Trainor, Denise K., "Making the Most of Conferring in Reading Workshop" (2017). *Summer Literacy Institute*. 15.  
<https://digitalcommons.longwood.edu/sli/2017/Friday/15>

This Event is brought to you for free and open access by the University Events and Conferences at Digital Commons @ Longwood University. It has been accepted for inclusion in Summer Literacy Institute by an authorized administrator of Digital Commons @ Longwood University. For more information, please contact [hinestm@longwood.edu](mailto:hinestm@longwood.edu).

## **Description**

Reading conferences with students are an integral part of the reader's workshop format. Conferring provides the opportunity for students to reveal their thinking and reading processes to the teacher. This workshop will explore ways to target the needs of your students and gain deeper insight into their strengths and learning needs.

## **Making the Most of Conferring in Reading Workshop**

Conferring with students is an integral part of the Reader's Workshop format. Whether working with students independently or in small groups, conferring provides the opportunity for students to reveal their thinking and reading processes to the teacher. This workshop will explore ways to target the needs of your students and gain deeper insight into their strengths and learning needs. We will discuss the procedure of selecting targeted teaching points that end with appropriate goals for students to work on independently.

Participants will:

- Learn the different conference structures and when to use them
- Watch video snippets of the different structures
- Understand how to select targeted teaching points
- Select goal(s) for their students to work on between conferences
- Create a sample reading folder to help students focus on their goals
- Be given a list of resources to help them support their use of conferences
