the accepted accrediting agency of any other state.

2. Advanced students transferring from other properly accredited colleges and universities. Such students are given a fair equivalent in credit for courses they have taken, provided they are entitled to honorable dismissal from other institutions they have attended and that they meet the other admission requirements of the college.

Advanced students may be asked to submit scores on the College-Level Examinations of the Comprehensive Colleges Test of the Educational Testing Service, Princeton, New Jersey. The College-Level Test can be taken in December or January if the student plans to enter Longwood College the following September. The College reserves the right to specify tests to be taken prior to admission.

High school credits. Longwood College requires for admission the following units beyond the eighth grade: four units in English; one unit in American history; one unit in American government; two units in science, at least one unit thereof being a laboratory science; one unit in algebra and one unit in geometry.

Longwood College welcomes applications from prospective students. The admission of all students is on a selective basis. Priority is given to the best qualified applicants. A student must rank in the upper half of her class and have made a score on the Scholastic Aptitude Test of the College Entrance Examination Board high enough to indicate success at Longwood College. In order to apply for admission a student must take the following steps:

1. Submit the preliminary application blank found in the back of this catalogue. This must be accompanied by an application fee of ten dollars, which will not be refunded. Checks and money orders should be made payable to Longwood College.

2. Fill out and return to the Director of Admissions a detailed application blank which will be sent to her when the College receives the preliminary application blank.

3. Request that the principal of the high school from which she was (or is to be) graduated submit to the Director of Admissions a transcript of her high school records. Students who have attended other colleges or universities must likewise request that the registrars of those institutions send complete transcripts of their records.

All applicants are required to take the Scholastic Aptitude Test of the College Entrance Examination Board and they must request that the test

score be sent to the Director of Admissions of Longwood College. Students who are planning to continue the study of a foreign language should take the achievement test in the language of their choice. Data from the Scholastic Aptitude tests administered by the State Department of Education in cooperation with the local school divisions will be reported by the high school principal on the transcript form.

When the College receives the student's application, application fee, the transcripts of her records, and scholastic aptitude test score or scores, its Committee on Admissions examines her qualifications carefully and notifies her as to whether or not her application is accepted.

Students accepted for admission will be required to make a non-refundable deposit of \$50.00 in order to reserve a room in the dormitories. The date this payment is due will be indicated in the admission letter.

GUIDANCE AND COUNSELING

The College recognizes that the acquiring of knowledge is only one phase of the student's education. It must also assist each student to develop in all areas of life. It must be prepared to assist her in making plans for the future and in solving problems of the present. It must be interested in her as a person as well as one of a class group. Therefore, every faculty member has guidance responsibilities involving work with students on an individual basis.

The office of the Dean of Students is likewise an integral part of the student personnel program. This department is responsible for student life in the dormitories and for the social activities of the students. It maintains contacts of many different kinds with all the various segments of the student groups, assisting individual students in the many problems of their adjustment to college life. Its work is coordinated with that of the faculty so that there is continuity and purpose in the personal assistance rendered to students throughout their college careers.

The Student Health Service, directed by the College Physician, cooperates in every way with other activities of the student personnel program. The physical condition of each student is a primary factor in her adjustment while in college and the cooperation of the Health Service, the faculty, and administrative officials, is considered essential. Each student's contact with the student personnel program begins with the consideration of her qualifications by the Committee on Admissions when she applies for admission. At the time that she is accepted, the College already has a knowledge of her background, achievement, abilities, and interests. Upon her matriculation at the College, each freshman is assigned an adviser. This faculty member is available to give her assistance in making her plans and solving her problems in an intelligent manner. The College maintains extensive personnel records on each student.

The first few days of each regular session are designated as a period of orientation for freshmen and other new students. **The Colleagues**, a group of carefully selected sophomores together with orientation group leaders, student assistants, and **Junior Spirits**, conduct a program of study and activities which acquaints the new students with the customs, traditions, and regulations of the College. This program has proved to be exceedingly

valuable to new students as they adjust to the life on the campus. Throughout the country, the College is known for the sincere interest shown by the student body, faculty, and administrative officials in those beginning their study here.

HEALTH SERVICE

The Student Health Service of the College upholds the highest standards of physical and mental health and emphasizes the prevention of illness. An excellent health record has been maintained here because of the close cooperation between the College Physician and other departments that are in a position to assist in the promotion of student health.

The Service is staffed by the College Physician who is assisted by five registered nurses. The services of a psychiatrist are also available for Longwood College students who desire professional counseling.

Every student must file a Health Record in the Infirmary. This record must include the results of an up-to-date physical examination, signed by the student's physician.

Students needing medical attention are treated in the modern, well-equipped infirmary maintained by the College. The infirmary gives twenty-four hour service with a nurse available at all times. The College Physician is available on call at any hour. The College does not assume responsibility for any medical attention except that given by the College Physician and by the nurses. Consultants, hospitalization, private nurses, special prescriptions, X-rays, other laboratory work, etc., are at the expense of the student. The College Physician communicates with the parents immediately in case of serious illness.

The Southside Community Hospital is located only a few blocks from the College. It is well equipped and is in the charge of a capable staff of physicians and surgeons. The College Physician is a member of the staff.

Longwood College has arranged with a casualty company for the provision of a student accident and sickness insurance plan. At the present time, participation in this plan is voluntary, and the premium must be paid by the student. The College furnishes the casualty company with a roster of the students who will enter Longwood College each September enabling the company to send each parent a brochure explaining the benefits of the plan and the cost.

PLACEMENT SERVICE

To assist students and alumnae in securing desirable positions, the College maintains a Placement Bureau. Available to alumnae and students, provided without cost either to students or employers, the Bureau places prospective teachers and graduates who wish to secure positions in business and industry.

A folder of information is compiled for each graduate and is available to prospective employers. School superintendents, personnel directors, and others interested in employing graduates are invited to visit the College for interviews with students. Only prospective employers who practice non-discrimination are allowed to recruit on campus.

Student Life on Campus

PHASES OF COLLEGE LIFE

The faculty and administrative officials of the College believe that their ultimate responsibility is to assist students to be well-adjusted, useful citizens in the state and nation. Therefore, attention is given to all aspects of student life on the campus.

The College's activities relating to physical life are outlined in the preceding chapter of the catalogue. Summarized below are other aspects of college life which receive careful attention.

MORAL AND RELIGIOUS LIFE

The moral and religious aspects of education are considered as important as are the physical and intellectual. During the history of the College a tradition of good will, cooperation and high standards of personal relationship has developed. Such a stabilizing influence cannot be described; it can be appreciated only through living in the atmosphere it engenders. But this intangible influence is experienced by both students and faculty to such a degree that it has become a distinct moral force in the whole College community.

The College is a home in which everyone is expected to do his part and share in a give-and-take relationship with others. Certain modes of life are prized and valued because in a long history they have proved their worth. In such an atmosphere it is difficult for the young student to fail to develop high ideals and a wholesome moral outlook on life.

The Young Women's Christian Association is a strong religious force in the college. It provides training and experience for the officers and others interested in religious work. The YWCA conducts daily evening prayer services, urges attendance at church school and church, and fosters a spirit of religious life and service. Under its auspices a Spiritual Life Program is observed; a series of addresses by some Christian leader is given each year on the fundamental principles of the Christian religion, and noted speakers representing the international point of view address the students on important current movements.

Students are also encouraged to participate in the religious life of the community. They receive a cordial welcome from the ministers of the town to participate in their church life, which includes regular Sunday services, prayer meetings, Sunday School classes, and social gatherings. Special leaders, working with students through the medium of student organizations, are provided by some of the churches.

Farmville churches include the Baptist, Episcopal, Lutheran, Methodist, Presbyterian, Roman Catholic, Wesleyan Methodist, and Church of God. Where there is no organized church leadership, as in the case of the Christian Scientists, students of the respective faiths usually have contact with local residents having similar church affiliations.

CULTURAL, SOCIAL AND RECREATIONAL LIFE

The individual with a well-rounded personality is social in outlook and attitude. She is able to work and to play with other people. The community life on the campus provides many opportunities for every student to participate in various social, recreational, and cultural activities.

Various receptions and parties at the beginning of the college year enable new students to meet the upperclassmen, faculty members, and administrative officials. Oktoberfest, sponsored by Geist, Longwood's principal honor society, provides entertainment and develops a spirit of cooperation and friendliness among the students. The Founders Day celebration, held yearly in March, brings together alumnae, students, and faculty members. In April the Miss Longwood Pageant, affiliated with the State Pageant, is held. The May Day Festival, held on the first Saturday in May, is an outstanding event sponsored by a general committee chosen from the student body.

Dances and productions are presented during the year by the classes and student organizations. Picnics and hikes are held during the fall and spring months. Intramural and varsity competition in various sports, including archery, basketball, fencing, golf, hockey, swimming, softball, tennis, and volleyball, provide opportunities for participation on the part of all students.

The College Choir, Madrigal Singers, and Chorus are open to students interested in music. The Longwood Players provide excellent experience for students interested in drama. Radio and television programs are presented on the local stations by various student and faculty groups. The College newspaper, literary magazine, and yearbook are prepared and edited by students interested in writing and editorial work.

Occasional assembly programs, distinguished speakers and other programs of interest are presented. Cultural affairs, outstanding lecturers, and various artists of the entertainment world are scheduled at intervals during the year.

Among the outstanding programs and personalities presented on the Longwood campus during the 1970-71 session were the following: Indiana University Chamber Singers; Pennsylvania Ballet; I Solisti Veneti, a widely-acclaimed Italian string ensemble; performances by the Longwood Players of George Axelrod's "Goodbye Charlie," Lars Forssell's "The Sunday Promenade," Eugene Ionesco's "Exit the King," John Osborne's "Look Back in Anger," and Moliere's "Tartuffe." Also appearing on the campus were eleven speakers sponsored by the Visiting Scholar Program: Faubion Bowers, Robert J. Havighurst, Alexander V. Riasanovsky, Jeanne Chall, Rudolph Arnhem, Donald C. Bryant, Thomas F. Pettigrew, Carl E. Schorske, Joseph C. Sloane, Will Herberg, and Garrett Birkhoff. The Institute of Southern Culture sponsored lectures by Milton B. Newton, Jr., Louis DeVorsey, and James S. Fisher.

INSTITUTE OF SOUTHERN CULTURE

The Institute of Southern Culture was established at Longwood College in 1956 to promote the study of the South through academic course work, special lectures, and through the publication of research in the field. The

Institute is currently sponsoring a series of lectures throughout the year by visiting scholars and members of the faculty. Course work in several departments of the College also provides a means for exchange of ideas about various aspects of Southern life. Financial support for the Institute is provided by the Longwood College Alumnae Association.

ACADEMIC AND PROFESSIONAL LIFE

The academic and professional life of the College constitutes the main emphasis to which all other activities are secondary and contributory. It centers around the courses of instruction offered in the various departments of the College. Some courses are primarily cultural, liberal, and broadening in outlook. Others are primarily professional and are designed specifically to prepare students for teaching in elementary and secondary schools or for other vocations. In still others academic scholarship and the professional spirit are very closely combined. The major part of this catalogue is concerned with the factual details of the various curricula of the College.

SOCIAL REGULATIONS

Students are expected to conduct themselves with propriety while on the campus, in the community, and at other colleges. They must keep in mind at all times that they are representatives of the College and that their conduct brings credit or discredit to the College as well as to themselves. Any questionable conduct will be dealt with by the Student Government.

Seniors, juniors, and a few selected sophomores may have cars on campus, but other boarding students are not permitted to keep cars at the College or in Farmville during the college session without specific authorization from the committee on student cars.

Complete information regarding all social regulations is given in the **Student Handbook** which is sent to every new student at the end of the summer preceding the opening of the new session.

ORGANIZATIONS

Numerous student groups on the campus assure a well-rounded program of activity for each student as well as the opportunity for student participation in the affairs of the College.

Student Government Association

The **Student Government Association** of Longwood College is a three-branch body consisting of the Legislative Board, the Judicial Board, and the Residence Board. Each branch carries out its duties through members elected directly by the student body in campus-wide elections. These three branches functioning together form a vital structure through which student opinion can be channeled.

The **Legislative Board** oversees all phases of student life. Its representatives make student regulations and discuss key problems involving the overall

welfare of the student body. Through its thirteen standing committees, it strives to generate awareness of campus activities, to utilize student opinion, and to act as a liaison among the students, faculty, and administration.

The **Judicial Board** enforces the regulations made by Legislative Board and strives to instill the meaning of the Honor Code in the minds of the students of Longwood College. Its members work with the students both openly and confidentially in their concern for the individual and her welfare.

The **Residence Board** strives to stimulate within the student body refinement in dress and conduct and to promote and enforce favorable study conditions on the campus. The work of the Residence Board is done by the Officers and by the Dormitory Presidents elected from each dormitory. Dormitory Councils in each dormitory function under and work with the Residence Board. The purpose of Residence Board is to make and enforce the dormitory, dining hall, and fire regulations, as well as the social rules.

The underlying principles of conduct and relationship of the students, faculty members and administrative officials are embodied in the Honor System, a cherished tradition of the College. The way of life on the campus is based on the Honor Code.

The Honor Code

The Honor code serves as a practical example of a truly democratic form of student life and self-government. Students make the rules and violators are tried by a jury of their peers. Because they appreciate the importance and convenience of their agreement to trust one another, they also recognize the need to control the few among them who are either unable or unwilling to accept the responsibilities of their mutual trust. A dishonorable act is a betrayal of the whole student body and is regarded as such. It is an Honor Code offense to lie, to cheat, or to steal in any and all academic and property matters. Lying before the Judicial Board or Residence Board or a member thereof in any manner during an investigation or trial is an Honor Code offense. Falsification of records with the intent to give untrue information is also a breach of the Honor Code.

Young Women's Christian Association

The YWCA in the College is a branch of the national YWCA. The administrative direction is in the hands of the students, assisted by an adviser. It promotes a number of religious activities. Leaders are brought to the campus by the Association to discuss with students questions of religious interest and to help individuals with personal religious problems. The organization through its committees welcomes new students individually. It likewise provides informal entertainment for other groups of students from time to time during the year.

Athletic Association

All students have the opportunity to participate in the varied program of the Athletic Association. Every dormitory and sorority has a team which competes in field hockey, volleyball, basketball, and softball, with a trophy

given to the winning team. Individual sports such as tennis, badminton, ping pong, pool, bowling and archery are open to anyone who wishes to compete on the intramural level.

After the intramural competition, teams compete for class championships with points toward the class cup. Immediately following class competition, sister classes play each other for the color cup.

For the students who wish to participate on a higher level, the Athletic Association supports the following intercollegiate teams: Field hockey, swimming, basketball, gymnastics, fencing, tennis, archery, lacrosse, and golf.

Honorary and Professional Societies

There are a number of honorary and professional societies which recognize excellence in various fields.

The principal honorary organization on campus is **Geist**. Established in 1966, Geist recognizes young women in their junior and senior years who have compiled outstanding records in leadership, scholarship and service to the college community. The members of Geist continue to serve Longwood College by sponsoring the highly successful **Oktoberfest** weekend in the fall, various bloodmobile drives throughout the year, and by awarding the Elizabeth B. Jackson Scholarship to an outstanding student in the spring.

Alpha Lambda Delta is a national society for women which honors high scholastic achievement in the freshman year. The local chapter was installed in the fall of 1966. To be eligible a freshman must have a 3.5 average at the end of her first semester, or a cumulative 3.5 at the end of her freshman year. The purpose of the organization, as stated in the constitution, is "to promote intelligent living and a high standard of learning, and to encourage superior attainment among freshman women in institutions of higher learning."

Kappa Delta Pi is a national honor society for students interested in the activities of the teaching profession. Its membership is limited to juniors and seniors whose scholastic records place them in the upper fifth of the student body. Organized in 1918 as a local honor society, it affiliated with the national group ten years later. Outstanding students in languages are invited to join **Lambda Iota Tau**, an international literature society; and students with good records in history and social sciences are admitted to **Pi Gamma Mu**, a national honorary social science society. **Alpha Psi Omega**, a national dramatics organization, recognizes outstanding dramatic achievement. Editors, business managers, and others in key positions on the student publications, are eligible for membership in **Pi Delta Epsilon**, a national honorary journalism fraternity. The local chapter was organized in 1950. **Pi Omega Pi**, the national Business Education fraternity, is a member of the Association of College Honor Societies. The membership is limited to business majors in teacher education. **Sigma Alpha Iota** is a national professional music fraternity for women. **Lychnos Society** is a local honorary organization in science and mathematics. **Delta Psi Kappa**, a national professional physical education fraternity for women, recognizes and encourages scholastic achievement and professional ethics. **Kappa Omicron Phi**, an honor society in home economics, was organized in 1960. **Honors Council**, composed of representatives from the twelve academic honor societies, seeks to further the academic

atmosphere of the campus, provide an incentive for academic achievement, recognize those students who have achieved academic excellence, and coordinate the activities of the honor societies. The Council is composed of the president and a junior representative from each of the societies.

OTHER STUDENT ORGANIZATIONS

Longwood has many organizations intended to bring together students having common interests. A unique organization is the **Granddaughters Club**, composed of students whose mothers or grandmothers attended the College. Other student clubs include the following:

Les Francophiles, **Deutscher Klub-Edelweiss**, and **El Club Espanol** are clubs for which all modern language students are eligible. The programs of the regular monthly meetings, which are given in the foreign languages, consist of songs, skits, games, current events, and short talks on cultural subjects.

Philakalia endeavors to encourage interest in Art among Longwood students. Various exhibits and programs sponsored by this Art Department organization stimulate an appreciation of art not only among students majoring in Art, but also among the members of the entire student body.

Phi Beta Lambda is the national college organization of the Future Business Leaders of America for prospective business teachers and leaders in the field. Participation in this organization is of great help to Longwood students who will teach business subjects and serve as advisers to this or to similar types of co-curricular activities.

The Home Economics Club strives to develop a better understanding of home economics and its contribution to personal and family living. Membership is open to all students enrolled in the home economics major. The club is affiliated with the state Home Economics Association.

Church groups for College students are represented by the following:

Baptist Student Union (Baptist)

The Canterbury Association (Episcopalian)

Gamma Delta (Lutheran)

Newman Club (Catholic)

Longwood Christian Fellowship (Methodist)

Westminister Fellowship (Presbyterian)

In addition to these organizations eleven national sororities have chapters on the campus. They are Alpha Delta Pi, Alpha Gamma Delta, Alpha Phi, Alpha Sigma Alpha, Alpha Sigma Tau, Delta Zeta, Kappa Delta, Phi Mu, Sigma Kappa, Sigma Sigma Sigma and Zeta Tau Alpha.

The **H₂O Club** is a synchronized swimming group open to all students who have earned an American Red Cross Senior Life Saving Certificate and who have served an apprenticeship of at least one year in the club's subsidiary organization, the **Corkettes**. Members of the **Corkettes** are selected at an annual tryout on the basis of their swimming ability and aquatic grace. Students may become members of **Corkettes** without holding a Senior Life Saving Certificate.

The primary purpose of the **H₂O Club** and **Corkettes** is to present the annual synchronized water show. Each show is completely original, the

numbers having been composed by selected members of the group; thus participation in the water show develops aquatic creativity as well as skill among the membership. The stimulation of interest in swimming at Longwood is the unifying purpose of all **H₂O Club** activities.

Students interested in modern dance may join **Orchesis**, an organization which promotes understanding of creative dance among members of the Longwood College community. Members of Orchesis learn the pleasure derived from the creation and performance of tasteful, artistic dance compositions. The culmination of their efforts is the annual Orchesis dance concert held in May, which is a highlight of the college year.

The Longwood Players is a group open to all students interested in drama as a performing art. Any student may register for an apprentice period. At the end of this time the students who have shown an active interest in any phase of the drama will be elected to full membership. Four full-length plays are presented each session. Twice during the school year the Players presents a series of one-act plays and at least one speech assembly is presented to the student body. If the student works with the club's director and the other club members, she will find the **Longwood Players** an organization worthy of her time and effort. The club aims to provide the best in dramatic entertainment for the College students and the people of the community.

Music Educators National Conference is a student branch of the National Professional Organization of Music Educators. It is composed of music education majors who discuss and attempt to promote professional methods in the teaching field. Other music organizations of the College are the **College Choir**, **Madrigal Singers**, and **Choral Club**. These are important factors in the life of the College. They select their members through tryouts at the beginning of the session and give several concerts each year.

The Student Education Association is a national organization of prospective teachers enrolled in colleges and universities. The J. L. Jarman Chapter was organized at Longwood College in 1939. It is affiliated with the Virginia Education Association and the National Education Association. Its purpose is to foster professional interest in the field of education.

The Colleagues comprise a group of sophomores whose sole purpose is to make the initial contact with college life as warm and pleasant an experience as possible. They help the freshmen through orientation and enable them to meet many new friends. They sponsor five events for them: a sing, a movie, the capping ceremony, a concert, and a banquet. But, best of all, they convey to them that special spirit of friendliness that is one of the most cherished traditions at Longwood College.

Publications

The students of the College sponsor four publications: **The Rotunda**, **The Gyre**, **The Virginian**, and **The Student Handbook**.

The Rotunda is the College newspaper which keeps the students and faculty informed of events and the interests of the College as observed from the point of view of the students. It not only expresses the attitude of the students toward various phases of College life and current activities, but also exerts an important influence in the development of the ideals of the College community.

The Gyre is a literary magazine to which students contribute essays, poetry, short stories, and other writings, as well as art work. It sponsors contests, from time to time, to stimulate literary effort.

The Virginian is the yearbook of the College. Students are responsible for the art work, the editing, and the management of the publication. Each issue represents a cross section of College life for the year. It is, therefore, highly valued by the members of the graduating class.

The Student Handbook is the manual of rules and regulations governing the conduct of the students. In addition, it contains the constitutions and by-laws of the Student Government Association, the Young Women's Christian Association, and the Athletic Association, shorter descriptions of other organizations, and a description of the customs and traditions of the College. It serves as the orientation textbook for all new students.

non-Virginia students, there will be an additional charge of \$30.00 per course. Graduate students registering for thesis work will pay a fee of \$150.00. This amount is to be paid only once.

Student Teaching

Virginia students while enrolled in student teaching will be charged \$100.00 which is one-half of the semester's tuition.

Non-Virginia students while enrolled in student teaching will be charged \$187.50, which is one-half of the semester's tuition.

Students who do student teaching in nearby schools and are campus boarders will also be charged a pro-rata amount for room, board, laundry, post office rent, and activities fee.

Day students who do student teaching in nearby schools will also be charged a pro-rata amount for the college activity fee.

A \$50 student teaching deposit is required of all students enrolled in the student teaching program who are not required to pay the room reservation fee. This fee is refundable.

Application and Room Reservation Fees

An advance registration fee of \$10.00 is required of **all** undergraduate students (both day and boarding). For new students, this payment must accompany the preliminary application for admission; for upperclass students, the payment must be made at the Business Office before April 15 by those planning to return to College during the following session. This fee is not refundable. For former students, an additional advance payment of \$50.00 will be required in order to hold the room reservation, which payment must be made by April 15. New students are required to pay the room reservation fee of \$50.00. The date this payment is due will be indicated in the admission letter. The room reservation fee will be credited to the student's account when registration is completed in September. This payment of \$50.00 is not refunded except for personal illness certified by a physician or with the approval of the President for unavoidable emergency or for students who do not have the required quality point rating by the end of the session.

Course Changes

All changes made by students in class schedules after registration must be approved by the student's faculty adviser and by the Registrar.

Any course change requested by a student after registration, whether it be an addition, a section change, or a drop, will require the payment of a course change fee of \$5.00 plus \$2.00 per change.

Exceptions to the above course change fee are as follows:

1. Upon presentation to the Registrar a signed statement from the College Physician testifying as to the necessity for a change in schedule for reasons of health.
2. When the course change is necessitated by a mechanical or human error in the process of registration.

3. When the course change is made for the convenience of the college.
4. When the course change is made prior to the Registrar's published deadline.

No student is permitted to enroll in a course for credit later than one week after classes begin in any semester. Any student who withdraws from or "drops" a course after six weeks from the date classes begin in any semester will receive a grade of "F" in the course unless the withdrawal is due to the advice of the College Physician or to the withdrawal of the student from college.

No credit is allowed for any course taken for which the student has not registered and which is not listed on the approved schedule of classes filed in the Registrar's Office.

Gymnasium Suits

All freshmen, and all transfer students who do not have credit for all required courses in health and physical education, must purchase an official gymnasium outfit of two suits. The charge for these is approximately \$20.00. Order blanks are sent to students after they have been accepted for admission.

Diploma Fee

A fee of \$10.00 will be charged for a Bachelor's diploma and \$10.00 for a Master's diploma.

Special Examination Fee

A charge of \$5.00 is made for each deferred examination and for the one re-examination permitted each senior.

Automobile Registration Fee

Only seniors, juniors, and a few selected sophomores will be permitted to have cars on campus. Cars must be registered with the campus police who will issue parking permits. A charge of \$5.00 will be made for each registration decal.

Transcript Fee

One copy of a transcript will be provided without charge. Additional transcripts will be provided for a fee of \$2.00 for the first copy and \$.50 for each additional copy requested at the same time.

Method of Payment

All tuition and fees are payable by the semester, on or before registration. Students are not allowed to register for any semester at the College until all previously incurred college expenses have been paid or adequately

secured. **No credit for college work may be given to any student for a diploma, a teacher's certificate, or for transfer purposes until all financial obligations to the College, other than student loans, have been paid.**

Refunds

The following charges and refunds will be made to students withdrawing from college:

Fees. A student withdrawing from the College within ten days after registering will have refunded all fees paid less \$75.00, plus a daily prorated charge for the comprehensive fee covering the actual time in residence. This amount not refunded includes \$15.00 for registration, \$10.00 application fee, and \$50.00 room rent. **A student withdrawing from the College after the first ten days will be refunded only the daily prorated amount for the unused board fee.**

Exceptions. Refunds will be made at the discretion of the President of the College to students whose connection with the College terminates on account of personal illness, certified by the College Physician, unavoidable emergency, or whose connection with the College terminates on account of disciplinary action or enforced withdrawal.

Guests

Students entertaining guests in the College dining hall are charged the following rates, tax included: Breakfast, \$.85, lunch, \$1.05, dinner, \$1.25.

Former students of the College are always welcome, and are not charged for meals for a period not exceeding two days, with the exception of two week ends. On the week ends of **Oktoberfest** and **May Day**, guests, including alumnae, are charged for meals at the rate stated above.

Students are not permitted to invite guests for week end visits unless the invitation is approved by the Head Resident. Meals for guests, other than alumnae, are charged at the rate stated above. Meal tickets may be secured from the Information Office.

FINANCIAL ASSISTANCE

Longwood College offers three types of financial assistance to students in need of such aid: Part time employment, scholarships, and loans. The College is pledged to a non-discriminatory policy of awarding aid without regard to race, religion or national origin. Application should be made to the Director of Financial Aid.

Scholarships for Undergraduates: Academic Excellence for Entering Freshmen. A restricted number of undergraduate scholarships for academic excellence are available to entering freshmen. Application should be made to the Dean of the College.

The following paragraphs contain a brief summary of the financial assistance available to Longwood students. Due to the complexities of these programs, we cannot offer total information on any one of these programs

listed below. If more information is required, please address inquiries to: Financial Aid Office, Longwood College, Farmville, Virginia, 23901.

State Teachers Scholarship — Candidates must be residents of Virginia who are preparing to teach in the Virginia Public Schools. The candidate for this scholarship must possess good scholastic ability as indicated by above average rank in her graduating class and by above average scores on the standardized scholastic aptitude or achievement test. Renewals are based on an accumulative average of 2.00 (C). Scholarships are in the amount of \$350 per session.

Students approved for this scholarship must sign and execute a promissory note to the Commonwealth of Virginia for the amount of the scholarship aid received, which obligation shall bear interest at the rate of 6% per annum. The note must be endorsed by a responsible adult who is a Virginia resident. Each note plus interest can be cancelled in full by teaching under contract one full school year in the public schools of Virginia immediately following graduation from college.

Applications for the State Teachers Scholarship are available from the Director of Financial Aid, Longwood College, after February 1. Applications must be completed and returned to the Financial Aid Office by April 15 in order that they may be approved and sent to the State Department of Education by May 1. It is awarded on a yearly basis.

Students applying for the following types of aid must submit an application for Financial Assistance. This form may be obtained by writing to the Director of Financial Aid, Longwood College, Farmville, Virginia, 23901. Applications for aid are not available until January 1. All completed applications for financial assistance should be returned to the Financial Aid Office by April 1 for summer and May 1 for the regular academic year.

National Defense Student Loans — New students applying for this aid must possess good scholastic ability as indicated by above average rank in her graduating class and by above average on standardized tests. Former students must have an accumulative average of 2.00 (C).

College Work Study Program and Federal Work Study Program — Students are employed in the dining hall, library, and in various offices of the college. Each student is employed for a maximum of twelve hours per week and is paid on an hourly basis. In order to hold a part-time position, a student must maintain an accumulative average of 2.00. Students may earn from \$200 to \$600 each session under this program.

Educational Opportunity Grants — A program of awards to a limited number of students with unusual financial need and who show some exceptional academic or creative promise. Awards under this program are not repayable and are made to students meeting the qualifications outlined by the Federal Government.

General Undergraduate Scholarships — The Legislature of Virginia has made available a limited amount of money for gift scholarships to needy students of good academic ability. The recipient must be a legal resident of Virginia and must be in need of funds for her education. The candidate for this scholarship must possess good scholastic ability as indicated by above average rank in her graduating class and by above average scores on the standardized scholastic aptitude or achievement test.

Longwood College Loans — Longwood College has a limited amount of money that may be used for direct loans to students. These loans are not to exceed \$350 for any one session. The interest rate is 3% and begins on the date that the note is signed. Repayment of principal together with interest shall be made in equal quarterly installments of \$45. The funds involved in the Longwood College loans are:

The Jennie Masters Tabb Memorial Fund. The alumnae and friends of Jennie Masters Tabb, Registrar of the College and secretary to the President from 1904-1934, established in 1945 a loan fund in her memory.

The Mary White Cox Memorial Loan Fund. Established in 1945 as a memorial to Miss Mary White Cox by a gift from an alumna of the College.

The J. L. Jarman Loan Fund. The Norfolk Chapter of the Alumnae Association established in 1942 a loan fund in honor of Dr. J. L. Jarman.

The Carrie Fowles Memorial Loan Fund. Established in 1945 by the will of Mrs. Lula Bradshaw Turpin in memory of Carrie Fowles, who was a student at the college in 1899.

The Robert Frazer Memorial (The Virginia Normal League) Loan Fund. The Virginia Normal League, organized by Dr. Robert Frazer in 1899 as a means of establishing a student loan fund, has been changed in name to the Robert Frazer Memorial Loan Fund.

The Cunningham Memorial Loan Fund. The alumnae of the college who were graduated during the administration of Dr. John A. Cunningham, from 1886 to 1896, raised a fund, intending to establish a scholarship in memory of his faithful and loving service to them and to the State, feeling that the most fitting tribute that could be paid to him would be the effort to give those who are unable to obtain it for themselves the training for the work to which he devoted his life. When this fund amounted to \$1,000 it was changed from a scholarship to a loan fund.

The Fay Byrd Johnson Memorial Loan Fund. Established in 1946 by the Zeta Tau Sorority.

The Alpha Phi Sigma Loan Fund. Established in 1931 by the Alpha Phi Sigma Sorority.

The Alpha Sigma Alpha Loan Fund. Established by the Alpha Sigma Alpha Sorority on March 6, 1937.

The Alpha Sigma Tau Loan Fund. Established by the Alpha Sigma Tau Sorority on March 6, 1942.

The Tri-Sigma Loan Fund. Established by Sigma Sigma Sigma Sorority at the Golden Anniversary of the college in March 1934.

The Zeta Tau Alpha Loan Fund. Zeta Tau Alpha, which was founded at the college in 1898, has established a student loan fund honoring the memory of one of its founders, Maude Jones Horner. The fund is used to aid deserving seniors.

The Longwood Players Loan Fund. Established by the Dramatics Club in March 1940.

Additional Scholarships and Loan Funds include:

The Elizabeth Burger Jackson Scholarship. Established by Geist in 1967 in appreciation of Dr. Elizabeth B. Jackson, Professor of Natural Sciences at Longwood College, for her continuing interest in student organizations in general and Geist in particular. This scholarship is presented each May to an outstanding sophomore or junior who has rendered dynamic service to the College, and who has exemplified qualities of character and integrity in all her academic and personal endeavors.

The Dabney Stewart Lancaster Scholarship. Established in 1955 by the Student Government Association, this scholarship is awarded to a member of the sophomore, junior or senior class, who has acquired the spirit of Longwood and is a worthy example of educated womanhood. The name of the winner of the award is announced at Honors Assembly in May.

The Delta Kappa Gamma Scholarship. Awarded each year to a graduate of Cumberland, Buckingham or Prince Edward County who will be attending Longwood College, the award is based on both merit and need.

The Mary Clay Hiner Scholarship. Established in 1962 by a gift of Mrs. Earl Crafts. An appropriate official of the College will select each year the student or students who will receive financial assistance. Application should be made to the Department of English.

The Eureka Ashburn Oliver Scholarship. The Mrs. Samuel C. Oliver (Eureka Ashburn, 1891-1893) scholarship of \$100 each year for four years awarded to lineal descendants. If there should be no lineal descendant, then the scholarship is to be given to a student of outstanding ability who needs financial assistance from Nansemond County, selected at the discretion of the Admissions Committee of the College. When there are no applicants, the funds shall accumulate until there are applicants from her lineal descendants or from Nansemond County.

The Gamma Theta-Kappa Delta Alumnae Scholarship. In 1949, the Gamma Theta local sorority (1911-1949) became the reactivated Alpha chapter of Kappa Delta Sorority. This scholarship is awarded annually to a student on the basis of academic achievement and financial need. The stipend is one \$200 and one \$150 award annually.

The Kappa Delta Founder's Scholarship. Established in 1968, the Kappa Delta Founder's Scholarship is awarded annually to an initiated member of a National Panhellenic Conference sorority with a chapter located on the Longwood College campus. Selection is based on academic achievement, financial need and service to the College and to the applicant's sorority. The amount of the scholarship is \$250. Application should be made to the Director of Financial Aid.

The John P. Wynne Scholarship. Established in 1964, this scholarship is awarded annually to a member of the junior class and the Student Education Association for use during the senior year. Selection is based on academic excellence and financial need. Applications should be made to the Executive Board of the Association.

The Alumnae Scholarships. The following alumnae chapters give scholarships to outstanding graduates of high schools in their respective communities: Farmville (Mary White Cox Memorial Scholarship), Lynchburg (Letty Laughon Scholarship), Norfolk, Peninsula (J. L. Jarman Scholarship), Petersburg, Richmond, and Roanoke. Write to the president of the local alumnae chapter, found in the back of the catalogue.

The Lions Club Scholarship. The Farmville Lions Club offers annually two scholarships of \$150 each to be awarded to a boy or a girl from Prince Edward County or vicinity. The main factor in choosing between acceptable applicants shall be financial need. All other factors being equal, preference shall be given to applicants for Hampden-Sydney College and Longwood College. The scholarships are renewable.

The Worthy Johnson Crafts Scholarship. Established in 1964 by a gift of Dr. Earl Crafts in honor of his wife, Mrs. Worthy Johnson Crafts, first teacher of home economics and founder of the first department in this field at Longwood College. Proceeds from this gift provide a scholarship for a student or students in home economics. Application should be made to the Department of Home Economics.

The Alice Curry Wynne Scholarship. Established in 1968 by Dr. John P. Wynne and alumnae, this scholarship is awarded annually to a student majoring in business education. Selection is made by the Longwood College Chapter of Phi Beta Lambda.

The Olive T. Iler Award. Established in 1967, the award is presented to a junior majoring in physical education who has demonstrated outstanding personal qualities, high ideals, good scholarship, and professional ethics.

The Edith Stevens Scholarship. Established in 1968, this scholarship is awarded annually to an outstanding junior biology major in memory of Edith Stevens, Associate Professor of Biology at Longwood College from 1925 to 1945.

Helen Draper Scholarship. From \$25 to \$100 is awarded each year to a rising senior who is going to do student teaching and is a member of the French Club. This scholarship must be used to study abroad during the

summer. Application should be made to the French Club president.

Emily Barksdale Scholarship. From \$25 to \$100 is awarded by the Longwood Spanish Club. This scholarship is given to a sophomore, junior or senior who is a Spanish major or pursuing advanced work in Spanish. This scholarship may be used for study at Longwood, study abroad or attending the graduate school of her choice. Application should be made to the Spanish Club adviser prior to March 15.

The Prince Edward Chapter Alumnae Loan Fund. This fund was started as a branch of the Virginia Normal League. Loans are interest free. Applications for loans should be made to Mrs. W. J. Sydnor, Farmville, Virginia.

The Methodist Student Loan. Available to qualified Methodist students registered and in attendance at the institution of her choice. Interest is one per cent (1%) during school attendance, and three percent (3%) thereafter. Repayment period limited to six years. Application should be made to the Director, Wesley Foundation, Farmville, Virginia.

The United Daughters of the Confederacy Loan Fund. The Virginia Division of the United Daughters of the Confederacy has established the Kate Noland Garnett Loan Fund. This loan amounts to \$150 and is granted to a sophomore, junior or senior who is a lineal descendant of a Confederate soldier. Applications should be directed to Mrs. J. J. Robbins, Virginia Division Chairman of Education, United Daughters of the Confederacy, Route 2, Hot Springs, Virginia.

The Daughters of the American Revolution Loan Fund. The Daughters of the American Revolution have established a student loan fund for the aid of worthy students in Virginia colleges. Not more than \$300 is available for any one institution, and no student may borrow more than a total of \$300 or more than \$150 in one session. This loan is available only to juniors and seniors.

The Daughters of The American Revolution Loan Fund. Thomas Nelson Chapter Arlington, Virginia. A revolving loan fund of \$100, without interest, has been made available by the Chapter. Preference will be given to applicants from the Arlington area of Virginia.

The R. C. Simonini Memorial Scholarship. Established in 1968 by the Virginia Association of Teachers of English, this work scholarship is awarded annually to an English major selected by a committee from the English Department faculty. The holder of this renewable scholarship will receive up to \$300 a session for a part-time secretarial work program for the Virginia Association of Teachers in the office of its executive secretary at Longwood.

Fred O. Wygal Scholarship. Each year the freshman class awards from \$25 to \$100 to a member of the freshman class who has participated in extra curricular activities and has attained a 2.0 average with consideration given to need.

Applications should be obtained from the freshman class president and submitted prior to March 15. The recipient will be announced in the Honors Assembly.

The Tuition Plan, Incorporated. For those parents who wish to pay for college costs in installments, the college offers the services of The Tuition Plan, Inc. Parents who apply may have The Tuition Plan, Inc. send to the college those fees which are due to the school, and monthly payments may be made to the Tuition Plan. All parents may apply for at least a one-year contract, and most parents may apply for a two-year, or a four-year contract, if they desire.

Not a financial aid program, The Tuition Plan is particularly desirable for parents for whom installment payments are more practical. Money is available from the Tuition Plan only for those expenses for which the student is billed by the college.

A descriptive brochure on the program may be secured from The Tuition Plan, Inc., 575 Madison Avenue, New York, New York 10022.

Academic Regulations

Summarized in this section are important regulations related to the academic work of the College. **Students should be familiar with these regulations as they undertake their studies in this institution.**

COURSE NUMBERS

The courses listed in this catalogue that are numbered between 100 and 199 are designed primarily for first-year students; those between 200 and 299 are for second-year students; those between 300 and 399 are for third-year students; and those between 400 and 499 are for fourth-year students. Undergraduate Honors Courses are numbered 498 and 499. Courses numbered from 501 to 599 are for graduate students and advanced undergraduates.

Students are not permitted to enroll in courses that are more than one year above or below their classifications, except with the permission of the Dean of the College.

CREDITS

The College is organized on the semester plan. The credit hour, abbreviated as "credit," is the semester hour.

STUDENT LOAD

The average schedule of a student during a semester includes classes giving from fifteen through seventeen credits. Boarding and regular students are required to carry a class load giving a minimum of twelve credits. A student may carry as many as eighteen credits without special permission. A schedule beyond that amount requires special permission from the Dean of the College. Such permission is rarely granted to a student whose academic average for the preceding semester is less than "B."

COURSE CHANGES

All changes made by students in their class schedules after registration must be approved by the student's faculty adviser and by the Registrar.

No student is permitted to enroll in a course for credit later than one week after classes begin in any semester. Any student who withdraws from or "drops" a course after six weeks from the date that classes begin in any semester will receive a grade of "F" in the course unless the withdrawal is due to advice of the College Physician or to the withdrawal of the student from college, in which case a grade of "W" is given. Any student who withdraws from a block course after two weeks from the beginning date of the block will receive an "F" in that course unless the stipulations stated in the last sentence apply.

No credit is allowed for any course taken for which the student has not registered and which is not listed on the approved schedule of classes filed in the Registrar's office.

ADJUSTMENTS IN CURRICULUM REQUIREMENTS

The College recognizes that the prior achievement of the students whom it admits varies greatly in the subject matter fields. For example, some are much more proficient in a subject such as English composition than are others. As a result, any requirement that all students must enroll in identical basic courses in the freshman or later years usually results in heterogeneous classes in which the well-prepared student is not challenged or the student with the usual preparation is confronted with exceedingly difficult tasks.

Because of these differences in prior achievement, the College offers every student an opportunity to demonstrate her achievement in a required subject prior to enrolling in it. This may be done by the use of an oral or written examination, or a conference, at the discretion of the department involved. At times, this evaluation may be made after the student has been enrolled in a course for one semester. Unusual proficiency demonstrated in the first semester of a two semester course may indicate that the student should not continue in the same course but enroll in one of a more advanced nature.

In any case wherein the student is found to have a satisfactory knowledge of a subject prior to enrolling in it, or after completing a part of her study in it, the chairman of the department in which the subject is taught will notify the Registrar. In such a notification, he will state that the student is excused from taking the subject and will indicate the subject or course that may be taken in its stead. This may be an advanced course in the same subject or an elective course in any field, chosen with the advice of the chairman.

The student is not granted college credit for prior achievement. However, recognition of such achievement enables her to plan a program of study that is challenging and in accord with her individual needs.

ADVANCED PLACEMENT

Longwood College offers advanced placement with college credit to superior students in the fields of English composition, literature, European history, American history, French, Spanish, biology, chemistry, physics and mathematics. Advanced Placement examinations are given by the COLLEGE ENTRANCE EXAMINATION BOARD. **It should be noted that these are different from the usual College entrance examinations given by the same board.** This Board makes available each year in May at regular examination centers, advanced placement examinations in several fields. **Any student whose performance on these tests is satisfactory will be allowed to skip the beginning course in the particular field and obtain the semester hours of credit which that course carries toward the bachelor's degree.** For example, if the student takes the advanced placement examination in American history and makes a satisfactory score, that student will not be required to take the beginning course in American history, and she will be granted credit toward her degree on the basis of the examination. The examinations are administered by the Educational Testing Service. Detailed information on testing dates, examination centers, and all other matters relating to the administration of the examinations, is available without cost in the bulletin of

information entitled "Advanced Placement Examinations." This bulletin may be obtained by writing to: College Board Advanced Placement Examinations, Box 592, Princeton, New Jersey.

Examinations for advanced placement in other departments are administered by the Longwood College faculty of the department concerned by appointment.

CLASS ATTENDANCE

The College has no uniform system of class absences. The loss incurred by a student for absences depends upon the nature and the amount of work missed, of which the instructor is the sole judge.

A student is expected to attend all classes. This applies to days prior to and after vacations scheduled in the college catalogue. The student assumes full responsibility for the loss she incurs because of absence. An instructor may require an explanation of any or all absences from his class. He will judge the validity of these explanations and will decide whether or not they justify permission for the student to make up the work missed.

The only exceptions to the above are the cases: (1) of a student's absence because of illness or (2) of a student's participation in a college activity approved by the Dean. Instructors are asked uniformly to permit students to make up work missed when the absence results from either of these causes. A weekly list of excused absences is circulated to all department chairmen.

No credit will be given for any course in which a student fails to attend at least two-thirds of the class meetings, even though her absences are due to illness or emergency.

Full information regarding class attendance and absences is given in **The Student Handbook** which is sent to every student during the summer months.

GRADES:

The achievement of a student in a course is indicated by the grade that she receives. The significance of these marks is indicated below:

A: Superior or excellent college work

B: Above average college work

C: Average college work

D: Below average but passing college work

F: Failure

I: This grade indicates that because of illness or for other good reasons the work of the semester has not been completed. When this work has been completed acceptably, a final grade will be reported. A grade of "Incomplete" will revert automatically to a grade of "F" after one semester if the necessary make-up work has not been completed.

W: This symbol indicates that a student withdrew from a course. It is used in cases of students dropping courses after the six-week period at the beginning of a semester for medical reasons and for those who withdraw from the College prior to the end of a semester.

The lowest passing grade is "D." However, for a degree a student must earn a general average of "C" (a quality point average of 2.00) on all of her college work. Also she must have a general average of "C" in those courses constituting her major subject or field. At times, it is necessary for a student to repeat certain courses or enroll in additional courses in order to raise her average to these requirements. However, **credit toward graduation will be granted only one time for any course.**

At the end of the first half of each semester of the regular session, mid-semester grade estimates are issued to freshmen and their parents or guardians. Estimates are also issued at this time to upperclassmen who have a grade of "D" or "F" in any course. These are not official grades. Instead, they represent the instructors' estimates of the students' progress up to that point. At the end of each semester, reports are issued to students and their parents or guardians showing the final grade earned in each course in which they are enrolled.

QUALITY CREDITS

The quality of work completed by a student is recognized by the assignment of points to various grades.

| | The Four Point System |
|---------------------|-----------------------|
| For each credit of: | A grade—4 points |
| | B grade—3 points |
| | C grade—2 points |
| | D grade—1 points |
| | F grade—0 points |

Under the "Four Point" system, all grades made on courses will be permanently retained in computing a student's quality point average.

On the basis of this point system, a student's quality point average may be computed by dividing the number of quality points that she has earned by the total number of credits assigned to the courses in which she has been enrolled. **A student's quality point average is based only on work taken at Longwood College.**

SCHOLASTIC ACHIEVEMENT NECESSARY TO REMAIN IN COLLEGE

Academic probation is a state of warning and indicates that the student's academic work is not satisfactory. Students, with the exception of freshmen,

whose cumulative quality point average is below 2.00 at the end of any semester, are placed on academic probation. Freshmen must achieve a quality point average at the end of the first semester of 1.60; at the end of the second semester, 1.80. Academic probation may be removed by increasing the quality of academic performance during the regular session and/or attending summer session at Longwood College.

Students failing to maintain the required quality point average will be automatically dropped:

1. After the first year of residence with a quality point average of less than 1.80.
2. After two or more years of residence with a quality point average of less than 2.00. Students who have been enrolled for course work totalling sixty hours' credit are considered to have two years' residence.

Students who are automatically dropped because of failure to meet the required quality point average may return to Longwood College during the following Summer Session in an effort to remove themselves from academic probation. If, at the end of this Summer Session, a student fails to remove herself from academic probation, she may enroll in the following spring semester and a second Summer Session in an attempt to raise her grade average to the required level. If she is unsuccessful she will be dropped from the rolls permanently. She will not be permitted to enroll in the College during the period between the first Summer Session and the following spring semester.

Students who have enrolled for more than thirty-five hours' credit but less than sixty hours are placed on academic probation if they have a quality point average between 1.80 and 2.00. They are not automatically dropped, however.

Transfer students entering Longwood College must achieve a quality point average of 2.00 on work taken at Longwood in order to be eligible to return the following year.

Students on academic probation may not transfer credit earned at other institutions during the probationary period.

STUDENT TEACHING

All students enrolled in teacher education curricula undertake supervised teaching during their senior year. Each student is assigned to work with a regular teacher in a public school located off the campus. The student teaching period consists of a concentrated block of full-time teaching and observation. This involves a minimum of 175 clock hours of directed teaching and 25 hours of directed observation. Six or eight semester hours of credit are earned in student teaching for the period. No additional work may be taken during the student teaching period.

ADMISSION TO THE PROGRAM OF TEACHER EDUCATION

Initial Interest

A student may, at the time of admission to college, declare an intent to enter a curriculum leading to teacher education and be eligible for a Virginia

State Teaching Scholarship. In addition to the prescribed prerequisites for admission, special consideration to health, scholarship, character, and teaching potentialities is made of the applicant. The Director of Student Teaching serves as a consultant to the Committee on Admissions on all applications of students declaring an intent to pursue a teacher education program. Applicants who possess physical defects or histories of emotional disorders are required to submit to a personal interview at which time a committee passes on each case prior to admission to college. This committee is composed of the Director of Admissions and the Director of Student Teaching.

Final Approval

Admission to the College does not constitute admission to the program of teacher education. Final admission to the teacher education program is given normally during the fifth semester of the student's program or to students that have earned at least sixty semester hours credit. The Committee on Teacher Education serves as the screening committee for admission.

The Committee on Teacher Education consists of six members: The Chairman of the Department of Education, The Director of Student Teaching, two College Supervisors of Student Teaching, and the Chairman of the Department and Departmental consultant in which the student is majoring. The Director of Student Teaching serves as Chairman.

Applications for approval in a teacher education program may be filed after a student has completed at least sixty semester hours credit. The student files an "Application for Acceptance in Teacher Education and Student Teaching." Included in the application form is a formal recommendation signed by the departmental chairman of the student's major.

The Committee on Teacher Education employs the following criteria and procedures in its screening program for final admission:

1. The student must be a senior and shall have completed 90 semester hours of work.
2. The student must present evidence of the satisfactory completion of a broad background in general education.
3. The student must have adequate preparation in her major field or fields of concentration with a cumulative average of "C" on work taken at Longwood College.
4. The student must demonstrate adequate preparation in his professional courses with a minimum grade of "C" on each course or a "C" average. For secondary majors this shall include **Developmental Psychology, Educational Psychology and Principles of Secondary Education**. For elementary majors this shall include **Developmental Psychology, Educational Psychology, Language Arts, Principles of Reading, and Principles of Elementary Education**.
5. The student must possess good health and freedom from physical and emotional handicaps which would prove detrimental to success in teaching.
6. The student shall have demonstrated effective command of communicative skills.
7. The student shall have the recommendation of the departmental

chairman of her major field that she be allowed to pursue a teacher education curriculum.

8. The student may, at the discretion of the committee, be required to submit evidence or pass such tests regarding her physical, emotional or academic proficiency as may be deemed necessary.

Student Appeal

Students denied admission to the teacher education program may submit their appeal to an appeal board consisting of the Dean of the College, the Director of Student Teaching, and the Departmental Chairman of the student's major.

CERTIFICATION REQUIREMENTS

In order to satisfy certification requirements of the Virginia State Board of Education, the student must complete the appropriate student teaching program described below:

1. The elementary major seeking endorsement in Kindergarten and Grades 1, 2 and 3 is required to engage in student teaching for a ten-week period during the Fall Semester of her senior year.
2. The elementary major seeking endorsement in Grades 4, 5, 6 and 7 is required to engage in student teaching for an eight-week period during either the Fall or Spring Semester of her senior year.
3. The student seeking endorsement in a subject area at the high school level is required to engage in student teaching for an eight-week period during either the Fall or Spring Semester of her senior year. A summer student teaching program is also provided for endorsement at this level. This program is open only to degree candidates at Longwood College and is limited with respect to size of enrollment and subject areas.

Longwood College does not recommend a student for certification as a teacher if her grade in student teaching is below "C." Students are reminded that an official designated by the President of the College is required to state in the case of the person taking the State Approved Teacher Preparatory Program that the applicant is "qualified by character and temperament for the teaching profession."

PERSONAL LIABILITY INSURANCE

All sophomores, juniors and seniors in the student teaching program, and all senior social welfare field workers, are required to carry a personal liability insurance policy.

ACADEMIC HONORS

The College recognizes superior scholarship through its Dean's List and the announcement of an honor list at each commencement. The Dean's List is published at the end of each semester. Students whose names appear on it are those who have earned an academic average of 3.50 or above on a minimum

of 12 semester hours of work taken in the semester with no grade below "C." Students eligible for the Dean's List must complete all courses in the semester for which they are registered. A grade of "I" on a student's record prevents consideration of her for his honor.

Those students whose general averages for four years of study are 3.35 or above are graduated with the following honors: 3.35-3.54, "Cum Laude," 3.55-3.74, "Magna Cum Laude," and 3.75-4.00, "Summa Cum Laude." The College also recognizes graduating seniors who have successfully completed an honors program in a specific academic area.

EXAMINATIONS

Written examinations are given during a designated period at the end of each semester to every student enrolled in each course in the College. These are each three hours in length.

Re-examinations are not permitted for freshmen, sophomores, or juniors. A senior student is permitted **one** re-examination during her senior year. This may be in either the first or second semester. A fee of five dollars is assessed for this re-examination. Seniors taking advantage of this option must have the Registrar's permission before the re-examination will be given.

REPETITION OF COURSES

Students may repeat courses in which they have unsatisfactory grades in an effort to raise such grades; however, **credit will be granted only one time for any course**. Both the original and the repeated grade will be retained on the student's permanent record and contribute to the student's average.

TRANSFER OF CREDITS

The College accepts, on transfer, credits of acceptable grades earned in other accredited colleges and universities provided such credits may be applied toward the requirements for a degree in this institution. Grades earned at other institutions will be recorded at Longwood College in terms of semester hours of credit earned if the transfer grade is "C" or better. Transfer credits of a grade quality below "C" are not accepted.

Permission to take off-campus work in other institutions which will be transferred as credit to Longwood College **must be obtained prior to the taking of such work from the Office of the Dean of the College**.

The cumulative quality point average of each student will be calculated on work taken only at Longwood. Transfer credit accepted from other institutions will be used to reduce the number of credits required for graduation but will not enter into the calculation of the quality point average.

Not more than fourteen semester hours of correspondence course credit and not more than thirty semester hours of extension class and correspondence study combined may be credited toward a degree. The College does not accept, on transfer, credits earned through correspondence courses in the natural and physical sciences and certain other subjects. Students must

obtain approval to include in their degree program correspondence and extension courses prior to enrolling in them. Otherwise, the College can assume no responsibility for accepting such credits on transfer.

The College cannot grant a student permission to enroll in a correspondence or extension course until after the student has attended this institution for at least one full summer session or a semester of the regular session.

When a student is enrolled in the College and enrolls also in a correspondence or extension course, the credit to be earned in the course will be counted in the total load of work that she is permitted to carry.

GRADUATION REQUIREMENTS

The College awards the bachelor's degree to a student who has fulfilled the following requirements:

1. Completion of all study required in one of the four degree programs offered

2. Completion of a course of study giving a minimum of 126 semester hours of credit with a minimum general average of "C" in all work taken and a minimum general average of "C" in courses taken in the major subject or field.

3. Successful completion of an English proficiency examination to be taken during the junior year. The nature of the examination will be prescribed by the student's major department, which may permit the student to take an advanced course in English composition in lieu of the proficiency examination. When such a course is taken, the department may require a minimum grade of "C."

4. All students must demonstrate swimming proficiency. Students may either pass the College swimming test, or pass a swimming course to fulfill this requirement.

5. Attendance as a student for at least one session consisting of two semesters*, including the last semester immediately preceding graduation. (One ten-week summer session in which the student carries a full load of courses may be substituted for one semester, but no student can be graduated on the basis of summer work alone.)

6. Not more than fourteen hours by correspondence nor more than thirty hours by correspondence and/or extension.

7. The maximum length of residence within which the requirements for a degree must be met is ten semesters.

8. Approval of the individual by the general faculty as a worthy candidate for graduation.

9. An **Application for Graduation** must be filed with the Registrar at least 60 days prior to the date of graduation.

It is solely the responsibility of the candidate for graduation to meet all of the above requirements, including the completion of 126 semester hours of work.

*The term "semester" for residence purposes normally involves classes giving from fifteen to seventeen credits.

CHANGES IN REQUIREMENTS

Progressive development in the College forces frequent revision of curricula. In every new catalogue some improvements are indicated. When no hardship is imposed on the student because of changes, and when the facilities of the College permit, the student is expected to meet the requirements of the latest catalogue. In this way, the student may realize the benefits of improvements in her curriculum that she would be unable to realize were she to follow the curriculum in effect at the time that she entered the College. If the student finds it impossible to meet the requirements of the latest catalogue, the catalogue for the year in which she entered becomes the binding one in terms of requirements for her graduation, subject to the stipulation in the succeeding paragraph.

Students returning to the College after an interruption of four or more years of their college study are required to conform to the requirements of the latest catalogue.

ENFORCED WITHDRAWAL

The College will suspend or expel any student who fails to meet the standards of the College and the Student Government Association. In such a case, there will be a refund to the student as stated on page 30. No College personnel, including members of the faculty, administration and Student Government Association, shall be held liable for such exclusion.

Programs of Studies

Longwood College awards the Bachelor of Arts, the Bachelor of Science, the Bachelor of Science in Business Education, or the Bachelor of Music Education to successful undergraduate students. **A minimum of 126 semester hours is required for graduation in each of the programs.**

A total of 48 semester hours in General Education is required for each degree. All students must take English 100 and Health Education 100. Some degree of freedom may be exercised by the student in choosing her other 44 hours of General Education requirements. However, students are urged to consult the departmental descriptions of their respective majors to determine specific general education courses that may be prescribed by their department. The five areas which comprise the General Education program are: **Humanities**, 18 semester hours; **Social Sciences**, 12 semester hours; **Natural Sciences**, 8 semester hours; **Mathematics**, 6 semester hours; and **Health and Physical Education**, 4 semester hours.

Certain restrictions are placed upon the courses that may be chosen to satisfy the General Education requirements. The following section describes restrictions that apply to all students. Some of the departments involved in supplying General Education courses may recommend certain of their courses for this requirement. However, the student should remember that these recommendations do not necessarily preclude the choice of another course in which she may have a special interest.

Humanities

1. English composition (English 100), 3 credits, is required.
2. Six credits must be completed in art, music, and/or dramatic arts. All of the hours may be taken in one of these disciplines, or the credits may be split among them. If a student chooses to fulfill this requirement in music, 3 hours must be taken in appreciation, history or literature courses.
3. The remaining 9 hours must be taken in literature, with the exception that 3 of these 9 hours may be in philosophy (except Philosophy 460). The entire 9 hours in this area, or any part thereof, may be in foreign language literature, if it is above the intermediate (121-122) level.

Social Sciences

1. American History (History 221 or 222), 3 credits, is required.
2. Nine hours of work must be completed in at least two of the following areas: Anthropology, Economics, Geography, Government, History and Sociology.

Natural Sciences

1. A four-hour laboratory course in two of the following areas is required: Astronomy, Biology, Chemistry, Geology, Physical Science and Physics.
2. Certain combinations are not recommended because of duplication of content. They are: Astronomy 200 and Science 102; Geology 200 and Science 102; Physics 101 and Science 101; and Chemistry 101 and Science 102.

Mathematics

1. Students majoring in elementary education must take Mathematics 123, 124.
2. Mathematics 111-112, Mathematics 161, 162 or Mathematics 261, 262 are available to majors in all other curricula. Students majoring in mathematics or one of the Natural Sciences must take Mathematics 161, 162 or 261, 262.

Health and Physical Education

1. Health Education 100, 1 credit, is required.
2. Students may complete this requirement by taking 3 credits in any physical education activity course numbered 104 through 115. Since all students are required to demonstrate their proficiency in swimming for graduation, individuals weak in this area should elect beginning swimming as part of their physical education requirement.

Students are urged to consult with their major advisers, their department chairmen, or the Dean of the College before selecting courses to meet these requirements. Students are reminded that they may not select courses that have prerequisites without taking the prerequisites; that they may not take courses designated "for majors only" unless that is their major; and that they may not take courses bearing numbers more than one class above or below their present class standing (see page 37).

Those students preparing to teach will take the sequence of courses in Teacher Education. The specific courses to be completed by all prospective teachers are as follows:

| | |
|----------------------------------|--------------------------------|
| Psychology 251, 256..... | 6 semester hours |
| Education 453, 454, or 455 | 3 semester hours |
| Education 457 | 3 semester hours |
| Philosophy 460 | 3 semester hours |
| Education 400, 401, or 402 | 6 or 8 semester hours |
| Total..... | 21 or 23 semester hours |

Furthermore, the student majoring in elementary education must take the additional courses indicated by the Department of Education, Psychology and Philosophy in the next section of this catalogue.

REQUIREMENTS FOR THE DEGREE OF BACHELOR OF ARTS

This degree is available to students completing a major program in art, biology, chemistry, earth science, economics, English, English and drama, English and speech, French, general science, geography, government, history, Latin, mathematics, music, physics, social science, sociology, Spanish, speech and dramatic arts, or speech pathology.

For those students preparing to teach in one of these areas 12 semester hours in one foreign language must be taken. Other students seeking this degree must take 18 semester hours in one foreign language or 12 semester hours beyond the introductory course and Philosophy 360.

The requirements for a major program vary according to the department being considered. They may be found in the section of the catalogue entitled **Departments of Instruction** and, in outline form, in the section entitled **Course Requirements**.

REQUIREMENTS FOR THE DEGREE OF BACHELOR OF SCIENCE

The Bachelor of Science degree is available to students who complete a major program in art, biology, chemistry, earth science, economics, elementary education, English, English and drama, English and speech, general science, geography, government, history, home economics, mathematics, office administration, physical education, psychology, physics, social science, sociology, speech and dramatic arts, or speech pathology.

There are no additional requirements beyond those in general education and teacher education except as prescribed by the department in which the major program is taken.

Students majoring in psychology must include in their general education program 12 semester hours in a foreign language and 8 semester hours in biology.

The requirements for a major program vary according to the department being considered. They may be found in the section of the catalogue entitled **Departments of Instruction** and, in outline form, in the section entitled **Course Requirements**.

REQUIREMENTS FOR THE DEGREE OF BACHELOR OF SCIENCE IN BUSINESS EDUCATION

This degree is awarded to students completing a major program in this field as described on page 56. The general education and teacher education requirements are the same as those for the Bachelor of Science or the Bachelor of Arts degree.

REQUIREMENTS FOR THE DEGREE OF BACHELOR OF MUSIC EDUCATION

The Bachelor of Music Education degree is awarded to students completing a major program in this field as described on page 97. The general education and teacher education requirements are the same as those for the Bachelor of Science or Bachelor of Arts degree.

COOPERATIVE PROGRAM IN SPEECH PATHOLOGY AND AUDIOLOGY

A Cooperative Program between Longwood College and the University of Virginia has been established to serve an increasing demand for teachers and clinical workers with special training in speech pathology and audiology. The program consists of three years at Longwood and one pre-professional year in speech pathology and audiology at the University. The degree from Longwood College is either a Bachelor of Science or a Bachelor of Arts degree.

Students interested in the program should consult with the chairman of the Department of Speech and Dramatic Arts, Longwood College, or the chairman of the Department of Speech Pathology and Audiology, University of Virginia. An outline of courses is listed in the Department of Speech and Dramatic Arts, on page 108.

PRE-PROFESSIONAL PREPARATION FOR THE MEDICAL SCIENCES

This curriculum prepares students for admission to accredited schools of dentistry, medicine, medical technology, nursing, pharmacy, and physical therapy. Since special requirements of professional schools vary considerably, students should communicate with the professional school they plan to attend prior to registration at Longwood College.

Longwood College offers several programs in cooperation with medical schools in Virginia. Pre-nursing programs at Longwood fulfill the requirements for the first two years in the degree program at the Medical College of Virginia and the University of Virginia. The three-year pre-medical technology program fulfills the baccalaureate requirements in this field and the fourth year of professional training may be taken from the medical schools. If the fourth year in medical technology is completed at the University of Virginia, the student is entitled to a B.S. degree from Longwood College. When the fourth year in medical technology is taken at the Medical College of Virginia, a B.S. degree in Medical Technology is awarded by that institution.

Departments of Instruction

Instruction in the College is offered by the departments described in this section of the catalogue. Included in the description of each department are the requirements for a major therein and the courses which it offers.

Numerous courses in most departments have prerequisites. These will be noted in the descriptions of the courses. Courses with numbers divided by comas, such as 111, 112 are semester courses. This means that the College gives credit toward a degree for the satisfactory completion of one semester of the course even though the student may not enroll in it for the other semester. Courses in which the numbers are hyphenated, such as 111-112 are year courses. In these, the College grants credit toward a degree only upon the successful completion of both semesters of work. There are no exceptions to this regulation.

Honors Courses

The honors program was inaugurated by the College in 1930 to enable capable students to study intensively a subject of their choice, thereby becoming acquainted with methods of research, organization of materials, and the presentation of results in a scholarly manner. Such intensive study stimulates initiative, resourcefulness, and original thought. Students in all departments are eligible to participate in this program. The program is administered by the Honors Committee.

Under this plan, the student is directed in creative research by an instructor who has specialized in the field and who acts as her sponsor. A student interested in honors courses should submit a brief outline describing her projected research to the chairman of the department in which the work is to be done. The project sponsor will present her application together with written permission from the department chairman to the Honors Committee for approval.

With the approval of the Honors Committee, the student may enroll in honors courses numbered 498 and 499 in the department in which the honors work is done (i.e., an honors course in English would be registered as English 498). Three semester hours credit are granted for each course. The sponsor assigns a grade for the work done. Approval of the Honors Committee normally is given in the first semester of the junior year, and the student formally registers for the honors courses in the next two semesters. However, other schedules may be approved.

Upon completion of the research, the student compiles the results in a formal paper. A student earning no less than B in 498 and 499 is eligible to appear before an examining board well qualified to judge the excellence of her work. The Committee, assisted by the sponsor, selects a three-member examining board which conducts an oral examination or such other examination as may be appropriate for the subject, e.g., in art or music. The examinations are approximately one hour in length and are usually scheduled for the second semester of the senior year.

With a favorable recommendation from the examining board, the student graduates with honors in the field in which the work was done.

Should the student elect not to take the oral examination or should she fail to win the board's recommendation for graduation with honors, credit for six semester hours work with the grade assigned by her sponsor will still be given, although without reference to honors.

Course Requirements

Specific requirements for the various courses of study may be found in the following catalogue description of each department and its offerings. Students are urged to familiarize themselves fully with the general degree requirements specified in the section of this catalogue entitled **Programs of Studies**. An outline of the requirements for each major may be found in the section of the catalogue entitled **Course Requirements**.

DEPARTMENT OF ART

Barbara L. Bishop, **Chairman**

Miss Bedford, Miss Flynn, Miss Leitch, Mrs. Lemen, Miss Ross,

Mr. Rouillard, Mr. Springer, Miss Violette

The Department of Art offers courses for General Education and for Art Majors. The curriculum includes all of the major and minor arts and Art History.

A major in Art leading to the Collegiate Professional Certificate for teaching at the secondary level requires the following:

| | |
|---|------------|
| Design 120 | 3 credits |
| Drawing 130..... | 3 credits |
| Printmaking 150..... | 3 credits |
| Ceramics 213..... | 3 credits |

Six additional credits are to be chosen from courses offered in Design, Drawing, Printmaking, Painting, and Art History, making a total of 41 credits. Art Majors in the Liberal Arts program may omit Art 441 in favor of an art elective. It is desirable that majors elect Philosophy 381, *Aesthetics*, as well as courses in Drama and Music.

The following courses are acceptable in General Education: Art 110, 120, 130, 150, 160, 220, 261, 270, 361, 362, 363, 364; all others are also acceptable when prerequisites are met as specified in course descriptions, except Art 341-342, 355, 441, and 491.

Beginning in 1972-73 provision will be made for art education majors to have the option of completing endorsement requirements for ART IN JUNIOR AND SENIOR HIGH SCHOOL or ART IN HIGH SCHOOL AND ELEMENTARY GRADES.

Junior art majors who make less than "C" in English 100 must take English 432, *Advanced Composition*. A grade of "C" must be achieved in English 432.

Junior Art majors are required to present an annual exhibition of work completed at Longwood College.

The Art Department staff reserves the privilege of retaining student work to be used for educational purposes.

Field trips in some lecture and studio classes involve nominal cost for the students. Also, students may be required to furnish all supplies and tools in studio classes. Estimated costs for all classes are on file in the Financial Aid Office.

DEPARTMENT OF FOREIGN LANGUAGES

Anita B. Ernouf, **Acting Chairman**

Mrs. Brooks, Mrs. Glascock, Mrs. Narkinsky, Mr. Nunn,
Mr. Sandidge, Mrs. Silveira

The Department of Foreign Languages offers courses in French, German and Spanish. Majors may be taken in French or Spanish. Majors in these languages must complete 24 hours in the language beyond the intermediate course. These hours must include courses numbered 241-242, 401 and 402, and 12 additional hours. Six of these 12 hours must be in non-survey literature courses. Courses numbered 241-242 are prerequisite to other literature courses in the language. Those preparing to teach must take the methods course. Supporting courses are recommended in the other humanities. Study of a second foreign language is strongly recommended. Majors in Elementary Education are encouraged to certify in the language of their choice.

Majors in Latin, through the cooperative program with Hampden-Sydney College, must complete 18 semester hours in the language beyond the intermediate course and 6 semester hours in either a modern foreign language beyond the beginning level at Longwood College, or Greek at Hampden-Sydney. At least one semester of Ancient History is recommended for Latin majors. Those preparing to teach must meet the usual requirements in Education.

Longwood in Europe, through the facilities of the University of Poitiers (Institute of Touraine), awards six credits in French upon successful completion of its summer program. Credit may be earned in all French courses, excluding methods (400), the general survey of literature (241-242), and the periods survey courses.

A student who plans to take courses abroad (other than through the **Longwood in Europe** program) is required, in order to receive credit, to submit well in advance to the chairman of the department and to the Associate Dean of the College a written statement describing the plan under which the student expects to study.

DEPARTMENT OF HEALTH AND PHYSICAL EDUCATION

Shirley M. O'Neil, *Chairman*

Miss Andrews, Mrs. Bobbitt, Miss Bowman, Miss Bush, Miss Callaway, Miss Davis, Miss Fath, Miss Gustafson, Mrs. Harriss, Miss Heintz, Miss Huffman, Miss Oliver, Miss B. Smith, Miss J. Smith, Miss S. Smith

The department has a two-fold purpose: first, to provide professional courses in health and physical education that will prepare students to teach Health and Physical Education in elementary and secondary schools; second, to provide opportunity for all students to engage in developmental and recreational activities.

A regulation suit is required in all activity courses. The suits are purchased through the College Bookstore. Regulation swimming suits are provided by the College and must be used for instructional and recreational swimming.

The swimming pool is open to students at certain hours for recreational purposes. Opportunities are provided for all students to participate in sports and dance activities through clubs, intramural, interclass, and intercollegiate and recreational programs.

The Required Physical Education Curriculum

All students are required to complete one semester hour of credit in health and physical education activity courses **in each of four different semesters during the freshman and sophomore years.** Juniors and seniors may elect courses after freshmen and sophomores have registered. The first semester of health education is taken in a prescribed course which consists of a series of lectures on current health problems and practical work in exercise, body mechanics and basic sports' skills. As a part of the physical education requirement, a student must complete a course in swimming unless she passes a beginner's proficiency test before the end of the junior year or is excused from swimming by the College Physician.

It is recommended that each student select a program of activity so that she will develop a skill competency in at least one individual sport or activity and in some area of dance. A maximum of one semester hour may be taken in any one activity at the beginning level, but any number of semester hours may be taken in any one activity at the intermediate and advanced levels.

Numerals after the name of the activity indicate the level of proficiency: I—Beginner; II—Intermediate; III—Advanced.

Health Education 100. Freshman Health Education. A prescribed program for all freshman students. A general self-image course designed to meet present needs and interests of college students through exercise, body mechanics and basic skill activities. Offered both semesters; 3 periods a week; 1 credit. The Staff.

Physical Education 104, 105, 106, 107, 108, 109, 110, 112, 113, 114, 115. Physical Education for all second semester freshman students, sophomores, juniors, and seniors. Semester activity courses; 3 periods a week; 1 credit. The Staff.

Physical Education 104. Fencing I-II

Physical Education 105. Gymnastics I-II.

Physical Education 106. Modern Dance I, II, III.

Physical Education 107. Tennis I-II.

Physical Education 108. Golf I-II.

Physical Education 109. Lacrosse I-II.

Physical Education 110. Swimming—Non-Swimmers, Beginner, Intermediate, Senior Life Saving, Water Safety Instructors, Synchronized, Competitive.

Physical Education 111. Seasonal activity courses; two half-semester courses; students signing up for seasonal activity classes must take one class each half-semester and are not permitted to take two half-semester courses in one half-semester. Registration for both half-semester classes must be completed during regular registration sessions at the beginning of each semester; 3 periods a week; 1 credit for **both** classes combined.

Archery I

Badminton I

Basketball I,II

Bowling I,II

Fencing I,II

Field Hockey

Folk and Square Dance

Golf I,II

Lacrosse I,II

Tennis I,II

Volleyball I,II

Physical Education 112. Archery I-II

Physical Education 113. Camping Skills

Physical Education 114. Bowling

Physical Education 115. Equitation — Offered 2 double periods per week; 8 weeks, 1 credit.

Professional Health and Physical Education Curriculum

A degree of Bachelor of Science with a major in Physical Education requires fifty-one (51) semester hours in prescribed and elective courses in the department. All majors in Health and Physical Education are required to take the prescribed semester hours in General Education and teacher education courses.

Students with a major in Physical Education who have not had a course in physiology and anatomy are required to take Biology 206-207. Students planning to transfer from junior colleges should endeavor to include physiology and anatomy in their program before transferring to Longwood. It is also recommended that transfer students have as many activity courses as possible before transferring.

All students with a major in Physical Education are expected to participate in the intramural or intercollegiate program offered at the College.

Junior English Proficiency Requirement. Students must meet the English proficiency requirement during the junior year; the requirement may be met by taking a course in English composition beyond the required course

(English 100), by taking the examination prepared by the Educational Testing Service (at the student's expense), or by writing a paper to be evaluated by three faculty members. The department has the prerogative to direct the student in the way in which she should be channeled.

The curriculum established for the major in physical and health education is:

The Major in Sociology is planned to meet the needs of those students desiring to enter the field of social work or desiring to enter a graduate school of sociology. These students may take either the Bachelor of Arts or the Bachelor of Science degree. Students who plan to teach on the secondary level should major in one of the other social sciences and take eighteen hours in Sociology in order to receive an endorsement to teach Sociology.

The major in Sociology may be taken either as a liberal arts major or with a concentration in Social Welfare. The Social Welfare program is approved by the Council on Social Work Education. Juniors in Social Welfare are reminded that they must purchase liability insurance prior to going out in the field during their senior year.

The requirements for a major in Sociology with a concentration in social welfare leading to a B.S. degree are as follows:

DEPARTMENT OF LIBRARY SCIENCE

Charles E. Butler, **Chairman**

Mrs. Laine, Mrs. LeSturgeon, Miss Poston, Mrs. Spencer, Mrs. Wert

The Department of Library Science offers students the opportunity to qualify for state certification as school librarians. Eighteen semester hours are required; this requirement does not include 3 semester hours of directed school library service. School library service is described in the course description given under Education 400, 401, and 402, and will consist of five weeks of practice teaching in the student's major field and five weeks of library service. The courses in Library Science are as follows, and as the course numbers indicate are to be taken during junior or senior years.

Library Science 300. **Administration of Libraries.** Includes a consideration of philosophy and standards for school libraries; the cooperative relationship among school officials, teachers, and librarians; the library as a reading and information center; the physical equipment and quarters and techniques essential in the selection, acquiring, processing, and servicing of books and other library materials. 3 periods a week; 3 credits.

Library Science 301. Books and Related Materials. The evaluation and selection of library materials, including a study of the needs of young people. 3 periods a week; 3 credits.

Library Science 326. (English 326) 3 periods a week; 3 credits.

Library Science 337. (English 337) 3 periods a week; 3 credits.

Library Science 347. (Education 347) 3 periods a week; 3 credits.

Library Science 400. Library Reference Materials. Study and evaluation of reference materials, including those used in school libraries. 3 periods a week; 3 credits.

Library Science 401. Organization of Materials. (Cataloguing and Classification.) Library procedures and techniques in the processing and servicing of books and other school library materials. 3 periods a week; 3 credits.

DEPARTMENT OF MATHEMATICS

Blanche C. Badger, **Chairman**

Miss Abbott, Miss Allen, Mrs. Bollinger, Miss Glass, Mr. Gussett, Miss Holladay, Mrs. Magnifico, Mr. Narkinsky, *Mr. Noone, Mrs. Parrish, Miss Reid, Mr. Webb, Mr. Wu

The Department of Mathematics offers courses designed for (1) those students who plan to teach in the elementary and secondary schools of the State and (2) those students who plan to complete a curriculum without meeting the certification requirements for teaching.

A major in mathematics requires a minimum of 31 semester hours beyond Mathematics 161-162 and includes the following courses: Mathematics 235, 236, 261, 262, 342, 343, 361, 460, and 471. It is recommended that all majors elect Mathematics 351, 461, 472, and 485, and those who plan to teach in high school are required to take Mathematics 451. A student with sufficient preparation in the secondary school may take a qualifying examination in mathematics administered by the Mathematics Department during the orientation week. Results of the examination may enable a freshman to begin her mathematics study with analytic geometry and the calculus. Other freshmen should take Mathematics 161, 162 to prepare for a major in mathematics.

One and one-half units of high school credits in algebra and one unit in geometry are prerequisites for a major in mathematics in any curriculum.

Students majoring in mathematics are urged to elect general physics and other courses lending themselves to mathematical interpretations.

Mathematics 161, 162 or Mathematics 111-112 meet the six-hour general education requirement in mathematics for all curricula except that one preparing teachers for the elementary school (Requirement: Mathematics 123, 124, and 323.) Mathematics and science majors must take Mathematics 161, 162, except for those students who begin their mathematics with Mathematics 261, 262. Mathematics 111-112 does not serve as a prerequisite for Mathematics 261, 262.

Credit will not be given for both Mathematics 111-112 and 161, 162.

Mathematics 111-112. Introduction to Mathematics. This course is designed to give the meaning and method of mathematics. Emphasis will be placed upon understanding rather than upon memorizing mathematical facts. The course is recommended for the non-mathematically oriented student and will not serve as a prerequisite to Mathematics 261, 262. First and second semesters; 3 periods a week; 3 credits each semester. The Staff.

Mathematics 123, 124. Basic Concepts of Mathematics. Basic concepts underlying contemporary arithmetic; emphasis on meaning and understanding; the logic of mathematics; language of sets and relations as applied to structure of number systems; mathematical proofs; fundamental concepts of algebra; percentage; analysis and solution of verbal problems; graphing of equations and inequalities. First and second semesters; 3 periods a week; 3 credits each semester. Required for the B.S. degree in Elementary Education. The Staff.

Mathematics 161, 162. Fundamentals of College Mathematics. A unified treatment of the basic ideas of contemporary algebra, trigonometry, and analytics. The aim of this course is to show the nature of mathematics as a logical system. The material is fundamental to any student's training whether he wishes to continue in mathematics, the natural sciences, and engineering, or whether his interests lie in the social sciences or economics. First and second semesters; 3 periods a week; 3 credits each semester. The Staff.

Mathematics 164. Pre-Calculus. (A pilot course) Designed for the exceptional student who wishes Mathematics 261 second semester. Offered first semester; 3 periods a week; 3 credits. Prerequisite: permission of instructor. Mrs. Badger.

Mathematics 204. Computer Science. This is an introductory course in computer science including machine language and techniques of programming in the Fortran language with applications. Prerequisite: Mathematics 161, 162. 3 credits.

Mathematics 235, 236. Advanced Geometry. Concepts of elementary geometry from a mature viewpoint. Emphasis is placed on contemporary ideas and language. Mathematical logic is stressed including consistency, independence, and categoricity of postulational systems. Topics from Non-Euclidean geometry are included. The relation of geometry to the algebra of the real number system is emphasized. First and second semesters; 3 periods a week; 3 credits each semester. Mrs. Parrish.

Mathematics 261, 262. The Differential and Integral Calculus. Prerequisite: Mathematics 161, 162 or the equivalent. First and second semesters; 5 periods a week; 5 credits each semester. Miss Allen, Mr. Gussett, Mr. Webb.

Mathematics 323. Mathematics for Teachers of the Elementary School. Elementary geometry from an intuitive approach is emphasized. Attention is given to materials and procedures in teaching mathematics in the elementary school. Offered each semester; 3 periods a week; 3 credits. Required for the B.S. Degree in Elementary Education. The Staff.

Mathematics 342, 343. Introduction to Modern Algebra. First semester: sets and mappings, integers, general algebraic systems, groups, rings, and fields. Second semester: linear algebra. Prerequisite: Mathematics 262. First and second semesters; 3 periods a week; 3 credits each semester. Miss Abbott, Miss Reid.

Mathematics 351. Introduction to Topology. Topological spaces, continuous mappings, homeomorphisms, compactness, connectedness, metric spaces, and other selected topics in point set topology. First semester; 3 periods a week; 3 credits. Mr. Narkinsky.

Mathematics 361. Calculus III. Advanced topics in calculus not considered in Mathematics 261, 262. Prerequisite: Mathematics 261, 262. First semester; 3 periods a week; 3 credits. Miss Reid.

Mathematics 442. **Topics in Algebra.** Prerequisite: Mathematics 342, 343. Offered on demand; 3 periods a week; 3 credits.

Mathematics 451. **The Teaching of High School Mathematics.** Offered first semester; 3 periods a week; 3 credits. Mrs. Magnifico.

Mathematics 460. **Differential Equations.** Primarily a study of ordinary differential equations of the first and second order with applications to elementary work in mechanics and physics. Second semester; 3 periods a week; 3 credits. Miss Reid.

Mathematics 461. **Advanced Calculus.** A theoretical approach to the study of limits, continuity, differentials, derivatives and integrals. Development of the real number system, elementary point set theory, functions of several variables, infinite series, and power series. 3 periods a week; 3 credits. Prerequisite: Mathematics 361. Mr. Narkinsky.

Mathematics 471, 472. **Introduction to Probability and Statistics.** Prerequisite: Mathematics 261-262. Mathematics 471 offered second semester; Mathematics 472 offered on demand. 3 periods a week; 3 credits each semester. Mr. Wu.

Mathematics 485. **Introduction to Analysis.** Prerequisite: Consent of the instructor. Offered second semester; 3 periods a week; 3 credits. Miss Allen.

Mathematics 523. **Mathematics for Teachers in the Elementary School.** This course is designed to update the elementary teacher in modern concepts of mathematics and to give three hours credit toward a Master's degree in elementary education. 3 credits. Mrs. Magnifico.

DEPARTMENT OF MUSIC

John W. Molnar, **Chairman**

Mr. Blasch, Miss Boehm, Miss Clark, Mr. Harbaum, Mr. Hesselink,
Mr. McCombs, Miss Myers, Mrs. Zahrt

The aims of the Department of Music are to emphasize the cultural, intellectual, emotional, and social values of music; to broaden the concept of music in life and in the schools; to prepare elementary teachers to teach music in their respective grades; to prepare supervisors and special teachers of vocal and instrumental music in elementary and high schools; to prepare church choir directors; to help students attain an artistic proficiency on their instruments and in the use of the singing voice; and to develop an understanding and an appreciation of the best music through participation in instrumental and vocal ensembles and through directed listening to the world's great music literature.

The required music courses for the Bachelor of Music Education degree are Music 113-114 and Music 213, 214; Music 315, 316; Music 331, 332; Music 343, 344 or Music 343, 348; Music 431, 432; twenty-four hours in applied music distributed as follows: fourteen hours in concentration, four in proficiency, and six in elective or ensemble; two hours in music literature in the concentration area.

The required music courses for a major in the Bachelor of Arts program are Music 113-114 and 213, 214; Music 331, 332; Music 431, 432; twelve hours in applied concentration and a minimum of six elective hours approved by the department chairman.

Each music major must participate in an ensemble each semester.

If a student chooses to do part or all of her General Education requirement in the six-hour area of Humanities designated Art, Music, or Dramatic Art in music, three hours must be in a classroom subject listed under Appreciation, History, and Literature, or Music 242.

The amount of credit in applied music that may be transferred from other institutions will be determined through evaluation of the student's ability by the Department of Music.

Numbers in brackets refer to the old listing of courses.

Music 111 [115]. Basic Musicianship. An introductory course in music reading through singing and the use of melodic instruments, for the non-music major. Offered first semester; 2 periods a week; 1 credit. Miss Boehm.

Music 113-114 [211-212]. Structure of Music. An integrated study of music through the keyboard; written and creative work; ear training; form and analysis; keyboard harmony; part writing. First and second semesters; 5 periods a week; 4 credits each semester. Miss Clark, Mr. Molnar.

Music 213, 214 [311, 312]. Structure of Music. A continuation of Music 113-114, which is prerequisite. Altered chords; modulation; chromatic harmony; elementary counterpoint. First and second semesters; 5 periods a week; 4 credits each semester. Miss Clark, Mr. Hesselink.

Music 315, 316 [345, 346]. Conducting. Technique of the baton; score reading; rehearsal procedures. First and second semesters; 2 periods a week; 1 credit each semester. Mr. Molnar.

Music 413 [413]. Counterpoint. Strict and free counterpoint; motivic development; invertible counterpoint. Prerequisite: Music 213, 214. Offered on demand; 2 periods a week; 2 credits. The Staff.

Music 414 [414]. Form and Analysis. Harmonic and formal analysis of compositions of each period. Prerequisite: Music 213, 214. Offered on demand; 2 periods a week; 2 credits. The Staff.

Music 415 [415]. Orchestration. Arranging for band and orchestra. Prerequisite: Music 213, 214. Offered on demand; 2 periods a week; 2 credits. The Staff.

Music 416 [416]. Choral Arranging. Arranging for vocal ensembles and choruses. Prerequisite: Music 213, 214. Offered on demand; 2 periods a week; 2 credits. The Staff.

Appreciation, History, and Literature

***Music 121, 133 [123, 124]. Guided Listening.** Compositions selected for their relationship to literature. First and second semesters; 2 periods a week; 1 credit each semester. Miss Boehm.

***Music 123 [165]. The Appreciation of Music.** Study for the understanding of the forms, styles, and periods of the music usually heard in performance. Offered both semesters; 3 periods a week; 3 credits. Mr. Harbaum, Mr. Molnar.

***Music 125, 126 [168, 169]. Music in Western Culture.** Survey of the major periods of music with examples of the compositions of principal composers in each period; the relation of music to other aspects of history and the culture of western civilization. First and second semesters; 3 periods a week; 3 credits each semester. Mr. Harbaum, Mr. Molnar.

*Music 223, 224 [353, 354]. **Concert Hour.** Directed listening to selected masterpieces of music, biographical study of the composers. First and second semesters; 2 periods a week; 2 credits each semester. The Staff.

*Music 231. **Music From the Eighteenth Century.** Study of the forms, styles, and trends of the music of the eighteenth century; biography. Offered 1972-73; first semester; 3 periods a week; 3 credits. The Staff.

*Music 232. **Music of the Nineteenth Century.** Study of the forms, styles, and trends of the music of the nineteenth century; biography. Offered 1971-72; second semester; 3 periods a week; 3 credits. Mr. Harbaum.

*Music 233. **Music of the Twentieth Century.** Study of the forms, styles, and trends of the music of the twentieth century; biography. Offered 1971-72; first semester; 3 periods a week; 3 credits. Mr. Blasch.

*Music 234. **Music From the Theater.** Study of opera, operetta, incidental music. Offered 1972-73. Second semester; 3 periods a week; 3 credits. The Staff.

*Music 235. **Music From the Church.** Study of the development of music in the church from Gregorian chant to the present. Offered alternate years; first semester; 3 periods a week; 3 credits. The Staff.

*Music 331, 323 [321, 322]. **Survey of Music Literature.** A historical survey of music literature. Directed listening with the use of scores; analysis of significant compositions from the major periods of musical development. First and second semesters; 3 periods a week; 3 credits each semester. Mr. Molnar.

Music 431, 432 [465, 466]. **History of Music.** The history of music of western civilization, with examples. Open to non-music majors only with permission of the instructor. First and second semesters; 3 periods a week; 3 credits each semester. Mr. Harbaum.

Music 433 [464]. **Choral Literature.** A study of sacred and secular choral literature of all periods. Offered on demand; 2 periods a week; 2 credits.

Music 434 [462]. **Organ Literature.** A study of the literature of the organ through performance and listening. Required of organ concentrators. Alternate years; offered second semester; 2 periods a week; 2 credits. Mr. Hesselink.

Music 435 [463]. **Piano Literature.** A study of the literature of the piano-forte through performance and listening. Required of piano concentrators. Alternate years; offered second semester; 2 periods a week; 2 credits. Mr. Blasch.

Music 436 [464]. **Voice Literature and Pedagogy.** A study of the literature and the teaching of voice; principles of voice teaching and laboratory work with beginning voice students. Required of voice concentrators. Offered second semester; 2 periods a week; 2 credits. Mr. McCombs.

Music Education

Music 242 [237]. **Music for Elementary Teachers.** Music for students preparing to teach in the elementary grades. Fundamentals of music, both theoretical and practical, through the use of electronic keyboards; singing, conducting; use of the autoharp. Music literature through listening and reading. Offered each semester; 3 periods a week; 3 credits. Miss Clark, Miss Myers, Mrs. Zahrt.

Music 342 [329]. **Music in the Elementary School.** Kindergarten through upper grades. Study of the goals and philosophy of education through music in the elementary

* Recommended for general education.

school; techniques and approaches implementing the experiences needed in a developmental program of classroom music; practice in planning and implementing the program. Prerequisite: Music 242. Both semesters; 3 periods a week; 3 credits. Miss Boehm, Mrs. Zahrt.

Music 343 [323]. Music Teaching and Supervision in the Elementary School. Music activities in the five-fold program from early childhood through the middle and upper elementary school levels; materials and procedures. Open only to music education majors and others with the consent of the department chairman. First semester; 3 periods a week; 3 credits. Miss Boehm.

Music 344 [324]. Music in the School, Secondary Level. Philosophy, procedures, materials; emphasis on the musical activities of the five-fold program; adaptation of the program to the community. Open only to music education majors and others with the consent of the department chairman. Second semester; 2 periods a week; 2 credits. Miss Boehm.

Music 347, 348 [335, 336]. Instrumental Music in the Schools. Study of all the band and orchestral instruments; embouchure and technical development; rehearsal techniques; fundamentals of marching; materials. First and second semesters; 3 periods a week; 3 credits each semester. Mr. Harbaum.

Music 443 [445]. Teaching Piano. Techniques and materials of teaching piano in groups; observation and teaching of demonstration groups. Second semester; 2 periods a week; 2 credits. Miss Clark.

Music 444 [481]. Operetta Production. The selection, casting, rehearsal, staging, and production of the school operetta. Offered on demand. Two periods a week; 2 credits. Mr. Molnar.

Applied Music

Opportunity is offered all students of the College for cultural development through the study of the piano, harpsichord, organ, voice, or orchestral or band instruments, either through private instruction or in small classes. Students may enter at any stage of advancement. Students majoring in music must attain minimum standards of performance proficiencies, as determined by the department at the end of their sophomore year.

Applied music, elective, class. One hour small class instruction each week. 1 credit each semester.

Music 151, 152; 251, 252; 351, 352; 451, 452. Organ.

Music 161, 162; 261, 262; 361, 362; 461, 462. Piano.

Music 171, 172; 271, 272; 371, 372; 471, 472. Voice.

Music 181, 182; 281, 282; 381, 382; 481, 482. Strings.

Music 191, 192; 291, 292; 391, 392; 491, 492. Woodwinds.

Music 167, 168; 267, 268; 367, 368; 467, 468. Brass.

Applied music, elective, individual. One half-hour individual lesson each week; 1 credit. each semester.

Music 153, 154; 253, 254; 353, 354; 453, 454. Organ.

Music 157, 158; 257, 258; 357, 358; 457, 458. Harpsichord.

Music 163, 164; 263, 264; 363, 364; 463, 464. Piano.
 Music 173, 174; 273, 274; 373, 374; 473, 474. Voice.
 Music 183, 184; 283, 284; 383, 384; 483, 484. Strings
 Music 193, 194; 293, 294; 393, 394; 493, 494. Woodwinds.
 Music 177, 278; 277, 278; 377, 378; 477, 478. Brass.

Applied music, concentration. One half-hour individual lesson, one hour group instruction (or equivalent) plus related studio classes and recitals. 2 credits each semester.

Music 155, 156; 255, 256; 355, 356; 455, 456. Organ.
 Music 159, 160; 269, 260; 359, 360; 459, 460. Harpsichord.
 Music 165, 166; 265, 266; 355, 356; 465, 466. Piano.
 Music 175, 176; 275, 276; 375, 376; 475, 476. Voice.
 Music 185, 186; 285, 286; 385, 386; 485, 486. Strings.
 Music 195, 196; 295, 296; 395, 396; 495, 496. Woodwinds.
 Music 187, 188; 287, 288; 387, 388; 487, 488. Brass.

Ensembles

Ensembles are open to all students who sing or play an orchestra or band instrument. The following require an audition with the conductor: Concert Choir, Madrigal Singers, and instrumental ensembles. Formal programs are presented on and off the campus.

Ensembles meet twice weekly, and offer one credit each semester. Ensembles may be participated in without credit.

Music 100; 200; 300; 400. Concert Choir, no credit.
 Music 101; 201; 301; 401. Madrigal Singers, no credit.
 Music 102; 202; 302; 402. Instrumental Ensemble, no credit.
 Music 105, 106; 205, 206; 305, 306; 405, 406. Concert Choir, credit.
 Music 107, 108; 207, 208; 307, 308; 407, 408. Madrigal Singers, credit.
 Music 109, 110; 209, 210; 309, 310; 409, 410. Instrumental Ensemble, credit.

DEPARTMENT OF NATURAL SCIENCES

Marvin W. Scott, **Chairman**

Mr. Austin, Mr. Batts, Mr. Bissell, Mrs. Breil, Mr. Breil, Mr. Brumfield, Mr. Curley, Mr. Ely, Mr. Fawcett, *Mr. Hardy, Mr. Harvill, Miss Hatch, Mr. Heinemann, Miss Holman, Mrs. Jackson, Mr. Lane, Mr. Law, Mr. Lehman, Mr. Meshejian, Mrs. McCombs, Mr. McGinley, Mr. Thomas, Mr. Tinnell, Miss Wells

The Department of Natural Sciences offers courses leading to a major in biology, chemistry, general science, earth science, and physics. The introductory courses in astronomy, biology, chemistry, geology, physics, and physical science fulfill the science requirements for general education. The requirements for pre-professional preparation for the medical sciences are included in the course offerings.

There is wide variation in the requirements for admission to different graduate schools and in different departments in the same institution. Students who plan to enter graduate schools should consult with the appropriate staff members for help in planning a program which will satisfy the admissions requirements of the graduate school they plan to attend.

The requirements for the major in each of the disciplines are presented under the appropriate headings. Students should consult the current schedule for courses offered in alternate years and for those offered on sufficient demand.

Biology

Twenty-six hours in addition to Biology 102 and 103 are required for a major. The selection of the advanced courses should be made so as to provide a broad background in the biological sciences. The program must include a course in each of the following areas: morphology (Biology 201 or 202), genetics (Biology 303), physiology (Biology 305 or 306), ecology (Biology 300 or 302), and biological seminar (Biology 490).

Chemistry 101; Physics 101; Mathematics 161, 162 are required for majors anticipating a teaching career at the secondary level.

Biology majors who expect to continue their education in graduate school should take Mathematics 161, 162; Chemistry 101, 102; and Physics 101 and 102. Organic Chemistry 205 and 206 is highly recommended.

***Biology 101. Biological Concepts.** First and second semesters. An inquiry into the nature and common features of life. 3 single periods and 1 double period a week; 4 credits. The Staff.

Biology 102. General Botany. First and second semesters. The biology, life cycles, and economics of representatives of the plant kingdom. 3 single periods and 1 double period a week; 4 credits. The Staff.

Biology 103. General Zoology. First and second semesters. The biology, life histories, and economics of representatives of the animal kingdom. 3 single periods and 1 double period a week; 4 credits. The Staff.

Biology 201. Plant Morphology. First semester. The comparative development and structure of tissues, and organs in representative vascular plant groups. 3 single and 1 double period a week. 4 credits. Mr. Breil.

*Recommended for General Education.

Biology 202. Animal Morphology. Second semester. The comparative development and structure of tissues, organs, and organ systems in representative chordate groups. 2 single periods and 2 double periods a week; 4 credits. The Staff.

Biology 204. Plant Taxonomy. Second semester. Collection, identification, and classification of plants. 2 single periods and 2 double periods a week; 4 credits. Mr. Breil, Mr. Harvill.

Biology 205. Heredity. First semester. A study of the principles of heredity and variation for non-science majors. This course does not satisfy the requirements for the major in biology. 2 periods a week; 2 credits. Mr. Brumfield.

Biology 206-207. Human Anatomy and Physiology. First and second semesters. Basic physiological principles and functional anatomy of the digestive, circulatory, respiratory, excretory systems (Biology 106) and of the integumentary, skeletal, muscular, nervous, endocrine and reproductive system (Biology 207). 3 single periods and 1 double period a week; 4 credits. Miss Hatch, Miss Holman.

Biology 300. General Ecology. First semester. The basic relationships of organisms to their environment. 3 single periods and 1 double period a week; 4 credits. Mr. Batts.

Biology 302. Plant Ecology. Second semester. Relationships of plants to their environments. 3 single periods and 1 double period a week; 4 credits. Mr. Breil, Mr. Harvill.

Biology 303. Genetics. First semester. The basic relationships of organisms to their environment. 3 single periods and 1 double period a week; 4 credits. Miss Hatch, Mr. Heinemann.

Biology 304. Modern Genetics. Second semester. Modern concepts of the nature and function of genetic material. Offered on sufficient demand. 3 single periods and 1 double period a week; 4 credits. Mr. Ely.

Biology 305. Plant Physiology. First semester. Principles of cellular and tissue functions in plants. 2 single periods and 2 double periods a week; 4 credits. Mr. Lehman.

Biology 306. Animal Physiology. Second semester. Functions of animal organs and organ systems. 2 single and 2 double periods a week; 4 credits. Mr. Ely.

Biology 307. Cytology and Cytogenetics. First semester. Structural and functional aspects of cellular maintenance and heredity. 2 single periods and 2 double periods a week; 4 credits. Mr. Heinemann.

Biology 308. Field Biology. Second semester. Collection, identification, and life histories of local flora and fauna. 1 single and 1 double period a week; 2 credits. Mr. Batts.

Biology 309. Microbiology. First and second semesters. Fundamentals of microbial growth and culture. 2 single periods and 2 double periods a week; 4 credits. Mr. Tinnell.

Biology 310. Evolution. Second semester. A study of the basic processes of and evidences for evolution. 3 single periods a week; 3 credits. Mr. Brumfield.

Biology 311. (Science 311). Oceanography. Second semester. An introduction to the geological, physical, chemical and biological aspects of the oceans. Offered 1972-73 and alternate years. 3 single periods and 1 double period a week; 4 credits. Mr. Austin, Mr. Batts.

Biology 312. (Chemistry 312). Biochemistry. Second semester. A study of the chemistry of proteins, carbohydrates, lipids, and nucleic acids in biological systems. Prerequisite: Chemistry 205 or permission of the instructor. 3 periods a week; 3 credits or 4 (with laboratory). Mr. Lehman.

Biology 313. Contemporary Biological Problems. Second block of second semester. A study of biologically oriented topics of current interest, including drugs, pollution and birth control. 2 periods a week; 1 credit. Miss Wells.

Biology 401. BSCS: Concepts and Methods. Second block of both semesters. Studies to acquaint students with high school biology courses designed by the Biological Sciences Curriculum Study Committee. It is recommended that majors, who plan to teach, take Biology 401 prior to student teaching.

Biology 402. Plant Geography. First semester. A study of the origins, migrations, and distribution of the flowering plants. 2 double periods a week; 2 credits. Mr. Harvill.

Biology 403, 404. Directed Individual Study. First and second semesters. Special problems for students capable of pursuing independent investigation under the direction of a staff member. Permission of the department chairman is prerequisite for enrollment in this course. 2 or 4 credits. The Staff.

Biology 409. Bryophytes. Second semester. The morphology and taxonomy of mosses and liverworts with emphasis on field work. 1 single period and 2 double periods a week; Offered 1972-73 and alternate years. Prerequisite: Biology 102; 3 credits. Mr. Breil.

****Biology 411. Radiation Biology.** Second block of first semester. A study of the effects of radiation at the cellular, tissue and organ level. 2 credits. Mr. Lehman.

****Biology 412. Mycology.** Second block of first semester. A morphological, physiological, genetic and taxonomical treatment of the fungi. 2 credits. Mr. Tinnell.

****Biology 413. Ornithology.** Second block of second semester. Morphology and identification of birds common to Virginia. 2 credits. Mrs. Breil.

****Biology 414. Soil Biology.** Second block of second semester. A study of soil organic constituent factors that govern biological changes; activity of soil organisms in plant nutrient cycles and maintenance of soil organic complex. 2 credits. Mr. Lehman, Mr. Tinnell.

****Biology 415. Acarology.** Second block of first semester. Limited to four students. Classification, biology, medical and economic significance of mites and ticks. 2 credits. Mr. Heinemann, Miss Holman.

****Biology 416. Microtechnique.** Second block of first semester. Preparation of microscope slides from plant and animal tissues. 2 credits. Mr. Ely.

****Biology 417. Biology of Fishes.** Second block of second semester. An introduction to the study of fishes, emphasizing their structure and environmental responses. 2 credits. Mr. Batts.

****Biology 418. Phycology.** Second block of second semester. Collection and identification of fresh water and marine algae. 2 credits. Mr. Ely and Mr. Breil.

Biology 490. Biological Seminar. First and second semesters. Selected topics in biology. May be repeated as 491, 492, etc. 1 period a week; 1 credit. The Staff.

CHEMISTRY

The major in Chemistry requires 32 hours in chemistry. The advanced work must include courses in the areas of analytical, organic and physical chemistry. Physics 101, 102 and Mathematics 161, 162, or its equivalent are also required. Students majoring in chemistry should seek the advice of a member of the chemistry staff in planning programs of advanced courses.

****Block courses.**

*Chemistry 101. **Introductory Chemistry I.** A study of the basic concepts of chemistry designed for one semester. Offered both semesters; 3 single and 1 double periods a week; 4 credits. The Staff.

Chemistry 102. **Introductory Chemistry II.** Continuation of Chemistry 101. A study of the laws and principles of chemistry and qualitative analysis. 3 single and 1 double periods a week; 4 credits each semester. The Staff.

Chemistry 201, 202. **Analytical Chemistry.** The theory and practice of quantitative analysis by gravimetric, volumetric, and instrumental methods. First and second semesters; 2 single and 2 two-hour periods a week; 4 credits each semester. Mr. Law.

Chemistry 205, 206. **Organic Chemistry.** Fundamental principles and reactions of organic chemistry. First and second semesters; 3 single and 1 three-hour periods a week; 4 credits each semester. Mr. Bissell.

Chemistry 301, 302. **Physical Chemistry.** Fundamental principles and problems associated with the properties of matter—its structure and interactions. Prerequisite or corequisite: Physics 101, 102 and Mathematics 261, 262; 3 single and 1 three-hour periods a week; 4 credits each semester. Mr. Bissell.

Chemistry 312. (Biology 312) **Biochemistry. A study of the chemistry of proteins, carbohydrates, lipids, and nucleic acids in biological systems. Prerequisite: Chemistry 205 or permission of the instructor. 3 periods a week; 3 credits or 4 with laboratory. Mr. Lehman.

Chemistry 420. **Chemistry Seminar.** Reports and discussions of topics of interest in the field of chemistry. Open to qualified students. May be repeated for credit, in which event the number will be 421, 422, etc. 1 credit. The Staff.

Chemistry 432. **Quantum Chemistry.** An introduction of the quantum theory and its applications to chemistry. Prerequisite: Chemistry 302. 3 single periods a week; 3 credits. Mr. Bissell.

Chemistry 433. **Inorganic Chemistry.** A study of electronic structure and the periodic system, bonding in inorganic materials, non-aqueous solvent systems, and modern acid-base theory. Prerequisite: Permission of the instructor. 3 single periods a week; 3 credits. The Staff.

Chemistry 435. **Advanced Organic Laboratory.** Preparation, purification, and identification of organic compounds selected according to individual interests, with emphasis on modern techniques. Prerequisite: Chemistry 206. 1 single periods and 2 three-hour periods a week; 3 credits. The Staff.

Chemistry 460. **Radiochemistry.** Properties of radionuclides, interaction of radiations with matter, radioactivity detection and measurements, isotope techniques and analytical applications. Prerequisite: permission of the instructor. 2 single and 1 double periods a week; 3 credits. Mr. Law.

Physics

The major in physics requires twenty-four semester hours of advanced courses beyond the introductory course. In addition, Mathematics 261, 262, 361, and 460 are required. Students who wish to major in physics should plan their programs of advanced courses in physics and mathematics with the advice of a member of the physics staff.

*Physics 101, 102. **General Physics.** Physics 101 is prerequisite for Physics 102. First and second semesters; 3 single and 1 double periods a week; 4 credits each semester. The Staff.

*Recommended for General Education.

Physics 201, 202. University Physics. An introduction to physics employing the calculus. Prerequisite or corequisite: Mathematics 261, 262. 3 single and 1 double periods a week; 4 credits each semester. Mr. Meshejian.

Physics 321, 322. Atomic and Nuclear Physics. A survey of modern developments in electron, atomic, and nuclear physics. Prerequisite: physics 101, 102. Prerequisite or corequisite: Mathematics 261, 262. 3 single and 1 three-hour periods a week; 4 credits each semester. Mr. Fawcett.

Physics 324. Thermodynamics. A study of thermal properties of matter; phenomena involved in flow of heat and performance of work. Kinetic theory and statistical mechanics are included. Prerequisite or corequisite: Mathematics 261. Offered alternate years. 3 single periods a week; 3 credits. The Staff.

Physics 326. Light. A study of the nature and behavior of light and other electromagnetic radiation. 3 single periods a week; 3 credits. Mr. Meshejian.

Physics 331, 332. Electricity and Magnetism. DC and AC circuits; instruments; electrostatics; magnetic effects; introduction to Maxwell's equations. Prerequisite: Physics 101, 102 or 201, 202. Prerequisite or corequisite: Mathematics 261, 262. Offered alternate years. Three single and 1 three-hour periods a week; 4 credits each semester. Mr. McGinley.

Physics 341. Electronics. A survey of basic electronic circuits and their use in radio, television and other applications; introduction to transistors. Prerequisite: Physics 101, 102 or 201, 202. Offered alternate years. First semester; 3 single and 1 three-hour periods a week; 4 credits. The Staff.

Physics 352. Mechanics. A mathematics study of the physical laws pertaining to matter and motion. Prerequisite: Physics 101, 102 or 201, 202. Prerequisite or corequisite: Mathematics 261, 262. Offered alternate years. Second semester; 4 single periods a week; 4 credits. Mr. Meshejian.

Science

The major in General Science requires 8 semester hours each in biology, chemistry, geology, and physics. Students are required to also elect 16 additional semester hours in biology or chemistry or 12 additional hours in physics to secure an endorsement in either biology, chemistry, or physics. Other requirements are: 4 semester hours in astronomy; 3 semester hours in physical geography (Meteorology and Climatology); and Mathematics 161, 162 (or its equivalent).

The major in Earth Science requires 8 semester hours in each of the following: biology, chemistry, geology, and physics. Also 6 hours in astronomy, 6 semester hours in physical geography and 4 semester hours in oceanography are required. Mathematics 161, 162 is a requirement for the Earth Science major.

***Astronomy 200. Descriptive Astronomy.** 3 single periods and 1 double period a week. 4 credits. Mr. Curley.

Astronomy 300. Observational Astronomy. 2 double periods a week. On block for second semester. To include sky studies at night. 2 credits. Mr. Curley.

Geography 251. Physical Geography (Meteorology and Climatology). The study of basic weather phenomena and processes is emphasized. The varieties of climate and their origin in terms of air masses, source regions and frontal zones is treated. First semester; 3 periods a week; 3 credits. Mr. Lane.

***Recommended for General Education.**

Geography 252. Physical Geography (Pedology, Hydrology, Plant Geography and Earth Resources). A study of the physical environment in which terrestrial elements are analyzed and inter-related. The natural resource base is emphasized. Second semester; 3 periods a week; 3 credits. Mr. Lane.

***Geology 200. General Geology.** An introduction to the major aspects of physical and historical geology. First and second semesters. 3 single and 1 double periods a week; 4 credits. Mr. Lane.

Geology 321. Geology of Virginia. Second semester; 3 single and 1 double periods a week; 4 credits. Mr. Lane.

***Science 101, 102. Physical Science.** First and second semesters. First semester: basic physics. Second semester: chemistry, geology, and astronomy. Three single and 1 double periods a week; 4 credits each semester. Mr. Austin, Mr. Curley, Mr. Fawcett.

Science 311. (Biology 311) Oceanography. An introduction to the geological, physical, chemical and biological aspects of the oceans. Offered 9172-73 and alternate years. Second semester; 3 single and 1 double periods a week; 4 credits. Mr. Austin, Mr. Batts.

Science 352. Science for Secondary Teachers. First semester; 3 periods a week; 3 credits. Mr. Austin.

Science 360. Case Histories in Science. A historical survey of the development of our modern scientific concepts. Two lectures a week; 2 credits. Offered on sufficient demand. Mr. Brumfield.

Science 362. Science for Elementary Teachers. A study of materials and methods of teaching science in the primary and upper elementary grades with emphasis on student use of laboratory materials and techniques. Required for the B.S. degree in Elementary Education. Both semesters; 1 single and 2 double periods a week; 3 credits. Mrs. Jackson, Mrs. McCombs.

Science (Biology, Chemistry or Physics) 462, 463, 464. Special Projects in the Natural Sciences. Students will prepare lecture demonstrations or carry out research projects under individual supervision. The nature of the project will depend on the interest and needs of the student. May be repeated for credit as 472, 473, 474; also 482, 483, and 484. Credits 2, 3, 4 respectively. The Staff.

DEPARTMENT OF SPEECH AND DRAMATIC ARTS

Patton Lockwood, **Chairman**

Mrs. Anderson, Mr. Woodburn, Mr. Young
}

It is assumed that a college graduate should be able to express ideas clearly, logically, and persuasively. To aid in the development of these skills, basic courses in public speaking, interpretation, and forensics (Speech 101, 312, 403) may be elected without prerequisite. They are designed to serve students planning to enter occupations which require effective oral communication, such as teaching, business administration, personnel work, government service, law, and the ministry. These courses provide training in gathering, analyzing, and organizing evidence, with proper regard for logical and psychological factors important in audience situations, and in the development of effective delivery. Videotape facilities are available and may be used in evaluating platform assignments.

The dramatic arts offer a total experience involving intellectual, emotional, and physical aspects which contribute to the personal and social development of the individual. Courses in the dramatic arts are designed to give students an insight into human character and life as reflected in dramatic literature, a breadth of empathic experiences permitting them to participate vicariously in the lives and experiences of other people, an appreciation of good theatre and worthwhile dramatic literature, critical standards of judgment, and an ability to move and speak effectively on stage. More specialized courses deal with technical and aesthetic aspects of the theatre.

Three dual majors are offered by the department, two in conjunction with the Department of English: Speech and Dramatic Arts; Speech and English; and Dramatic Arts and English. Specific requirements for these majors leading to the A.B. and B.S. degrees are as follows:

Major in Speech and Dramatic Arts—38 semester hours: Speech 100, 101, 201, 311, 401, 403; Dramatic Arts 201, 202, 301, 302, 305, 368; and one of the following: Dramatic Arts 369, 370, or 413, 560, or 561.

Major in English and Dramatic Arts—41 semester hours: English 100, 211, 212, 221 or 222, 300 or 510; Dramatic Arts 201, 202, 301, 302, 305; Speech 403; and nine hours of dramatic literature, including Dramatic Arts 368. The major in English and Dramatic Arts who is working for the Collegiate Professional Certificate must also take English 400 and 432.

Major in English and Speech—42 semester hours: English 100, 211, 212, 221, 222, 300 or 510; Speech 100, 101, 201, 311, 401, 403; and nine hours in approved offerings by the English Department in writing, literature, and linguistics. The major in English and Speech who is working for the Collegiate Professional Certificate must also take English 400 and 432.

For certification in Speech or Dramatic Arts as well as English, six additional semester hours are required in each field beyond the basic 30 semester hours in English. Certification to teach separately Speech or Dramatic Arts requires 12 semester hours of work in each field. For Speech the 6 or 12 semester hours may be obtained from any of the course offerings in Speech; for Dramatic Arts the 6 hours must be obtained from Dramatic Arts 201 and 202, and the 12 hours will include Dramatic Arts 201, 202, 300, and 301.

As described on page 126, Longwood College and the University of Virginia have a cooperative program leading to a major in Speech Pathology. The following courses are Longwood requirements for this major:

| | |
|---------------------------------------|------------------|
| Art, Music or Dramatic Arts electives | 6 semester hours |
| Biology 101 or 103 | 4 semester hours |
| English 100, 510 | 6 semester hours |

Speech

Speech 100. Voice and Diction. Study of the vocal mechanism and voice production. Analysis of the sounds of American English through phonetic study. Improvement of personal speech skills through reading exercises. Offered each semester; 3 periods a week; 3 credits. Mr. Woodburn.

Speech 101. Fundamentals of Public Speech. An introductory study of effective and responsible speaking. Provisions will be made for practical application. Offered each semester; 3 periods a week; 3 credits. The Staff.

Speech 201. Discussion and Debate. Study and analysis of public discussion and debate concerning current national and international issues, discussion types and methods; argumentation. Parliamentary procedure and conduct of the democratic meeting. Second semester; 3 periods a week; 3 credits. Mr. Woodburn.

Speech 311. Radio and Television. Radio skills with studio practice, elementary television, function of radio and television media in American culture. First semester; 3 periods a week; 3 credits. Mr. Woodburn.

Speech 312. Forensics. A course designed to acquaint students with forensic procedures, specifically intra- and extramural oratorical and forensic activities. Offered first semester; 3 periods a week; 3 credits. Mrs. Anderson.

Speech 401. Speech for the Classroom Teacher. The role of speech in teaching; physiology of speech, voice training, speech corrective measures, public address, and group discussion techniques. Second semester; 3 periods a week; 3 credits. Mr. Woodburn.

Speech 403. Oral Interpretation. Development of skill in oral reading; the expression and discipline of voice, thought, emotional response, and bodily action; techniques of presentation as adapted to varying forms of literature. Practice in reading prose, poetry, and drama designed to increase literary appreciation. First semester; 3 periods a week; 3 credits. Mrs. Anderson.

Dramatic Arts

***Dramatic Arts 100. Introduction to the Theatre.** A basic course designed to provide a general introduction to the dramatic arts. Offered each semester; 3 periods a week; 3 credits. The Staff.

*Recommended for General Education.

Dramatic Arts 201, 202. Play Production. A lecture and laboratory course. First semester: introduction to the theatre including methods of play analysis; organization of the professional and educational theatre; methods of scene construction and painting. Second semester: methods of lighting the stage; scene, costume, and light design. First and second semesters; 3 double periods a week; 3 credits each semester. The Staff.

Dramatic Arts 300. Children's Theatre. A study of the special requirements of presenting drama to children and of the child's response to theatrical experience. An exploration of improvisation as a basic directorial tool in work with children. In sequence with Dramatic Arts 301 and 302. Offered first semester 1971-72; 3 two-hour class-laboratories a week; 3 credits. The Staff.

Dramatic Arts 301. Problems in Directing. Directing with particular reference to the educational theatre, theatre organization, styles of presentation, composition and picturization, and relationships between the director and other theatre workers. Students to direct one-act plays assist in direction of the major productions of the semester. Prerequisite: Dramatic Arts 201 or 202. In sequence with Dramatic Arts 300 and 302. Offered first semester 1972-73; 3 periods a week; 3 credits. The Staff.

Dramatic Arts 302. Fundamentals of Acting. Study of methods and styles of acting; historical development of acting as a fine art. Pantomime and improvisation. Students to perform in major productions, one-act plays, and class exercises and scenes. Prerequisite: Dramatic Arts 201 or 202. In sequence with Dramatic Arts 300 and 301. Offered alternate years; 2 double periods a week; 2 credits. The Staff.

Dramatic Arts 303. Scene Design. A lecture-laboratory course dealing with the concept of scene design, the practical application of basic principles to modern staging methods, the function of scene design in its relation to the play, and the visual contribution of design to the production as a whole. Procedure and presentation techniques, theatre lighting analysis of equipment needs of educational producing groups. Prerequisite: Dramatic Arts 201, 202 or consent of instructor. Alternate years Offered alternate years; 2 double periods a week; 2 credits. Mr. Lockwood.

Dramatic Arts 304. (Home Economics 304) History of Costume. A lecture-laboratory course dealing with the history of costumes for stage productions, the organization and care of theatre wardrobe, and the theory and technique of stage make-up. Laboratory work coordinated with college productions. Prerequisites: Dramatic Arts 201 and 202 or consent of instructor. Offered alternate years. 2 double periods a week; 2 credits. Miss Farrell.

Dramatic Arts 305, 306. History of the Theatre. A study of Western and Oriental theatre from its beginnings to the present with special emphasis on the impact of the theatre arts of Western civilization. 3 periods a week; 3 credits. Mr. Young.

Dramatic Arts 356. (Physical Education 356) Practicum in Dance. Modern dance techniques, theory, composition and choreographic problems. The course is designed for those students interested in advanced training in performance in dance. Prerequisite: Dramatic Arts 100, 201 or 202 for Dramatic Arts credit, or permission of instructor. Offered 4 periods a week; 3 credits. NOTE: This course is elective and will meet the General Education requirements in Physical Education or Dramatic Arts, but not both. Miss Bowman.

Dramatic Arts 368. World Drama. A study of the forms and types of representative plays in the main current of world drama from its beginning to Goethe. (Same as English 368.) In sequence with Dramatic Arts 369 and 370. Offered alternate years; 3 periods a week; 3 credits. Mr. Lockwood.

Dramatic Arts 369. **Modern European Drama.** A study of the European Theatre from Goethe through Shaw. (Same as English 369.) In sequence with Dramatic Arts 368 and 370. Offered alternate years; 3 periods a week; 3 credits. Mr. Lockwood.

Dramatic Arts 370. **Contemporary Drama.** A study of European and American drama produced in the last fifty years. Brecht, Bolt, Betti, Albee, Frisch, Sartre, Giradoux, Ghelderode, and others. (Same as English 370.) In sequence with Dramatic Arts 368 and 369. Offered alternate years; 3 periods a week; 3 credits. Mr. Lockwood.

Dramatic Arts 404. **Play Writing.** An historical survey of play-writing techniques of the past and present; the development in the student, of a philosophy of play writing which clarifies objective and means, emphasis on theory and practice in play writing; the writing of one-act plays. Offered second semester; 2 two-hour class-laboratories a week; 3 credits. Mr. Young.

Dramatic Arts 413. (English 413) **English Drama to 1642.** A study of the origin and development of English drama until the closing of the theaters in 1642, with particular emphasis on Marlowe, Chapman, Dekker, Jonson, Beaumont, and Fletcher. Offered alternate years. 3 periods a week; 3 credits. Mr. Blackwell.

Dramatic Arts 560, 561. (English 560, 561) **Shakespeare.** Selected comedies, tragedies, and non-dramatic poetry. 560 offered first semester; 561 second semester; 3 periods a week; 3 credits. Miss May.

Course Requirements

An outline of course requirements for each major is found in the following section. In cases where certain courses satisfy both the general education and major requirements, they are listed under major requirements. Thus, the general education requirements will not always total 48 hours. Elective hours have not been included, since their number varies depending upon the degree program in question. **Students should always bear in mind that 126 hours are required for graduation.**

To satisfy the General Education requirements, all students must take English 100 and Health Education 100. Some degree of freedom may be exercised by the student in choosing her other hours of General Education requirements. However, students are urged to consult the departmental descriptions of their respective majors to determine specific general education courses that may be prescribed by their department. The five areas which comprise the General Education program are: **Humanities**, 18 semester hours; **Social Sciences**, 12 semester hours; **Natural Sciences**, 8 semester hours; **Mathematics**, 6 semester hours; and **Health and Physical Education**, 4 semester hours.

Humanities

1. English composition (English 100), 3 credits, is required.
2. Six credits must be completed in art, music, and/or dramatic arts. All of the hours may be taken in one of these disciplines, or the credits may be split among them. If a student chooses to fulfill this requirement in music, 3 hours must be taken in appreciation, history or literature courses. Art 341-342 is **not** recommended except for elementary education majors.
3. The remaining 9 hours must be taken in literature, with the exception that 3 of these 9 hours may be in philosophy (except Philosophy 460). The entire 9 hours in this area, or any part thereof, may be in foreign language literature, if it is above the intermediate (121-122) level.

Social Sciences

1. American History (History 221 or 222), 3 credits, is required.
2. Nine hours of work must be completed in at least two of the following areas: Anthropology, Economics, Geography, Government, History and Sociology.

Natural Sciences

1. A four-hour laboratory course in two of the following areas is required: Astronomy, Biology, Chemistry, Geology, Physical Science and Physics.
2. Certain combinations are not recommended because of duplication of content. These are: Astronomy 200 and Science 102; Geology 200 and Science 102; Physics 101 and Science 101; and Chemistry 101 and Science 102.

Mathematics

1. Students majoring in elementary education must take Mathematics 123, 124.
2. Mathematics 111-112, Mathematics 161, 162 or Mathematics 261, 262 are available to majors in all other curricula. Students majoring in mathematics or one of the Natural Sciences must take Mathematics 161, 162 or 261, 262.

Health and Physical Education

1. Health Education 100, 1 credit, is required.
2. Students may complete this requirement by taking 3 credits in any physical education activity course numbered 104 through 115. Since all students are required to demonstrate their proficiency in swimming for graduation, individuals weak in this area should elect beginning swimming as part of their physical education requirement.
